**INDEPENDENT AUDITOR'S REPORT**

To the Board of Education  
Miller Place Union Free School District  
Miller Place, New York

**Report on the Audit of the Financial Statements**

***Opinions***

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Miller Place Union Free School District ("the District"), as of and for the year ended June 30, 2026, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Miller Place Union Free School District, as of June 30, 2026, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

***Basis for Opinions***

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

***Emphasis of Matter – Error Correction***

As discussed in Note 11 to the financial statements, "Capital Assets/Error Correction," the previously issued financial statements have been restated to correct a misstatement related to capital assets and the related beginning net position. Our opinion is not modified with respect to this matter.

***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

## ***Auditor's Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

## ***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that management's discussion and analysis, schedule of revenues, expenditures, and changes in fund balance – budget and actual – general fund, notes to required supplementary information – budgetary comparison, schedule of the district's proportionate share of the net pension asset/(liability), schedule of district pension contributions, and schedule of changes in the district's total OPEB liability and related ratios on pages 4 through 15 and 56 through 61 respectively, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### ***Supplementary Information***

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Miller Place Union Free School District's basic financial statements. The accompanying combining nonmajor funds financial statements on pages 62 and 63 are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining nonmajor funds financial statements are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

### ***Other Information***

The other information on pages 64 through 66 is presented for purposes of additional analysis and is not a required part of the basic financial statements, but is other information requested by the New York State Education Department. Management is responsible for the other information. The other information does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

### ***Other Reporting Required by Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated September 10, 2026, on our consideration of Miller Place Union Free School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Miller Place Union Free School District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Miller Place Union Free School District's internal control over financial reporting and compliance.

**MILLER PLACE UNION FREE SCHOOL DISTRICT**  
**MANAGEMENT'S DISCUSSION AND ANALYSIS [UNAUDITED]**

The Miller Place Union Free School District's ("the District") discussion and analysis of the financial performance provides an overall review of the District's financial activities for the fiscal year ended June 30, 2026 in comparison with the year ended June 30, 2025, with emphasis on the current year. This should be read in conjunction with the financial statements, notes to financial statements, required supplementary information (RSI), supplementary information, and other information, which immediately follow this section.

**1. OVERVIEW OF THE FINANCIAL STATEMENTS**

This annual report consists of four parts – RSI, including both management's discussion and analysis (MD&A) and other than MD&A, the financial statements, supplementary information, and other information. The financial statements consist of district-wide financial statements, governmental funds financial statements, fiduciary fund financial statements, and notes to financial statements. A graphic display of the relationship of these statements follows:

**A. District-Wide Financial Statements**

The district-wide financial statements present the governmental activities of the District and are organized to provide an understanding of the fiscal performance of the District, as a whole, in a manner similar to a private sector business. There are two district-wide financial statements - the Statement of Net Position and the Statement of Activities. These statements provide both an aggregate and long-term view of the District's finances.

These statements utilize the economic resources measurement focus and the accrual basis of accounting. This basis of accounting recognizes the financial effects of events when they occur, without regard to the timing of cash flows related to the events.

**The Statement of Net Position**

The Statement of Net Position presents information on all of the District's assets and deferred outflows of resources, and liabilities and deferred inflows of resources, with the difference reported as net position. Increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating. To assess the overall health of the District, one needs to consider additional nonfinancial factors such as changes in the District's property tax base and the condition of the District's school buildings and other capital assets.

**The Statement of Activities**

The Statement of Activities presents information showing the change in net position during the fiscal year. All changes in net position are recorded at the time the underlying financial event occurs. Revenues are recognized in the period when they are earned and expenses are recognized in the period when the liability is incurred. Therefore, revenues and expenses are reported in the statement for some items that will result in cash flows in future fiscal periods.

**MILLER PLACE UNION FREE SCHOOL DISTRICT**  
**MANAGEMENT'S DISCUSSION AND ANALYSIS [UNAUDITED]**  
(Continued)

---

**B. Funds Financial Statements**

The funds financial statements provide more detailed information about the District's funds, not the District as a whole. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District also uses fund accounting to ensure compliance with finance-related legal requirements. The funds of the District are reported in the governmental funds and the fiduciary fund.

Governmental Funds

These statements utilize the current financial resources measurement focus and the modified accrual basis of accounting. This basis of accounting recognizes revenues in the period when they become measurable and available. It recognizes expenditures in the period when the District incurs the liability, except for certain expenditures such as debt service on general long-term indebtedness, subscription liabilities, compensated absences, pension costs, and other postemployment benefits (OPEB), which are recognized as expenditures to the extent the related liabilities mature each period.

Governmental funds are used to account for essentially the same functions reported as governmental activities in the district-wide financial statements. However, the governmental funds financial statements focus on shorter-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year for spending in future years. Consequently, the governmental funds statements provide a detailed short-term view of the District's operations and the services it provides.

Because the focus of governmental funds is narrower than that of district-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the district-wide financial statements. By doing so, the reader may better understand the long-term impact of the District's near-term financing decisions. Both the governmental funds Balance Sheet and the governmental funds Statement of Revenues, Expenditures, and Changes in Fund Balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District maintains six individual governmental funds: general fund, special aid fund, capital projects fund, school food service fund, extraclassroom activities fund, and scholarships fund. Information is presented separately in the governmental funds balance sheet and the governmental funds statement of revenues, expenditures, and changes in fund balances for the general fund, special aid fund, and capital projects fund, since the District has elected to report them as major funds. Combining information for the nonmajor funds can be found elsewhere in this report.

The District adopts an annual budget for the general fund. A budgetary comparison statement has been provided for the general fund within the RSI to demonstrate compliance with the budget.

Fiduciary Fund

The District reports its fiduciary activities in the fiduciary fund – custodial fund. This fund reports real property taxes collected on behalf of other governments and disbursed to those governments, and utilizes the economic resources measurement focus and the accrual basis of accounting. All of the District's fiduciary activities are reported in separate statements. The fiduciary activities have been excluded from the district-wide financial statements because the District cannot use these assets to finance its operations. The District has met its fiduciary responsibility of collecting and distributing property taxes on behalf of other governments.

**2. FINANCIAL SUMMARY AND DETAILED ANALYSIS**

**A. Net Position**

The net position summary has been consolidated and reclassified from the prior year's presentation to align with the reporting format required by the implementation of GASB Statement No. 103.

The District's total net position increased by \$1,689,733 between fiscal years 2026 and 2025. The increase is due to revenues in excess of expenses using the economic resources measurement focus and the accrual basis of accounting. A summary of the District's Statements of Net Position, follows:

The decrease in current and other assets is primarily related to the decrease in cash, offset by the District's share of the New York State Teachers' Retirement System's (TRS) net pension assets – proportionate share, at the measurement date of the respective year.

The increase in capital assets, net is due to capital assets additions in excess of depreciation/amortization expense. Capital assets, net was decreased by \$187,049 due to an error correction, as the change in capitalization threshold from \$1,000 to \$5,000 was not reflected in the June 30, 2025 appraisal report. The "Capital Assets/Error Correction" Note provides additional information.

The change in long-term liabilities is primarily related to the following:

- Total OPEB liability increased \$14,650,069 based on the actuarial valuation of the plan
- Repayments of \$3,125,000 in current year bond indebtedness

Deferred inflows of resources represents actuarial adjustments of the pension and OPEB plans that will be amortized in future years.

**MILLER PLACE UNION FREE SCHOOL DISTRICT**  
**MANAGEMENT'S DISCUSSION AND ANALYSIS [UNAUDITED]**  
(Continued)

The unrestricted (deficit) amount relates to the balance of the District's net position. This balance does not include the District's reserves, which are classified as restricted. Additionally, certain unfunded liabilities will have the effect of reducing the District's unrestricted net position. One such unfunded liability is the total OPEB liability. In accordance with state guidelines, the District is only permitted to fund OPEB on a "pay as you go" basis, and is not permitted to accumulate funds for the OPEB liability.

**B. Changes in Net Position**

The results of operations, as a whole, are reported in the Statement of Activities in a programmatic format. In the accompanying financial statements school tax relief (STAR) revenue is included in the other tax items line. However, in this MD&A, STAR revenue has been combined with property taxes. The District's net position increased by \$1,689,733 and \$393,033 for the years ended June 30, 2026 and 2025, respectively.

The District's revenues increased when compared to the prior year, primarily due to the following changes:

- Real property taxes and STAR were increased to fund additional appropriations in the voter-approved 2025-2026 budget.
- Operating grants & contributions increased due to more meals submitted to Child Nutrition for reimbursement and higher reimbursement rates.

The District's expenses increased when compared to the prior year, primarily due to the following major changes:

- General support increased based on the impact of allocations of the net change in actuarially determined pension expenses for TRS and OPEB costs.

