

Family & Teacher Planning Tool

★
**LEARNING
HEROES**

Parents, follow these three steps to support your student this year!

**1. Review Your
Parent Score
Report(s)**

**2. Ask Your
Child's
Teachers
Questions**

**3. Be a Team
with Your
Child's
Teachers**

1. Let's Review the Report

Check out the score report and look at the performance level.

- Is your child generally well-prepared?
- Does your child need additional support?
- Is your child at risk?

A score of around 450 and above means your child is generally well-prepared.

2. Questions to Ask the Teacher

Jot down notes below

- Based on the Report(s), my child seems to be doing well in *(these areas)* but may need more practice in *(these areas)*. Do you agree?
- Is my child at grade level in reading and math?
- In math, what is my child expected to learn this school year? Can you show me an example?
- For reading/English Language Arts, what is my child expected to learn this school year?
- How will we know if my child is making progress?

3. Be a Team

Jot down notes below

- Does my child need extra time in math or reading this school year?
- How can I support math and reading skills at home?
- What resources, activities, or programs do you recommend?
