

Welcome to 2nd Grade!

Welcome to the 2026–2027 school year at Petrides! We are excited to begin the upcoming school year with your children.

The first few weeks of school will be dedicated to routines and building community in our classrooms. We will spend time getting to know each other through interactive lessons and activities.

In reading, we will be exploring texts, listening to stories through read-alouds, and dissecting poems. We also look forward to getting to know your children through guided reading groups and book clubs. At home, students will be able to log into RAZ kids to practice their reading skills daily.

In writing, students will illustrate, tell, and write their own true stories, thinking of themselves as authors. We will be working on different genres of writing, including; narratives, opinion pieces, and informative pieces.

In math, students will learn many new skills using math tools such as rulers, clocks, money, pattern blocks, cubes and many more!

Students will be given homework assignments daily, except for Fridays. Please check your child's folder every night to look for important notices and/or homework worksheets. Our students will be going to gym, science and art class throughout the week. Please dress appropriately on gym days.

Our main source of communication is through the Remind! App, therefore it is important you have it downloaded. Google classroom will be used when necessary, such as a snow day. The best way to contact us aside from Remind is through email. We are looking forward to a great year with our students!

The Second Grade Team

Class 220

Ms. Guerrise

MGuerrise2@schools.nyc.gov

Mr. McDonald