**3. DETAILED ANALYSIS OF GOVERNMENTAL FUNDS**

At June 30, 2026, the District's governmental funds reported a combined fund balance of \$21,287,369, which is a decrease of \$6,660,211 from the prior year. This decrease is due to an excess of expenditures and other financing uses over revenues and other financing sources using the current financial resources measurement focus and the modified accrual basis of accounting. A summary of the change in the components of fund balance by fund, is as follows:

- General support increased primarily as a result of increases in central services due to the MPHS track repair & resurfacing, MPHS auditorium upgrades, AMPS door access hardware and software, and a new public address system at NCRS.
- Instruction increased due to routine salary and step increases.
- Debt service increased due to the District making its first principal payment on the \$15,000,000 serial bonds issued in 2024.
- Employee benefits increased due to higher pension contribution rates, for the District's liabilities to the TRS and ERS, as well as step and salary increases, and payments made to retirees for incentive and unused accumulated sick time.

*Change in Unassigned Fund Balance*

The general fund's unassigned fund balance is the component of total fund balance that is the residual of current and prior years' excess revenues over expenditures and other financing uses, net of transfers to reserves, appropriations to fund the subsequent year's budget, encumbrances, and amounts classified as nonspendable. The change in this balance, demonstrated through a comparison of the actual revenues and other financing sources, and expenditures and other financing uses for the year compared to budget, follows:

|                                                                   |                     |
|-------------------------------------------------------------------|---------------------|

| Revenues Over Budget                                              | 479,149             |
| Expenditures, Other Financing Uses, and Encumbrances Under Budget | 4,158,778           |
| Net Change in Nonspendable Fund Balance                           | (44,921)            |
| Unused Appropriated Reserves                                      | (124,895)           |
| Allocation to Reserves                                            | (1,762,216)         |

**B. Special Aid Fund**

The special aid fund accounts for federal and state aid grants in which revenues and other financing sources less expenditures equal, and the fund balance is zero. Both revenues and other financing sources, and expenditures in the current year increased by \$95,070, primarily due to more activity in the summer program for students with disabilities.

**C. Capital Projects Fund**

The capital projects fund – fund balance is a net decrease of \$5,015,054, compared to a net decrease of \$6,256,909 in 2025. This resulted from expenditures in excess of revenues and other financing sources.

**D. Reclassification of Major Funds to Nonmajor Funds**

During the year ended June 30, 2026, the District reclassified the school food service, extraclassroom activities, and scholarships funds from major funds to nonmajor funds. This change is a voluntary presentation change made to improve the clarity of the financial statements and has no impact on the overall governmental fund balances. The funds were previously presented as major funds, but changes in financial activity during the current year now justify the nonmajor classification.

**E. Nonmajor Funds**

The net change in the nonmajor funds – fund balance is a net increase of \$224,171, compared to a net increase of \$88,730 in 2025, as revenues of \$1,787,748 exceeded expenditures of \$1,563,577. Revenues increased by \$388,565 or 27.8% over the prior year. The increase was mainly due more meals submitted to Child Nutrition for reimbursement and higher reimbursement rates, resulting in the District recognizing more state aid revenue in the school food service fund.

**4. SIGNIFICANT CAPITAL ASSETS AND LONG-TERM FINANCING ACTIVITY**

**A. Capital Assets and Intangible Assets**

At June 30, 2026, the District has invested in a broad range of capital assets and intangible assets, as indicated in the table below. The net increase in capital assets and intangible assets is due to capital outlays and other asset additions of \$6,154,809 in excess of depreciation/amortization expense of \$2,272,897 recorded for the year ended June 30, 2026. A summary of the District's capital assets and intangible assets, net of accumulated depreciation/amortization at June 30, 2026 and 2025, is as follows:

|                               | 2026                 | As Restated<br>2025  | Increase<br>(Decrease) |

Capital assets was decreased by \$187,049 due to an error correction, as the change in capitalization threshold from \$1,000 to \$5,000 was not reflected in the prior year's appraisal report. The 2025 balances have been restated to reflect the effect of the threshold change.

On October 19, 2021, the voters of the District authorized the District to issue serial bonds not to exceed \$30,000,000 for improvements to district-wide infrastructure and facilities. As of June 30, 2026, debt in the amount of \$20,000,000 has been issued. Work has commenced and expenditures are recorded in the capital projects fund.

The District's latest underlying, long-term credit rating from Moody's Investors Service, Inc. is Aa2. The District's outstanding serial bonds at June 30, 2026 are approximately 2.10% of the District's debt limit.

**C. Other Long-Term Liabilities**

Included in the District's long-term liabilities are the estimated amounts due for compensated absences, which are based on employment contracts, and net pension liabilities – proportionate share and total OPEB liability, which are based on actuarial valuations. A summary of the outstanding other long-term liabilities at June 30, 2026 and 2025, is as follows:

**5. CURRENTLY KNOWN FACTS, DECISIONS, OR CONDITIONS**

**A. Subsequent Year's Budget**

The general fund budget, the only fund with a legally adopted budget, was approved by 73.8% of the voters on May 19, 2026.

The District increased budgeted revenues other than property taxes and STAR over the prior year's estimate, which is principally due to an estimated increase in state aid. The assigned, appropriated fund balance applied to the budget decreased from the previous year. Additionally, the District has elected to decrease the amount of appropriated reserves towards the next year's budget. A property tax increase was needed to meet the funding shortfall and cover the increase in appropriations. The following is a summary of these changes:

|                           | 2026                 | 2027                 | Change              |

**B. Tax Cap**

New York State law limits the annual increase in the property tax levy of school districts to the lesser of 2% plus additional statutory adjustments to the tax levy limit, or the rate of inflation plus additional statutory adjustments to the tax levy limit. School districts may override the tax levy limit (tax cap) by presenting a budget to the voters, which requires a tax levy that exceeds the statutory limit; however, that budget must be approved by at least 60% of the votes cast. The District's 2026-2027 property tax increase was within New York State tax cap regulations.

A settlement between the Town of Brookhaven and the Long Island Power Authority (LIPA) transitions LIPA's properties off the tax rolls to scheduled payments in lieu of taxes. Furthermore, the tax cap formula requires the subtraction of PILOT revenues from the District's allowable levy growth, lowering the District's legal tax cap ceiling. As a result of this settlement, the District's tax dropped from \$55,020,150 to \$54,173,161, a decrease of \$846,989 in the planned tax levy. The loss of revenue will be partially replaced by PILOT payments.

**C. Future Budgets**

Factors to consider that could influence future budgets:

- Uncertainty with state aid complicates long-range planning.
- Rise in employee cost centers of employee salaries and health benefits, as well as contributions to pension programs.
- Changing circumstances of unforeseen events and risks including natural disasters and global pandemics.
- Impact of external factors such as market trends, economic conditions, and regulatory changes.
- The combination of high inflation and high-interest rates can impact all lines of the budget.
- Social and demographic changes with population, age distribution, and personal income can have significant and lasting effects.
- Legal and intergovernmental factors constraining tax increases, forbidding particular revenue sources, and mandating some services.

**D. State Budget Enacted**

- **Tier VI Reform:** Effective October 1, 2026, New York State and Local Retirement System (NYSLRS) Tier VI members making over \$45,000 will see a reduction in retirement contribution rates. Additionally, the overtime ceiling used in calculating final average salary will increase to \$30,000 starting January 1, 2027. The reform package excludes overtime from contribution rates calculations through March 31, 2028.
- **Education Aid:** Total increases include a guaranteed 2% in Foundation Aid to every district. Also, the mandate to purchase electric buses was pushed back from 2027 to 2032.

**MILLER PLACE UNION FREE SCHOOL DISTRICT**  
**Reconciliation of the Governmental Funds Balance Sheet**  
**to the District-wide Statement of Net Position**  
June 30, 2026

Total Governmental Fund Balances \$ 21,287,369

Amounts reported for governmental activities in the Statement of Net Position are different because:

The costs of building, acquiring, or the right-to-use capital and intangible assets financed from the governmental funds are reported as expenditures in the year they are incurred, and the assets do not appear on the Balance Sheet. However, the Statement of Net Position includes those capital assets among the assets of the District as a whole, and their original costs are expensed annually over their useful lives.

|                                                                 |                     |            |

|                                                                 |                     | 59,847,311 |

Prepayments for subscription-based information technology arrangements are reported as prepaid expenditures, an asset on the Balance Sheet; however, on the Statement of Net Position, those prepaid costs are reclassified as capital assets. (126,177)

Proportionate share of long-term assets and liabilities, as well as deferred outflows and inflows associated with participation in the state retirement systems are not current financial resources or assets and liabilities and are not reported in the funds.

