V. NYSED Initiatives Alignment

1. How will the district's use of instructional technology support a comprehensive and sustained effort to improve student performance and academic standards, while also addressing the need to provide equitable learning opportunities “everywhere, all the time” (National Technology Plan)?

West Valley Central School continues to integrate technology into all aspects of teaching and learning. The use of instructional technology supports our efforts to improve student perfomance and standards attainment by utilizing technology to further individulize instruction. For example, using data from Benchmark testing to develop skill or content practice in another software program customizes student learning goals and targets. Another example, is using AI data tools to analyze state assessment data in order to identify standard or skill areas that need to be emphasized for a given group of students. This same practice allows for more equitable distribution of teaching where students who may not be identified as needing support in traditional data analyses. The district utilizes instructional technology such as distance learning and online learning for students that would not have this opportunity otherwise because of the small size of our school population. These instructional technologies have allowed us to expand educational opportunities beyond what exists in our physical building.

2. **At the start of the 2026-27 school year, will the district offer full-time virtual instruction to any students? (*Select all that apply)***

- ☐ Yes. Our district operates a full-time virtual instruction program.
- ☐ Yes. One or more of our students will attend a program operated by a BOCES or another public school district.
- ☑ None of our students will participate in a full-time virtual instruction program.
- ☐ Other

3. If the district files or has filed a Smart Schools Investment Plan (SSIP) to apply for Smart Schools Bond Act funds, all responses in this survey align with the district’s response to any related question(s) in the SSIP.

The district does not have an active SSIP.
