Fort Bend ISD Board of Trustees Approves Secondary Boundary Changes

FORT BEND ISD (October 5, 2026) - The Fort Bend ISD (FBISD) Board of Trustees approved secondary attendance boundary changes. The Board approved the sole middle school boundary scenario presented, as well as High School Boundary Scenario #1.

The approval follows several months of data analysis, review and engagement with the School Boundary Advisory Committee (SBAC) and the broader community.

The secondary boundary planning process included input from the district boundary planner, SBAC, and district staff, along with opportunities for community members to provide feedback through a survey.

District leaders will begin working closely with affected campuses and families to support a smooth transition ahead of the 2027–28 school year. Additional information, including transition timelines and campus support plans, will be shared with families in the coming weeks.

More information about the boundary planning process and approved boundary changes can be found at www.fortbendisd.gov/attendanceboundaries.

###

Fort Bend ISD is the sixth-largest school district in Texas, serving over 75,000 students and employing more than 10,000 employees. The District is committed to providing a high-quality education in a safe and supportive environment.