**Changes in Fund Balances to the District-wide Statement of Activities**  
For the Year Ended June 30, 2026

Net Change in Fund Balances \$ (6,660,211)

Amounts reported for governmental activities in the Statement of Activities are different because:

Long-Term Revenue and Expense Differences

Certain revenues are recognized in the governmental funds when they provide current financial resources. However, these revenues were recognized in the Statement of Activities in prior years when they were earned.

\$ (1,630)

Certain expenditures in the governmental funds requiring the use of current financial resources (amounts paid) may exceed the amounts incurred during the year, resulting in a reduction of the long-term liability and an increase in the net position.

|                                          |         |         |
|------------------------------------------|---------|---------|
| Decrease in compensated absences payable | 429,331 |         |
|                                          |         | 427,701 |

Capital Related Differences

Capital outlays to purchase, build, or the right-to-use capital assets are reported in governmental funds as expenditures. However, for governmental activities those costs are capitalized and shown in the Statement of Net Position and allocated over their useful lives as annual depreciation/amortization expense in the Statement of Activities. This is the amount by which capital outlays and other additions exceeded depreciation/amortization expense in the period.

|----------------------------------------------------------------------------------------------------------------------------------------------|--|----------|

Long-Term Debt Transactions Differences

The amortization of the deferred premium, net of the amortization of the deferred charges on the advance refunding of bonds, decreases interest expense in the Statement of Activities.

182,354

Repayment of long-term debt principal is an expenditure in the governmental funds, but it reduces long-term liabilities in the Statement of Net Position and does not affect the Statement of Activities.

|                                     |           |  |
|-------------------------------------|-----------|--|

| Subscription liabilities            | 36,342    |  |

Interest on long-term debt in the Statement of Activities differs from the amount reported in the governmental funds because interest is recorded as an expenditure in the funds when it is due, and thus requires the use of current financial resources. In the Statement of Activities, however, interest expense is recognized as the interest accrues, regardless of when it is due. This is the amount by which accrued interest decreased from June 30, 2025 to June 30, 2026.

Pension and Other Postemployment Benefits Differences

The change in the proportionate share of the collective pension expense of the state retirement plans and the change in other postemployment benefits expense reported in the Statement of Activities did not affect current financial resources and, therefore, are not reported in the governmental funds.

**MILLER PLACE UNION FREE SCHOOL DISTRICT**  
**NOTES TO FINANCIAL STATEMENTS**

---

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The financial statements of the Miller Place Union Free School District ("the District") have been prepared in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) for governmental units. The Governmental Accounting Standards Board (GASB) is the standard-setting body for establishing governmental accounting and financial reporting principles. Significant accounting principles and policies used by the District, are as follows:

**A. Reporting Entity**

The District is governed by the laws of New York State. The District is an independent entity governed by an elected Board of Education ("the Board") consisting of five members. The President of the Board serves as the chief fiscal officer and the Superintendent is the chief executive officer. The Board is responsible for, and controls all activities related to public school education within the District. Board members have the authority to make decisions, power to appoint management, and primary accountability for all fiscal matters.

The financial reporting entity is based on criteria set forth by GASB. The financial reporting entity consists of the primary government, organizations for which the primary government is financially accountable, and other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

The accompanying financial statements present the activities of the District. The District is not a component unit of another reporting entity. The decision to include a potential component unit in the District's reporting entity is based on several criteria including legal standing, fiscal dependency, and financial accountability. Based on the application of these criteria, there are no other entities that would be included in the District's reporting entity.

**B. Joint Venture**

The District is a component district in the Board of Cooperative Educational Services of Eastern Suffolk (BOCES). A BOCES is a voluntary, cooperative association of school districts in a geographic area that shares planning, services, and programs which provide educational and support activities. BOCES are organized under §1950 of the New York State Education Law ("the Education Law"). A BOCES board is considered a corporate body. Members of a BOCES board are nominated and elected by their component member boards in accordance with provisions of §1950 of the Education Law. All BOCES property is held by the BOCES board as a corporation under §1950(6). In addition, BOCES boards are also considered municipal corporations to permit them to contract with other municipalities on a cooperative basis under §119-n(a) of the New York State General Municipal Law (GML). A BOCES budget is comprised of separate budgets for administrative, program, and capital costs. Each component district's share of administrative and capital costs is determined by resident public school district enrollment as defined in Education Law, §1950(4)(b)(7). There is no authority or process by which a school district can terminate its status as a BOCES component. In addition, component school districts pay tuition or a service fee for programs in which its students participate.

**C. Basis of Presentation**

District-Wide Financial Statements

The Statement of Net Position and the Statement of Activities present information about the overall governmental financial activities of the District, except for fiduciary activities. Eliminations have been made to eliminate the double counting of interfund transactions. Governmental activities are generally financed through taxes, state aid, intergovernmental revenues, and other exchange and nonexchange transactions. Operating grants and contributions include operating-specific and discretionary (either operating or capital) grants and contributions, if any.

The Statement of Net Position presents the financial position of the District at fiscal year end. The Statement of Activities presents a comparison between program expenses and revenues for each function of the District's governmental activities. Direct expenses are those that are specifically associated with and are clearly identifiable to a particular function. Employee benefits are allocated to functional areas in proportion to the payroll expended for those areas. Program revenues include (a) charges paid by the recipients of goods or services offered by the programs and (b) grants that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including real property taxes and state aid, are presented as general revenues.

Funds Financial Statements

The funds financial statements provide information about the District's funds, including the fiduciary fund. Separate statements for each fund type, governmental and fiduciary, are presented. The District's financial statements present the following fund types:

**Governmental Funds** - are those through which most governmental functions are financed. The acquisition, use, and balances of expendable financial resources, and the related liabilities are accounted for through governmental funds. The emphasis of governmental funds financial statements is on major funds as defined by GASB, each displayed in a separate column. The following are the District's major governmental funds:

**General Fund** - is the general operating fund and is used to account for all financial transactions except those required to be accounted for in another fund.

**Special Aid Fund** - is used to account for the proceeds of specific revenue sources such as federal and state grants that are legally restricted to expenditures for specified purposes. These legal restrictions may be imposed by either governments that provide the funds or outside parties.

**Capital Projects Fund** - is used to account for the financial resources used for the acquisition, construction, renovation, or major repair of, or the right-to-use capital facilities and other capital and intangible assets.

The following are the District's nonmajor governmental funds:

**School Food Service Fund** - is used to account for the activities of the food service program.

**Extraclassroom Activities Fund** - is used to account for the funds operated by and for the students of the District. The Board exercises general oversight of these funds. The extraclassroom activities fund are independent of the District with respect to its financial transactions and the designation of student management. Separate audited financial statements of the extraclassroom activities fund can be found at the District's Business Office.

**MILLER PLACE UNION FREE SCHOOL DISTRICT**  
**NOTES TO FINANCIAL STATEMENTS**  
(Continued)

---

**Scholarships Fund** – is used to account for funds collected that benefit annual third-party awards and scholarships for students.

**Fiduciary Funds** – are used to account for activities in which the District acts as trustee or custodian for resources that belong to others. These activities are not included in the district-wide financial statements, because their resources do not belong to the District, and they are not available to be used to finance District operations. The following is the District's fiduciary fund.

**Custodial Fund** – is used to account for real property taxes collected on behalf of other governments and disbursed to those governments.

**D. Measurement Focus and Basis of Accounting**

Measurement focus describes what type of information is reported, and is either the economic resources measurement focus or the current financial resources measurement focus. The economic resources measurement focus reports all assets, liabilities, and deferred resources related to a given activity, as well as transactions of the period that affect net position. For example, all assets, whether financial (e.g., cash and receivables) or capital (e.g., property and equipment) and liabilities (including long-term debt and obligations) are reported. The current financial resources measurement focus reports more narrowly on assets, liabilities, and deferred resources that are relevant to near-term liquidity, along with net changes resulting from transactions of the period. Consequently, capital assets and the unmatured portion of long-term debt and certain other liabilities the District would not expect to liquidate currently with expendable available financial resources (e.g., compensated absences for employees still in active service) would not be reported.

Basis of accounting describes when changes are recognized, and is either the accrual basis of accounting or the modified accrual basis of accounting. The accrual basis of accounting recognizes changes in net position when the underlying event occurs, regardless of the timing of related cash flows. The modified accrual basis of accounting recognizes changes only at the point they affect near-term liquidity.

The district-wide and fiduciary fund financial statements are reported using the economic resources measurement focus and accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash transaction takes place. Nonexchange transactions, in which the District gives or receives value without directly receiving or giving equal value in exchange, include real property taxes, state aid, grants, and donations. On an accrual basis, revenue from real property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from state aid is recognized in the fiscal year it is apportioned by the state. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Charges for services are recognized in the year the services are provided.

