PBIS Tier 1 Summary Notes

Staff & Family Briefing • School Climate & Culture

ALPHA ELEMENTARY

19	11:00 AM	12 or Less	10/27/26
Aug–Sept Referrals	Peak Time (Lunch Recess)	Target Referral Goal	Review Date

📊 Data Findings

- **19 minor physical contact referrals** were recorded during August and September.
- Incidents involved **3 females & 9 males** as primary perpetrators.
- Offenses occurred across most grade levels, primarily **outside the classroom**.

🔍 Root Cause Analysis

- **Playground Area:** Rough play on the soccer fields is a major contributor to minor physical contact.
- **Transitions:** Moving from the playground to the cafeteria creates congestion and issues in the **3rd grade hallway**.

TARGET GOAL **Reduce minor physical contact referrals from 19 down to 12 or fewer by October 27, 2026!**

🛠️ Action Plan & Solutions (Prevent, Teach, Prompt, Reinforce)

- **Dedicated Supervision:** Assign specific staff members to actively monitor the soccer fields during recess and lunch.
- **"Red Card" Protocol:** Implement the phrase **"Red Card"** for rough play. Students receiving a red card must move to another designated play area for the rest of recess/lunch.
- **Expectation Reviews:**
  - Teachers will review playground rules before walking to recess/lunch.
  - Cafeteria staff will review expectations before dismissing students to the yard.
- **Hallway Transitions:** Reinforce schoolwide lineup procedures to improve hallway behavior during movements.
- **Family Communication:** Send a ParentSquare message to all families detailing playground expectations.
