

School-Based Behavioral Health

Children can benefit from integrated mental health services conveniently at school through telehealth. Our school-based therapist works with each child to support emotional, behavioral, and social challenges.

School-Based Behavioral Health Can Address:

- ADHD
- Adjustment disorder
- Anxiety
- Autism
- Depression
- Grief/loss
- Mood disorders
- Trauma related disorders

Scan the QR code to enroll your student today!
If you do not have an email address, please use schoolbased@sctelehealth.org.

Schedule an appointment through the school nurse, social worker or counselor.

Medicaid covers visits. Private insurance coverage varies, copays and deductibles apply.

Students are seen virtually at school in a private space to ensure confidentiality.