The governmental funds financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized when measurable and available. The District considers all revenues reported in the governmental funds to be available if the revenues are collected within 180 days after the end of the fiscal year, except for real property taxes, which are considered to be available if they are collected within 60 days after the end of the fiscal year. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, subscription liabilities, compensated absences, pension costs, and OPEB, which are recognized as expenditures to the extent they have matured. Capital assets acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt are reported as other financing sources.

**E. Real Property Taxes and Other Tax Items**

Calendar

Real property taxes are levied annually by the Board no later than November 1st and become a lien on December 1st. Taxes are collected by the town of Brookhaven and remitted to the District from December to June.

Enforcement

Uncollected real property taxes are subsequently enforced by Suffolk County in June.

School Tax Relief (STAR) Aid

New York State implemented the STAR program with the enactment of Chapter 389 of the Laws of 1997 to reduce the school property tax burden on residential homeowners. A school district's annual property tax levy as adopted is reduced by the total amount of the STAR exemptions granted to homeowners. School districts are reimbursed for this loss in property tax revenues by the state with STAR aid, which is reported as other tax items revenue.

**F. Restricted Resources**

When an expense is incurred for purposes for which both restricted and unrestricted net resources are available, the District's policy concerning which to apply first varies with the intended use, and with associated legal requirements, many of which are described elsewhere in these Notes to Financial Statements.

**G. Interfund Transactions**

The operations of the District include transactions between funds. These transactions may be temporary in nature, such as with interfund borrowings. The District typically loans resources between funds for the purpose of providing cash flow. These interfund receivables and payables are expected to be repaid within one year. Permanent transfers of funds include transfers to provide financing or other services. This includes the transfer of unrestricted general fund revenues to finance various programs that the District must account for in other funds in accordance with budgetary authorizations.

In the district-wide statements eliminations have been made for all interfund receivables and payables among the funds.

The governmental funds report all interfund transactions as originally recorded. Interfund receivables and payables are netted on the accompanying governmental funds balance sheet when it is the District's practice to settle these amounts at a net balance based upon the right of legal offset.

A detailed disclosure by individual fund for interfund receivables, payables, transfers in, and transfers out activity is provided subsequently in these Notes to Financial Statements.

**H. Use of Estimates**

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amount of assets, deferred outflows of resources, liabilities, and deferred inflows of resources, and disclosure of contingencies at the date of the financial statements and the reported revenues and expenses/expenditures during the reporting period.

**MILLER PLACE UNION FREE SCHOOL DISTRICT**  
**NOTES TO FINANCIAL STATEMENTS**  
(Continued)

---

Accordingly, actual results could differ from those estimates. Estimates and assumptions are made in a variety of areas, including revenue availability, compensated absences, pension costs, OPEB, workers' compensation, potential contingent liabilities, and useful lives of capital assets and intangible assets.

**I. Cash**

Cash consists of cash on hand, bank deposits, and investments with an original maturity date of 90 days or less from date of acquisition.

Certain cash balances are restricted by various legal and contractual obligations, such as legal reserves and debt agreements.

**J. Receivables**

Receivables are recorded when the transaction takes place, and the respective revenues are recognized as earned in the district-wide financial statements, and when available in the governmental funds financial statements. Receivables are shown net of an allowance for uncollectibles, if any. However, no allowance for uncollectibles has been provided since it is believed that such allowance would not be material.

**K. Prepaids**

Prepaid items represent payments made by the District for which benefits extend beyond year end. These payments to vendors reflect costs applicable to future accounting periods and are recorded as assets on the Statement of Net Position and Balance Sheet using the consumption method.

Under the consumption method, a current asset for the prepaid item is recorded at the time of receipt and/or purchase and an expense/expenditure is reported in the year the goods or services are consumed.

A portion of fund balance has been classified as nonspendable to indicate that prepaids do not constitute available spendable resources.

**L. Capital Assets and Intangible Assets**

The district-wide financial statements report both capital and intangible assets, such as right-to-use leased and subscription-based information technology assets. Capital assets are reported at actual cost, when the information is available, or at estimated historical cost based on professional third-party information. Donated assets are reported at acquisition value at the date of donation. Intangible assets are reported based on the estimated lease and subscription liabilities calculated in accordance with GASB standards.

All capital and intangible assets, except land and construction in progress, are depreciated on a straight-line basis over their estimated useful lives, intangible assets are amortized on a straight-line basis over the term of their underlying agreements, as follows:

|                               | <u>Capitalization<br/>Threshold</u> | <u>Estimated<br/>Useful Life</u> |
|-------------------------------|-------------------------------------|----------------------------------|
| Buildings and improvements    | \$ 5,000                            | 50 years                         |
| Site improvements             | 5,000                               | 20 years                         |
| Furniture and equipment       | 5,000                               | 5 years                          |

| Subscription assets           | -                                   | 3-5 years                        |

**MILLER PLACE UNION FREE SCHOOL DISTRICT**  
**NOTES TO FINANCIAL STATEMENTS**  
(Continued)

---

**M. Deferred Outflows of Resources**

Deferred outflows of resources, in the Statement of Net Position, represents a consumption of net assets that applies to a future reporting period and so will not be recognized as an outflow of resources (expense) until that time. The District has three items that qualify for reporting in this category. First is the unamortized amount of deferred charges from a refunding of bonds that is being amortized as a component of interest expense on a straight-line basis through June 30, 2030. The second item is related to pensions and consists of the District's proportionate share of changes in the collective net pension assets or liabilities not included in collective pension expense and the District's contributions to the pension systems (TRS and ERS) subsequent to the measurement date. The third item is related to OPEB and represents the change in the total OPEB liability not included in OPEB expense.

**N. Short-Term Debt**

The District may issue revenue anticipation notes (RAN) and tax anticipation notes (TAN), in anticipation of the receipt of revenues. These notes are recorded as a liability of the fund that will actually receive the proceeds from the issuance of the notes. The RANs and TANs represent liabilities that will be extinguished by the use of expendable, available resources of the fund.

The District may issue bond anticipation notes (BAN), in anticipation of proceeds from the subsequent sale of bonds. These notes are recorded as current liabilities of the funds that will actually receive the proceeds from the issuance of bonds. State law requires that BANs issued for capital purposes be converted to long-term financing within five years after the original issue date, seven years if originally issued during calendar year 2015 through, and including, 2021. The notes, or renewal thereof, may not extend more than two years beyond the original date of issue, unless a portion is redeemed within two years and within each twelve-month period thereafter.

**O. Collections in Advance**

Collections in advance arise when resources are received by the District before it has a legal claim to them, as when grant monies are received prior to the incurrence of qualifying expenditures or when charges for services monies are received in advance from payers prior to the services being rendered by the District, such as prepaid lunch and supply chain assistance monies in the nonmajor funds (school food service). These amounts are recorded as liabilities in the financial statements. The liabilities are removed and revenues are recognized in subsequent periods when the District has legal claim to the resources.

**P. Employee Benefits – Compensated Absences**

Compensated absences consist of unpaid accumulated sick leave and vacation leave.

Sick leave eligibility and accumulation is specified in collective bargaining agreements and in individual employment contracts. Upon retirement, resignation, or death, employees may contractually receive a payment based on unused accumulated sick leave.

Vacation eligibility and accumulation is specified in collective bargaining agreements and in individual employment contracts. Some earned benefits may be forfeited if not taken within varying time periods. Employees are compensated for unused accumulated vacation leave through paid time off or cash payment upon retirement, termination, or death.

Certain collectively bargained agreements require these payments to be paid in the form of non-elective contributions into the employee's §403(b) plan.

**MILLER PLACE UNION FREE SCHOOL DISTRICT**  
**NOTES TO FINANCIAL STATEMENTS**  
(Continued)

---

In the district-wide financial statements, the District recognizes a liability for compensated absences, including vacation and sick leave, when employees have earned the right to leave and it is more likely than not that the leave will be used for time off or otherwise paid in cash, or settled through other means. The District utilizes historical data of past usage patterns to estimate the expected usage and payment of compensated absences. The liability is measured at the employee's pay rate at the reporting date, including salary-related payments, such as social security and Medicare taxes.

In the governmental funds financial statements, a liability is reported only for payments due for unused compensated absences for those employees that have obligated themselves to separate from service with the District by June 30<sup>th</sup>.

**Q. Other Benefits**

Eligible District employees participate in the TRS or the ERS.

District employees may choose to participate in the District's elective deferred compensation plans established under Internal Revenue Code §403(b).

The District provides individual or family health insurance coverage for active employees pursuant to collective bargaining agreements and individual employment contracts.

