Reimagining School Hall Passes

SCHOOL PASS
DIGITAL HALL PASS

[Operational security events will cancel traditional paper passes.]
The practical solution for your school hall pass needs.

What is a Digital Hall Pass?

Real-time Tracking

- A digital hall pass system **replaces paper passes** with a simple, centralized way to manage student movement throughout the school day.
- Students request passes digitally, teachers approve requests, and staff have **real-time visibility** into who is out of class, where they are going, and how long they have been gone.
- Schools can establish **pass limits, destination rules, time limits,** and other expectations.

Benefits for Schools

Time-saving automation

- **Improves Student Accountability –** Creates clear, consistent expectations for leaving class.
- **Protects Instructional Time –** Monitors time out of class and identifies patterns of excessive or extended passes.
- **Strengthens School Safety –** Provides staff with real-time awareness of student movement and locations.
- **Reduces Hallway Disruptions –** Helps manage hallway traffic, loitering, and unauthorized student gatherings.
- **Provides Actionable Data –** Identifies trends in student movement, high-traffic areas, and frequent pass use.
- **Streamlines Staff Work –** Eliminates paper passes and simplifies monitoring and recordkeeping.
- **Creates Consistency –** Establishes one schoolwide process for managing student movement.
