

CHALLENGING AND ENGAGING ACADEMIC OPPORTUNITIES

Courses will require students to take an active role in hands-on activities, be critical thinkers, be effective communicators, and be disciplined in their daily behavior. This allows for the development of an understanding of the "rank structure" that is required in these career fields. Cadets will be prepared for these and other careers and higher education opportunities.

SERVICE TO OTHERS ABOVE SELF

LOTTERY ENROLLMENT PROCESS

Bridgeport Military Academy is a school of choice that selects its cadets using a blind lottery system. Interested children and their families should apply using the Bridgeport Public School's lottery system. No letters of recommendation or essays are needed to apply to BMA. With a blind lottery, all applicants have an equal opportunity to get into our school!
