

ATTACHMENT D

Technical Disclosures

RFP #2026-0914 | Due: **Friday, October 30, 2026, by 3:00 PM Eastern Time**

Instructions: Complete all parts in full. Responses must address every SKU listed in Attachment C, Section 4. Where a response differs by SKU, identify the SKU(s) to which each response applies. Rows may be added to Part 1 as needed. Additional pages may be attached, labeled by part and item number. An offeror submitting more than one proposal under Amendment 5.12 must complete a separate Attachment D for each proposal. Responses to this Attachment are binding representations and will be considered in determining compliance with the Required Features and in evaluation under the criteria stated in the RFP, as amended.

Offeror: _____ **Manufacturer:** _____

Part 1: SKU Disclosures

Model / SKU	Network-connected panel? (Y/N) (Amdt. 5.11)	On-board browser, engine, and version shipped (or "None") (Amdt. 5.5)	OS & security support end date (fixed date or period from installation) (Amdt. 5.11)	Management console (Amdt. 6.2)

"Network-connected" means the panel connects to the District network by wired or wireless means, or depends on network connectivity to deliver any Required or Optional Feature, as defined in Amendment 5.11(a).

Part 2: Software, Updates, and Management

D.1 Browser Updates (*Amendment 5.5*)

For each on-board browser identified in Part 1, describe:

- (a) the upstream browser engine and confirmation that it is currently supported;
- (b) how the shipped version compares to the current stable release of that engine (no more than three major versions behind at delivery);
- (c) your commitment for delivering updates that address vulnerabilities rated Critical or High by the upstream project, including the time from upstream fix to availability (no more than sixty (60) days); and
- (d) how browser updates are delivered over the air through the centralized management console, and the typical update cadence.

If no proposed SKU includes an on-board browser, state "None."

Response:

D.2 Update Controls (*Amendment 5.6*)

Describe the update control options available in the management console, addressing each of the following:

- (a) automatic deployment of updates;
- (b) review, approval, and scheduling of updates following District validation;
- (c) staged deployment to a subset of devices (by building, group, or pilot set);
- (d) the ability to defer or decline an update, and the maximum deferral period;
- (e) rollback to a prior version; and
- (f) any update category force-deployed by the manufacturer without District approval.

Response:

D.3 Management Console Costs (*Amendment 6.2*)

Identify any licensing, subscription, or recurring cost associated with each management console identified in Part 1, and state where that cost is priced in Attachment C, Section 8A.

Response:

D.4 Casting and Screen Sharing (*Amendment 5.5*)

- (a) Confirm the method of wireless screen sharing from Chrome OS and Windows devices.
- (b) Identify which of macOS, iOS, and Android are supported, and by what method.
- (c) Disclose any casting or screen sharing feature that requires a separate management console, subscription, licensing, or recurring fee, and state where it is priced in Attachment C, Section 8A.

Response:

D.5 Non-Networked Panels (*Amendment 5.11(b)*)

For any SKU marked “N” in the network-connected column of Part 1, describe how firmware updates correcting defects or security vulnerabilities are delivered under warranty.

Response:

Part 3: Lifecycle

D.6 End-of-Life and End-of-Support Notification (*Amendment 5.15*)

Describe the manufacturer’s and your end-of-life and end-of-support notification practices, including typical notice periods and last-time-buy procedures.

Response:

D.7 Hardware or Compute Upgrade Path (*Amendment 5.16*)

Describe any defined hardware or compute upgrade path, including how the compute element is replaced or upgraded, anticipated availability, and pricing. If the manufacturer’s direction is full panel replacement at end of lifecycle, state that plainly.

Response:

Certification

The undersigned certifies that the disclosures in this Attachment are accurate and complete.
