October 2026

Farmers Market

Bryant Elementary hosted this season's farmers market. Students shopped for local produce and made their own pickles to take home.

Representatives from Tom Maceri, Argus Farm Stop, and Common Market were there to pass out produce to students. Francina from Buchanan Oasis Farmstead led the pickle making demonstration for each class.

Students went home with carrots, apples, pears, bell peppers, leaf lettuce, corn, a jar of freshly sliced pickled cucumbers, and a reusable grocery bag.

The Farmers Market is a great opportunity for students to see the value in local produce by showing them who is responsible for the fresh fruits and veggies they eat!
