

How to Shop at Merchants

GEO will walk you through how your shopping can support your school.

Here's what to do:

1

Go to SchoolStore

Visit www.schoolstore.com.

When asked, enter your school's name, city, and state, then select your school.

2

Confirm you're supporting your school

After you select your school, the site will tell you that you are "supporting (name of school)."

3

Choose a merchant and shop

Select the merchant you want to shop with. You'll see the percentage that merchant gives back to your school. Purchases made through merchants do not count toward a student's thermometer.

4

When will the school see the money?

The school will see the applicable percentage of online sales appear on its Reports page in about 30-45 days, depending on the merchant's return period.

One important thing!

SchoolStore does not share student information with our 400+ merchant partners. Once you leave SchoolStore to shop, the merchant's own privacy practices apply.

!

Remember: Your merchant purchase helps your school earn money, but it does not increase the student's thermometer.
