Note 1: For the change columns, green indicates an increase, red indicates a decrease, and yellow indicates no change. N=not applicable.

Note 2: In this report, passing refers to students who received a score level of A, B, C, or D.

Note 3: These statistics may differ from those in state and federal accountability results. They were calculated based on where students tested regardless of school entry date.

Note 4: The 2022-2023 school year data in this report includes tests taken during the Fall and Spring administrations. There were no test takers in Summer 2023.

Note 5: Scores for tests taken during the Summer 2026 administration year were not available at the time of analysis. Data for 2026 include only the Fall 2025 and Spring 2026 administrations of the EOCEP. This report is subject to change.

Note 6: Beginning in Fall/Winter 2025, the math course sequence changed so the first high school course is Geometry instead of Algebra 1. Very few, if any, Algebra 1 testers were expected in 2025-26.
