

Longfellow Modernization Progress Update

Construction Progress Update

Report Date: 9/28/2026

Prepared By: Martin Martinez

Reporting Period From: 9/28/2026

To: 10/2/2025

1 Summary of Work Completed

- Work resumed this week on the pad for the new cafeteria building. The pad has been completed and certified. Electrical infrastructure was installed, and the casing was poured.
- Storm drain rough-in work has begun near the north field.
- Metal framing has begun and is ongoing on the second floor of Building A. The framing is for the new mechanical closets.

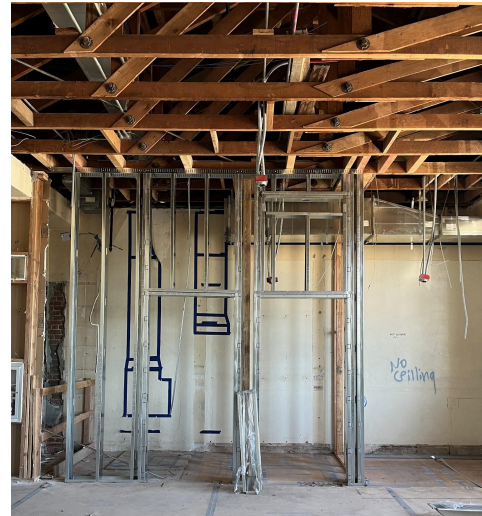

2 Photos

Description: Underground electrical infrastructure for new cafeteria building.

Description: Metal framing has begun and will be ongoing into next week.

3 Construction Alerts

Description: Underground utility infrastructure work for the new building is ongoing. Metal wall framing is now underway, and storm drain rough-in work is also continuing.

Site Impact:

The site is completely closed off. Approved personnel have to wear full PPE whenever onsite.

4 Upcoming Work

Metal framing will be ongoing in the available rooms. The storm drain rough-in will also continue. Grading for the new CMU wall in the North part of the site is also scheduled for next week.

5 Notes and Comments

Thank you for your continued cooperation and patience as these improvements continue.