In addition to providing these benefits, the District provides individual, family, or surviving spouse postemployment health insurance coverage for eligible retired employees. Collective bargaining agreements and individual employment contracts determine if District employees are eligible for these benefits if they reach normal retirement age while working for the District. Healthcare benefits are provided through plans whose premiums are based on the benefits paid during the year. The cost of providing postemployment benefits is shared between the District and the retired employee. The District recognizes the cost of providing health insurance by recording its share of insurance premiums as an expenditure in the governmental funds as the liabilities for premiums mature (come due for payment). In the district-wide statements, the cost of postemployment health insurance coverage is recognized on the economic resources measurement focus and the accrual basis of accounting as set forth by GASB.

**R. Long-Term Debt**

The District borrows money in order to acquire land or equipment, construct buildings, make improvements, or obtain the right-to-use intangible assets. This enables the cost of these capital and intangible assets to be borne by the present and future taxpayers receiving the benefit of the capital and intangible assets. These long-term liabilities are full faith and credit debt of the local government. The repayment of principal and interest will be in the general fund.

In the governmental funds financial statements, governmental funds recognize bond premiums during the current period, with the face amount of debt issued reported as other financing sources. Premiums received on long-term debt issuances are reported as other financing sources. Further, the unmatured principal of general long-term debt does not require current appropriation and expenditure of governmental funds financial resources.

In the district-wide financial statements, premiums received on long-term debt issuances are netted with bonds payable and amortized over the life of the bonds.

**S. Lease Liabilities**

At the commencement of a lease, the District initially measures the lease liability at the present value of payments expected to be made during the lease term; the intangible right-to-use lease asset is initially measured at the initial amount of the lease liability, adjusted for lease payments made at or before the lease commencement date, plus certain initial direct costs. Subsequently, the lease liability is reduced by the principal portion of lease payments made and the intangible lease asset is amortized on a straight-line basis over the lease term.

**T. Subscription-Based Information Technology Arrangements (SBITA)**

A SBITA is a contract that conveys control of the right-to-use another party's information technology software, alone or in combination with tangible capital assets, for a period of time in an exchange or exchange-like transaction. At the commencement of the subscription term, the District initially measures the subscription liability at the present value of expected subscription payments over the subscription term, discounted using an interest rate the vendor charges or at the District's incremental borrowing rate if the vendor rate cannot be determined. Subsequently, the SBITA liability is reduced by the principal portion of the payments made. The SBITA asset is measured as the initial subscription liability plus any direct implementation costs that are eligible for capitalization, minus any incentives received from the Bendor. The subscription asset is amortized over the subscription term.

**U. Deferred Inflows of Resources**

Deferred inflows of resources represents an acquisition of net assets that applies to a future reporting period and so will not be recognized as an inflow of resources (revenue/expense credit) until that time. The District has two items that qualify for reporting in this category. First is related to pensions reported in the district-wide Statement of Net Position and consists of the District's proportionate share of changes in the collective net pension assets or liabilities not included in collective pension expense. The second item is related to OPEB reported in the district-wide Statement of Net Position and represents the change in the total OPEB liability not included in OPEB expense.

**V. Equity Classifications**

District-Wide Statements

In the district-wide statements, there are three classes of net position:

*Net investment in capital assets* – Consists of net capital and intangible assets (cost less accumulated depreciation/amortization) reduced by outstanding balances of related debt obligations from the acquisition, construction, improvements of, and the right-to-use those assets, net of any unexpended proceeds.

*Restricted* – Reports net position when constraints placed on the assets or deferred outflows of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation.

*Unrestricted* – Reports the balance of net position that does not meet the definition of the above two classifications.

Governmental Funds Financial Statements

The governmental funds financial statements report fund balance classifications according to the relative strength of spending constraints placed on the purpose for which resources can be used, as follows:

*Nonspendable* – Consists of amounts that are inherently nonspendable in the current period either because of their form or because they must be maintained intact. Nonspendable fund balance consists of prepaids for subscription-based information technology arrangements, which are recorded in the general fund.

*Restricted* – Consists of amounts that are subject to externally enforceable legal purpose restrictions imposed by creditors, grantors, contributors, or laws and regulations of other governments; or through constitutional provisions or enabling legislation. The District has established the following restricted fund balances:

*Workers' Compensation Reserve*

Workers' Compensation Reserve (GML §6-j) is used to pay for compensation benefits and other expenses authorized by Article 2 of the Workers' Compensation Law, and for payment of expenses of administering this self-insurance program. The reserve may be established by Board action, and is funded by budgetary appropriations and such other funds as may be legally appropriated. Within sixty days after the end of any fiscal year, excess amounts may either be transferred to another reserve or the excess applied to the appropriations of the next succeeding fiscal year's budget. The reserve is accounted for in the general fund.

*Unemployment Insurance Reserve*

Unemployment Insurance Reserve (GML §6-m) is used to pay the cost of reimbursement to the State Unemployment Insurance Fund for payments made to claimants where the employer has elected to use the benefit reimbursement method. The reserve may be established by Board action and is funded by budgetary appropriations and such other funds as may be legally appropriated. Within sixty days after the end of any fiscal year, excess amounts may either be transferred to another reserve or the excess applied to the appropriations of the next succeeding fiscal year's budget. If the District elects to convert to tax (contribution) basis, excess resources in the fund over the sum sufficient to pay pending claims may be transferred to any other reserve. The reserve is accounted for in the general fund.

*Retirement Contribution Reserve*

Retirement Contribution Reserve (GML §6-r) is used for the purpose of financing retirement contributions payable to the ERS and TRS. The Board, by resolution, may establish the reserve and authorize expenditures from the reserve. The reserve is funded by budgetary appropriations or taxes raised for the reserve, revenues that are not required by law to be paid into any other fund or account, transfers from reserves and other funds that may legally be appropriated. Contributions to the TRS sub-fund are limited to 2% of the total covered salaries paid during the preceding fiscal year, with the total amount funded not to exceed 10% of the total covered salaries during the preceding fiscal year. The TRS sub-fund is separately administered, but must comply with all the existing provisions of GML §6-r. These reserves are accounted for in the general fund.

*Insurance Reserve*

Insurance Reserve (GML §6-n) is used to pay liability, casualty, and other types of losses, except losses incurred for which the following types of insurance may be purchased: life, accident, health, annuities, fidelity and surety, credit, title residual value, and mortgage guarantee. In addition, this reserve may not be used for any purpose for which a special reserve may be established pursuant to law (for example, for unemployment compensation insurance). The reserve may be established by Board action, and funded by budgetary appropriations, or such other funds as may be legally appropriated. There is no limit on the amount that may be accumulated in the Insurance Reserve; however, the annual contribution to this reserve may not exceed the greater of \$33,000 or 5% of the budget. Settled or compromised claims up to \$25,000 may be paid from the reserve without judicial approval. The reserve is accounted for in the general fund.

*Employee Benefit Accrued Liability Reserve*

Employee Benefit Accrued Liability Reserve (GML §6-p) is used to reserve funds for the payment of accrued employee benefits primarily based on unused and unpaid sick leave, personal leave, holiday leave, or vacation leave due an employee upon termination of the employee's service. This reserve may be established by a majority vote of the Board, and is funded by budgetary appropriations and such other reserves and funds that may be legally appropriated. The reserve is accounted for in the general fund.

*Restricted – Unspent Bond Proceeds*

Unspent long-term bond proceeds are recorded as restricted fund balance because they are subject to external constraints contained in a debt agreement. These restricted funds are accounted for in the capital projects fund.

*Restricted for Scholarships*

Amounts restricted for scholarships are used to account for monies donated for scholarship purposes, including earnings and net of awards. These restricted funds are accounted for in the scholarships fund.

*Assigned* – Consists of amounts that are subject to a purpose constraint that represents an intended use established by the District's Board. The purpose of the assignment must be narrower than the purpose of the general fund, and in funds other than the general fund, assigned fund balance represents the residual, positive amount of fund balance. Assigned fund balance includes an amount appropriated to partially fund the subsequent year's budget, as well as encumbrances not classified as restricted at the end of the fiscal year.

*Unassigned* – Represents the residual classification for the District's general fund and could report a surplus or deficit. In funds other than the general fund, the unassigned classification is used to report a deficit fund balance resulting from overspending of available resources. NYS Real Property Tax Law §1318, restricts the unassigned fund balance, of the general fund to an amount not greater than 4% of the subsequent year's budget.

**Fund Balance Classification**

Any portion of fund balance may be applied or transferred for a specific purpose by law, voter approval if required by law or by formal action of the Board if voter approval is not required. Amendments or modification to the applied or transferred fund balance must also be approved by formal action of the Board.

The Board shall delegate the authority to assign fund balance, for encumbrance purposes, to the person(s) to whom it has delegated the authority to sign purchase orders.

