

Appropriate Uses and Digital Citizenship

District-owned Chromebooks are to be used for educational purposes. Students must comply with any and all Board Policies regarding student discipline, harassment/bullying and to the Roselle District 12 Acceptable Use Policy and all of its corresponding administrative procedures at all times. Violations of these policies will result in the loss of privileges, disciplinary action, and/or appropriate legal action.

Safety and Security

The safety of our students when they are online is a priority of the District. The Securly system monitors students when they are searching the internet. Student searches are flagged for any inappropriate or concerning searches, and sites are blocked if they don't meet the system's filtering criteria. Securly also monitors for terms regarding cyberbullying, threats, or self-harm in student internet searches and through the Google suite of products we use in our schools (Gmail, Google Docs, Google Classroom, etc). The district is notified when flagging occurs so that administration can respond to the student's wellness, safety, or inappropriate use.

Thank you for your collective effort in keeping our students safe and engaged in learning in a digital environment.
