Shade Structures Phase 2 Progress Update

Construction Progress Update

Report Date: September 25, 2026 **Prepared By:** Arpy Jivalagian

Reporting Period From: September 21, 2026 **To**: September 25, 2026

1 Summary of Work Completed

Shade Structures Phase 2 project has four sites Sierra Madre Elementary (SME), Jackson Elementary, Webster Elementary, and Willard Elementary. Construction continued this week at Sierra Madre and Willard Elementary. Planning for the shade and playground improvements continued at Jackson.

- At Sierra Madre, utility scans were conducted in preparation for layout of the second portion of shade structure work.
- At Willard, concrete was poured for the primary area shade footings. Crews assembled the shade structure in the children center area and continued installation of the new play structure and preparation for playground surfacing.

2 Photos

Description: Shade structure assembly in the children center area at Willard Elementary.

Description: Concrete was poured at the existing play structure following completion of the footings.

Description: Layout and utility scans for the second phase of shade structure work at Sierra Madre Elementary.

3 Construction Alerts

Description: Shade structure installation and playground improvements are ongoing at Sierra Madre and Willard Elementary.

Site Impact:

The playgrounds are both closed off with temporary fencing as work is ongoing.

4 Upcoming Work

- Sierra Madre Elementary: Begin excavation for the second portion of shade structure
- Willard Elementary: Install the shade structure in the primary playground.

5 Notes and Comments

Thank you for your continued cooperation and patience as these improvements continue.
