Season Pass Holder

Already bought a pass

2

Bought a Single Ticket

Have a ticket for a specific game

3

Haven't Bought Yet

Need to get a ticket

SECTION 1 · SEASON PASS HOLDERS

You've got a season pass — here's how to use it

Season Pass Holders

Your pass covers every home game — no need to repurchase each week

1

Download the Hudl app

Free on iPhone and Android. Search "Hudl" in the App Store or Google Play. Download before game day.

Already have the Hudl Fan app? That will still work for now, but we recommend downloading the Hudl app — we're moving toward one unified app for all fans.

2

Sign in with your purchase email

Use the same email you used when buying your pass. Your pass appears automatically under My Tickets.

Can't find your pass? Search your inbox for a message from Ticketing@app.hudl.com and tap View Pass. Check spam/junk if you don't see it.

3

Tap your pass, then select the game

In My Tickets, tap your season pass, then tap the game you're attending to pull up your QR code.

QR codes go live 4 hours before kickoff. If you don't see a code yet, check back the day of the game.

4

Show your QR code at the gate

Have your ticket open before you reach the scanner. Turn brightness all the way up — low brightness is the most common reason QR codes fail to scan outdoors.

Transferring Your Season Pass

Right now, transferring your pass moves your entire season pass to another person — including all remaining games. Once transferred, you no longer have access. Only the recipient can transfer it back, so use this carefully.

Our team is actively working on a game-by-game transfer option so you can share a single game without giving up your full pass. That feature is coming soon.

No signal at the stadium? Open your QR code before you lose signal — it works offline once it's loaded on your screen.	Transferring your pass Transferring today moves your entire pass to another person. A game-by-game option is coming soon.
Boost your brightness Low screen brightness is the #1 reason QR codes fail to scan. Turn it all the way up before the gate.	Gate staff can help If your ticket won't scan, step aside and ask an attendant — they can look up your order by name or email.

SECTION 2 · SINGLE-GAME TICKET HOLDERS

Already bought a ticket — here's how to use it

Single-Game Purchasers

You bought a ticket for a specific game — let's get it ready

1 Find your confirmation email

Check the inbox for the email you used at checkout. Look for a message from Ticketing@app.hudl.com.

Not there? Check spam/junk. You can also visit fan.hudl.com and search Lake Travis, or contact support.hudl.com.

2 Open your ticket from the email

Tap the link in your confirmation email to load your QR code. No app or account required — it opens right in your browser. Pull it up before you leave home.

3 Show your QR code at the gate

Have your ticket on screen before you reach the scanner. Turn brightness all the way up. Each code is good for one entry only.

4 Sharing a ticket with someone else?

Forward the confirmation email to the person attending — their QR code is inside. Once a code has been scanned it cannot be used again.

No signal? Load it first Open your ticket before you leave home. Once the QR code is on screen it scans without any internet connection.	Bought multiple tickets? Each ticket has its own QR code. Show them to gate staff one at a time — each is for one person.
Boost your brightness Low screen brightness is the #1 reason codes don't scan outdoors. Turn it all the way up.	One entry per ticket Each QR code is single-use and tied to one person. Once scanned at the gate it cannot be used again.

Two ways to get your ticket

A — Buy Online

Fastest entry · No line · Ticket sent to your phone instantly

Visit the Lake Travis Hudl fan page and purchase before you leave home. Your QR code is emailed instantly — no app or account needed.

fan.hudl.com/usa/tx/austin/organization/863/lake-travis-high-school/tickets

B — Buy at the Gate

Card payment only · No cash accepted

A card reader is available at the gate for each home game. Card payment only — cash is not accepted.

Gate lines can be longer on game night. Buying online before you arrive is faster.

Kids 5 & under are free

No ticket needed for children 5 and under. All others — including students — need a valid ticket.

Student pricing available

Select the Student ticket type at checkout online or ask for the student rate at the gate.

FOR EVERYONE

At the Gate Every Game

Turn your screen brightness all the way up

Low brightness is the #1 reason QR codes fail to scan outdoors. Do it before you get in line, every game.

One scan per ticket, one person per ticket

Each QR code admits one person. Once scanned it cannot be reused. A code that's already been used will be declined.

Load your ticket before you lose signal

Cavalier Stadium can get spotty for data. Open your ticket before you leave home — once it's on screen it scans without any connection.

Gate staff can help if something isn't working

Step aside and ask an attendant. They can look up your purchase by name or email address on the spot.