In circumstances where an expenditure is incurred for a purpose for which amounts are available in multiple fund balance classifications (that is restricted, assigned, or unassigned) the Board will assess the current financial condition of the District and then determine the order of application of expenditures to which fund balance classification will be charged.

**2. ADOPTION OF GASB STATEMENTS**

For the year ended June 30, 2026, the District adopted the following GASB Statements, which had no impact on the financial statements.

GASB Statement No. 103, *Financial Reporting Model Improvements*, was issued to improve key components of the financial reporting model to enhance its effectiveness in providing information that is essential for decision making and assessing a government's accountability. This Statement also addresses certain application issues.

GASB Statement No. 104, *Disclosure of Certain Capital Assets*, requires certain types of capital assets to be disclosed separately in the capital assets note disclosure such as leased assets, intangible right-to-use assets, and assets held for sale.

**3. FUTURE ACCOUNTING STANDARDS**

The GASB Statements are issued to set U.S. GAAP for state and local governments. The following is not an all-inclusive list of GASB statements issued, but statements that the District feels may have a future impact on these financial statements. The District will evaluate the impact of this pronouncement and implement it, as applicable, if material.

| <b>Effective for the Year Ending</b> | <b>Statement</b>                        |
|--------------------------------------|-----------------------------------------|
| June 30, 2027                        | GASB No. 105 – <i>Subsequent Events</i> |

GASB Statement No. 105 was issued to improve financial reporting related to subsequent events by clarifying the subsequent events time frame and the subsequent events that constitute recognized and non-recognized events, and by specifying the information items that are required to be disclosed about subsequent events.

**4. EXPLANATION OF CERTAIN DIFFERENCES BETWEEN THE DISTRICT-WIDE STATEMENTS AND THE GOVERNMENTAL FUNDS STATEMENTS**

Due to the differences in the measurement focus and basis of accounting used in the district-wide statements and the governmental funds statements, certain financial transactions are treated differently. The financial statements contain a full reconciliation of these items.

**A. Total Fund Balances of Governmental Funds vs. Net Position of Governmental Activities**

Total fund balances of the District's governmental funds differ from net position of governmental activities reported in the Statement of Net Position. This difference primarily results from the long-term economic focus of the Statement of Net Position versus the current financial resources focus of the governmental funds Balance Sheet, as applied to the reporting of capital assets and deferred outflows of resources, long-term assets and liabilities, and deferred inflows of resources.

**B. Statement of Revenues, Expenditures, and Changes in Fund Balances vs. Statement of Activities**

Differences between the Statement of Revenues, Expenditures, and Changes in Fund Balances and the Statement of Activities fall into any of four broad categories.

Long-Term Revenue and Expense Differences

Long-term revenue differences arise because governmental funds report revenues only when they are considered "available", whereas the Statement of Activities reports revenues when earned. Differences in long-term expenses arise because governmental funds report on a current financial resources measurement focus and the modified accrual basis, whereas the economic resources measurement focus and the accrual basis of accounting is used on the Statement of Activities, thereby affecting expenses such as compensated absences.

Capital Related Differences

Capital related differences include the difference between proceeds from the sale of capital assets reported on fund statements and the gain or loss on the sale of assets as reported on the Statement of Activities, and the difference between recording an expenditure for the acquisition of capital items in the fund statements and depreciation/amortization expense on those items as recorded in the Statement of Activities.

Long-Term Debt Transaction Differences

Long-term debt transaction differences occur because the issuance of long-term debt provides current financial resources to governmental funds, but is recorded as a liability in the Statement of Net Position. In addition, both interest and principal payments are recorded as expenditures in the fund statements when due and payable, whereas interest expense is recorded in the Statement of Activities as it accrues, and principal payments are recorded as a reduction of liabilities in the Statement of Net Position.

Pension and Other Postemployment Benefits Differences

Pension differences occur as a result of recognizing pension costs using the current financial resources measurement focus and the modified accrual basis of accounting, whereby an expenditure is recognized based on the contractually required contribution as calculated by the plan, versus the economic resources measurement focus and the accrual basis of accounting, whereby an expense is recognized related to the District's proportionate share of the collective pension expense of the plan.

OPEB differences occur as a result of recognizing OPEB costs using the current financial resources measurement focus and the modified accrual basis of accounting, whereby an expenditure is recognized for health insurance premiums and OPEB costs as they mature (come due for payment), versus the economic resources measurement focus and the accrual basis of accounting, whereby an expense is recognized related to the future cost of benefits in retirement over the term of employment.

**5. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY**

**A. Budgets**

The District's administration prepares a proposed budget for approval by the Board for the general fund, the only fund with a legally adopted budget.

The voters of the District approved the proposed appropriation budget for the general fund.

Appropriations are established by the adoption of the budget, are recorded at the program line item level, and constitute a limitation on expenditures (and encumbrances) that may be incurred. Appropriations authorized for the year may be increased by the amount of encumbrances carried forward from the prior year. Appropriations lapse at the end of the fiscal year unless expended or encumbered. Encumbrances will lapse if not expended in the subsequent year. Appropriations authorized for the current year can be funded by the planned use of specific reserves, and can be increased by budget amendments approved by the Board as a result of selected new revenue sources not included in the original budget (when permitted by law) and appropriation of fund balances. These supplemental appropriations may occur subject to legal restrictions, if the Board approves them because of a need that exists which was not determined at the time the budget was adopted. The following supplemental appropriations occurred during the year:

|                                                        |                     |
|--------------------------------------------------------|---------------------|
| Encumbrances from the prior year                       | \$ 1,647,189        |
| Instruction expenditures funded by gifts and donations | 21,437              |
| Program costs funded by grant                          | 14,025              |
| Repairs funded by insurance recoveries                 | 2,573               |
| Use of EBALR                                           | <u>600,812</u>      |
|                                                        | <u>\$ 2,286,036</u> |

Budgets are adopted annually on a basis consistent with U.S. GAAP, and are established and used for individual capital projects based on authorized funding. The maximum project amount authorized is based upon the estimated cost of the project. These budgets do not lapse and are carried over to subsequent fiscal years until the completion of the projects.

**B. Encumbrances**

Encumbrance accounting is used for budget control and monitoring purposes and is reported as a part of the governmental funds. Under this method, purchase orders, contracts, and other commitments for the expenditure of monies are recorded to reserve applicable appropriations. Outstanding encumbrances as of year end are presented as part of assigned fund balance, unless classified as restricted, and do not represent expenditures or liabilities. These commitments will be honored in the subsequent period. Related expenditures are recognized at that time, as the liability is incurred or the commitment is paid.

**C. Unrestricted Net Position Deficit**

As of June 30, 2026, the governmental activities reported a deficit unrestricted net position of \$83,556,022. This deficit is primarily the result of unfunded liabilities such as the District recognizing its proportionate share of the net pension liabilities and total OPEB liabilities on the statement of net position. The accumulated effect of these required recognitions, coupled with the limitations from the state on funding the OPEB liabilities on a "pay as you go" basis, has resulted in a negative unrestricted net position. The District remains committed to its employees and retirees by continuing to make all required contributions to the pension plans and including these amounts in its annual budget to cover its share of the costs of postemployment health insurance coverage.

**6. DEPOSITS WITH FINANCIAL INSTITUTIONS AND INVESTMENTS**

The District's investment policies are governed by state statutes and District policy. Resources must be deposited in Federal Deposit Insurance Corporation (FDIC) insured commercial banks or trust companies located within the state. Permissible investments include obligations of the U.S. Treasury and U.S. Agencies, repurchase agreements, and obligations of New York State or its localities. Collateral is required for demand and time deposits, and certificates of deposit not covered by FDIC insurance. Obligations that may be pledged as collateral are obligations of the United States and its Agencies and obligations of New York State and its municipalities.

Custodial credit risk is the risk that in the event of a bank failure, the District may be unable to recover deposits or collateral securities that are in possession of an outside agency. GASB directs that deposits be disclosed as exposed to custodial credit risk if they are not covered by depository insurance and the deposits are as follows:

- A. Uncollateralized,
- B. Collateralized by securities held by the pledging financial institution, or
- C. Collateralized by securities held by the pledging financial institution's trust department or agent but not in the District's name.

The District's aggregate bank balances were covered by FDIC insurance or fully collateralized by securities and a letter of credit pledged on the District's behalf at year end.

The District did not have any investments at year end or during the year. Consequently, the District was not exposed to any material interest rate risk or foreign currency risk.

**7. PARTICIPATION IN BOCES**

During the year ended June 30, 2026, the District was billed \$5,954,538 for BOCES administrative and program costs. The District's share of BOCES aid amounted to \$1,559,618. Financial statements for the BOCES are available from the BOCES administrative offices at 201 Sunrise Highway, Patchogue, New York 11772.

**8. DUE FROM STATE AND FEDERAL**

Due from state and federal at June 30, 2026, consisted of:

|                                                          |                     |

| Special Aid Fund                                         |                     |
| State and federal grants                                 | 820,184             |
| Nonmajor Funds                                           |                     |
| State and federal food service<br>program reimbursements | <u>202,637</u>      |
|                                                          | <u>\$ 1,815,669</u> |

District management expects these amounts to be fully collectible.

| General Fund                             |                     |
| BOCES aid                                | \$ 1,559,618        |
| New York State - media literacy grant    | 250                 |
|                                          | <u>1,559,868</u>    |
| Capital Projects Fund                    |                     |
| Town of Brookhaven - highway work permit | <u>7,300</u>        |
|                                          | <u>\$ 1,567,168</u> |

District management expects these amounts to be fully collectible.

**10. INTERFUND TRANSACTIONS**

Interfund balances and activities at June 30, 2026, were as follows:

|                       | Interfund         |                   |                   |                   |

|                       | Receivable        | Payable           | Transfers In      | Transfers Out     |
| General Fund          | \$ 968,816        | \$                | \$                | \$ 105,275        |
| Special Aid Fund      |                   | 961,097           | 105,275           |                   |
| Capital Projects Fund |                   | 5,621             |                   |                   |
| Nonmajor Funds        |                   | <u>2,098</u>      |                   |                   |
|                       | <u>\$ 968,816</u> | <u>\$ 968,816</u> | <u>\$ 105,275</u> | <u>\$ 105,275</u> |

The District typically transfers from the general fund to the special aid fund for the District's share of the costs of the summer program for students with disabilities.

**11. CAPITAL ASSETS/ERROR CORRECTION**

**A. Error Correction**

During the year ended June 30, 2026, the third party that prepares the capital asset reports adjusted prior year balances due to a change in the District's capitalization threshold from \$1,000 to \$5,000 that occurred in previous years. As a result, it was necessary for the District to decrease the June 30, 2025, capital assets and accumulated depreciation/amortization by \$1,274,703 and \$1,087,654, respectively, resulting in a net decrease of \$187,049 for capital assets, net.

**C. Remedies Upon Default in Bonds Payments**

The bonds are general obligation contracts between the District and the owners for which the faith and credit of the District are pledged and remedies for enforcement of payment are not expressly included in the District's contract with such owners. Upon default in the payment of principal of or interest on the bonds at the suit of the owner, a court has the power, in proper and appropriate proceedings, to render judgment against the District. A court also has the power, in proper and appropriate proceedings, to order payment of a judgment on such bonds from funds lawfully available therefore or, in the absence thereof, to order the District to take all lawful action to obtain the same, including the raising of the required amount in the next annual tax levy.

Section 99-b of the State Finance Law provides for a covenant between New York State and the purchasers and the holders and owners from time to time of the bonds issued by school districts in New York State. In the event a holder or owner of any bond issued by a school district for school purposes shall file with the Office of the New York State Comptroller (OSC), a verified statement describing such bond and alleging default in the payment thereof or the interest thereon or both. The OSC shall thereafter deduct and withhold from the next succeeding allotment, apportionment or payment of such state aid or assistance due to such school district such amount thereof as may be required to pay the principal of and interest on such bonds of such school district then in default. In the event such state aid or assistance initially so withheld shall be insufficient to pay said amounts in full, the OSC shall similarly deduct and withhold from each succeeding allotment, apportionment or payment of such state aid or assistance due such school district such amount or amounts thereof as may be required to cure such default.

As of June 30, 2026, serial bonds in the amount of \$20,000,000 have been issued. Work has commenced and expenditures are recorded in the capital projects fund.

**15. PENSION PLANS – NEW YORK STATE**

**A. General Information**

The District participates in the New York State Teachers' Retirement System (TRS) and the New York State and Local Employees' Retirement System (ERS). These are cost-sharing multiple employer, defined benefit, public employee retirement systems. The systems provide retirement, disability, withdrawal, and death benefits to plan members and beneficiaries related to years of service and final average salary.

**B. Provisions and Administration**

Teachers' Retirement System

The TRS is administered by the New York State Teachers' Retirement Board. The TRS provides benefits to plan members and beneficiaries as authorized by the Education Law and the New York State Retirement and Social Security Law (NYSRSSL). Membership is mandatory and automatic for all full-time teachers, teaching assistants, guidance counselors, and administrators employed in New York Public Schools and BOCES who elected to participate in the TRS. Once a public employer elects to participate in the TRS, the election is irrevocable. The New York State Constitution provides that pension membership is a contractual relationship and plan benefits cannot be diminished or impaired. Benefits can be changed for future members only by enactment of a State statute. Additional information regarding the TRS may be found on the TRS website at [www.nystrs.org](http://www.nystrs.org) or obtained by writing to the New York State Teachers' Retirement System, 10 Corporate Woods Drive, Albany, NY 12211-2395.

---

Employees' Retirement System

Obligations of employers and employees to contribute and benefits to employees are governed by the NYSRSSL. The net position of the ERS is held in the New York State Common Retirement Fund ("the Fund"), which was established to hold all net assets and record changes in plan net position allocated to the ERS. As set forth in the NYSRSSL, the Comptroller of the State of New York ("the Comptroller") serves as the trustee of the Fund and is the administrative head of the ERS. Once a public employer elects to participate in the ERS, the election is irrevocable. The New York State Constitution provides that pension membership is a contractual relationship and plan benefits cannot be diminished or impaired. Benefits can be changed for future members only by enactment of a State statute. The District also participates in the Public Employees' Group Life Insurance Plan (GLIP), which provides death benefits in the form of life insurance. The ERS is included in the State's financial report as a pension trust fund. That report, including information with regard to benefits provided may be found at [www.osc.state.ny.us/retire/publications/index.php](http://www.osc.state.ny.us/retire/publications/index.php) or obtained by writing to the New York State and Local Employees' Retirement System, 110 State Street, Albany, NY 12244.

**C. Funding Policies**

Chapter 58 of the Laws of 2026 amended the New York State Tier 6 benefits structures by lowering employee contribution rates effective October 1, 2026, increasing pensionable overtime caps effective January 1, 2027, for ERS, and reducing the unreduced retirement age from 63 to 58 for TRS members with 30 years of service effective April 1, 2026.

Plan members who joined the systems before July 27, 1976, are not required to make contributions. Those joining on or after July 27, 1976, and before January 1, 2010, with less than ten years of credited services are required to contribute 3% of their salary. Those joining on or after January 1, 2010 and before April 1, 2012, are required to contribute 3% of their salary to ERS or 3.5% of their salary to TRS throughout active membership. Those joining on or after April 1, 2012, are required to contribute between 3% and 6% dependent on their salary throughout active membership. Employers are required to contribute at an actuarially determined rate based on covered salaries paid. For the TRS, the employers' contribution rate is established annually by the New York State Teachers' Retirement Board for the TRS' fiscal year ended June 30<sup>th</sup>, and employer and employee contributions are deducted from state aid in the subsequent months of September, October and November, with the balance to be paid by the District, if necessary. For the ERS, the Comptroller annually certifies the actuarially determined rates expressly used in computing the employers' contributions for the ERS' fiscal year ended March 31<sup>st</sup>, and employer contributions are either paid by the prior December 15<sup>th</sup> less a 1% discount or by the prior February 1<sup>st</sup>. The District paid 100% of the required contributions as billed by the TRS and ERS for the current year. The District's contribution rate was 10.11% of covered payroll for the TRS' fiscal year ended June 30, 2025. The District's average contribution rate was 16.18% of covered payroll for the ERS' fiscal year ended March 31, 2026.

The District's share of the required contributions, based on covered payroll for the District's year ended June 30, 2026 was \$2,746,571 for TRS at the contribution rate of 9.45% and \$1,048,920 for ERS at an average contribution rate of 15.71%.

**D. Pension Asset/(Liability), Pension Expense, Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions**

At June 30, 2026, the District reported the following asset/(liability) for its proportionate share of the net pension asset/(liability) for each of the systems. The net pension asset/(liability) was measured as of June 30, 2025, for TRS and March 31, 2026 for ERS. The total pension liability used to calculate the net pension asset/(liability) was determined by an actuarial valuation. The District's proportion of the net pension asset/(liability) was based on a projection of the District's long-term share of contributions to the systems relative to the projected contributions of all participating members, actuarially determined. This information was provided by the TRS and the ERS in reports provided to the District.

**Actuarial Assumptions**

The total pension liability as of the measurement date was determined by using an actuarial valuation as noted in the table below, with update procedures used to roll forward the total pension liability to the measurement date. The actuarial valuations used the following actuarial assumptions:

|                                                                            | TRS           | ERS            |

For TRS, annuitant and active mortality rates are based on plan member experience, with adjustments for mortality improvements based on Society of Actuaries' Scale MP-2021 for June 30, 2025, applied on a generational basis. For ERS, annuitant mortality rates are based on April 1, 2020 – March 31, 2025 system experience with adjustments for mortality improvements based on Society of Actuaries' Scale MP-2021.

For TRS, the demographic actuarial assumptions and the salary scale are based on the results of an actuarial experience study for the period July 1, 2019 to June 30, 2024. TRS runs one year and five-year experience studies annually in order to gauge the appropriateness of the assumptions. For full details, please refer to the Recommended Actuarial Assumptions 2025 Report, which can be found on the TRS' website located at [www.nystrs.org](http://www.nystrs.org). Demographic assumptions used in the April 1, 2025, valuation are based on the results of an actuarial experience study.

For TRS, the long-term expected rate of return on pension plan investments was determined in accordance with Actuarial Standard of Practice (ASOP) No. 27, *Selection of Economic Assumptions for Measuring Pension Obligations* and generally accepted accounting principles. ASOP No. 27 provides guidance on the selection of an appropriate assumed investment rate of return. Consideration was given to expected future real rates of return (expected returns, net of pension plan investment expense and inflation) for each major asset class, as well as historical investment data and plan performance.

For ERS, the long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected return, net of investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Completed March 31, 2025, demographic assumptions are primarily based on system experience over the period April 1, 2020 – March 31, 2025.

The target allocation and best estimates of the arithmetic real rates of return for each major asset class are summarized below:

Real rates of return are net of a long-term inflation assumption of 2.5% for TRS and 2.9% for ERS.

**Discount Rate**

The discount rate used to measure the total pension liability was 6.95% for TRS and 5.90% for ERS. The projection of cash flows used to determine the discount rate assumes that contributions from plan members will be made at the current contribution rates and that contributions from employers will be made at statutorily required rates, actuarially determined. Based upon the assumptions, the systems' fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

**Sensitivity of the Proportionate Share of the Net Pension Asset/(Liability) to the Discount Rate Assumption**

**Payables to the Pension Plan**

For TRS, employer and employee contributions for the fiscal year ended June 30, 2026, are paid to the system in September, October, and November 2026 through a state aid intercept. Accrued retirement contributions as of June 30, 2026, represent employer and employee contributions for the fiscal year ended June 30, 2026, based on paid TRS covered wages multiplied by the employer's contribution rate and employee contributions for the fiscal year as reported to the TRS. Accrued retirement contributions as of June 30, 2026 amounted to \$2,746,571 of employer contributions and \$340,162 of employee contributions.

For ERS, employer contributions are paid annually based on the system's fiscal year, which ends on March 31<sup>st</sup>. Accrued retirement contributions as of June 30, 2026, represent the projected employer contribution for the period of April 1, 2026 through June 30, 2026 based on paid ERS covered wages multiplied by the employer's contribution rate, by tier. Accrued retirement contributions as of June 30, 2026 amounted to \$335,637 of employer contributions. Employee contributions are remitted monthly.

**16. PENSION PLANS - OTHER**

The District has adopted a 403(b) plan covering all eligible employees. Employees may defer up to 100% of their compensation subject to Internal Revenue Code elective deferral limitations. The District may also make non-elective contributions of certain compensated absence payments based on collectively bargained agreements. Contributions made by the District and the employees for the year ended June 30, 2026, totaled \$30,500 and \$1,351,892, respectively.

**17. POSTEMPLOYMENT HEALTHCARE BENEFITS**

**A. General Information about the OPEB Plan**

*Plan Description* –The District provides OPEB for eligible retired employees of the District. The benefits provided to employees upon retirement are based on provisions in the various contracts that the District has in place with different classifications of employees. The plan is a single-employer defined benefit OPEB plan administered through the New York State Health Insurance Program – Empire Plan. No assets are accumulated in a trust.

*Benefits Provided* – The District provides healthcare benefits and Medicare Part B coverage for eligible retirees. The benefit terms are dependent on which contract each employee falls under. The specifics of each contract are on file at the District offices and are available upon request.

*Employees Covered by Benefit Terms* – At June 30, 2026, the following employees were covered by the benefit terms:

|                                                                  |                   |

**B. Total OPEB Liability**

The District's total OPEB liability of \$131,265,388 was measured as of June 30, 2026, and was determined by an actuarial valuation as of July 1, 2024. Update procedures were used to roll forward the total OPEB liability to the measurement date.

*Actuarial Assumptions and Other Inputs* – The total OPEB liability as of the measurement date, was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

**18. RISK MANAGEMENT**

**A. General Information**

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; injuries to employees; errors and omissions; and natural disasters. These risks are covered by a combination of self-insurance reserves and commercial insurance purchased from independent third parties. There have been no significant reductions in insurance coverage as compared to the prior year, and settled claims from these risks have not exceeded available reserves and commercial insurance coverage for the past three years.

**B. Public Entity Risk Pool**

The District participates in the New York State Public Schools Statewide Workers' Compensation Trust ("the Workers' Compensation Plan"), a risk-sharing pool, to insure workers' compensation claims. This is a public school entity risk pool, created under Article 5 of the Workers' Compensation Law, to finance liability and risks related to workers' compensation claims. The Workers' Compensation Plan, through its plan administrator, provides participating members with risk management services, as well as workers' compensation and employers' liability coverage. Participating members agree to make contributions as determined by the Plan. The Plan is allowed to make additional pro-rated assessments to its members if the assets of the Plan are insufficient to enable the Plan to discharge its legal liabilities and other obligations or to maintain required reserves.

**19. CHANGES TO OR WITHIN REPORTING ENTITY AND CORRECTION OF AN ERROR IN PREVIOUSLY ISSUED FINANCIAL STATEMENTS**

During the year ended June 30, 2026, the District reclassified the following major funds to nonmajor funds: school food service fund, extraclassroom activities fund, and scholarships fund. This change is a voluntary presentation change made to improve the clarity of the financial statements and has no impact on the overall governmental fund balances. The funds were previously presented as major funds, but changes in financial activity during the current year now justify the nonmajor classification.

The following is a summary of these reporting entities and error correction changes:

**B. Grants**

The District has received grants, which are subject to audit by agencies of the state and federal governments. Such audits may result in disallowances and a request for a return of funds. Based on prior audits, the District's administration believes disallowances, if any, would be immaterial.

**C. Litigation**

The District is not aware of any material pending or threatened litigation claims against the District. The District is also unaware of any unasserted claims or assessments that would require financial statement disclosure.

**23. SUBSEQUENT EVENTS**

The District has evaluated subsequent events through the date of the auditor's report, which is the date the financial statements were available to be issued. No significant events were identified that would require adjustment of or disclosure in the financial statements, except for the following:

**A. Issuance of TANs**

On September 1, 2026, the District issued tax anticipation notes in the amount of \$13,000,000, which are due June 24, 2027, and bear interest at a rate of 4.00%. The District received a premium of \$105,170 with the borrowing to yield an effective interest rate of 3.0060%.

**B. Issuance of Bonds**

On September 1, 2026, the District issued serial bonds in the amount of \$3,000,000, that mature on September 1, 2041, and bear interest at a rate of 3.7101%.

For the Year Ended June 30, 2026

**Budgetary Basis of Accounting**

The District's administration prepares a proposed budget for approval by the Board for the general fund, the only fund with a legally adopted budget.

Appropriations are established by the adoption of the budget, are recorded at the program line item level, and constitute a limitation on expenditures (and encumbrances) that may be incurred. Appropriations authorized for the year may be increased by the amount of encumbrances carried forward from the prior year. Appropriations lapse at the end of the fiscal year unless expended or encumbered. Encumbrances will lapse if not expended in the subsequent year. Appropriations authorized for the current year can be funded by the planned use of specific reserves, and can be increased by budget amendments approved by the Board as a result of selected new revenue sources not included in the original budget (when permitted by law) and appropriation of fund balances. These supplemental appropriations may occur subject to legal restrictions, if the Board approves them because of a need that exists which was not determined at the time the budget was adopted.

The variance explanations and related operational commentary presented in this comparison represent the analysis and views of management.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING  
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS  
PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

To the Board of Education  
Miller Place Union Free School District  
Miller Place, New York

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of Miller Place Union Free School District ("the District"), as of and for the year ended June 30, 2026, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated September 10, 2026.

**Report on Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered Miller Place Union Free School District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Miller Place Union Free School District's internal control. Accordingly, we do not express an opinion on the effectiveness of Miller Place Union Free School District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements, on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses, or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

## **Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether Miller Place Union Free School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

## **Purpose of This Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
