ADMISSIONS: EIC (Regulations) Academic Achievement & Class Ranking

Transferred Grades	When a student transfers semester grades for courses that would be eligible under the Regular category or the Basic category and the District has accepted the credit, the District shall include the grades in the calculation of class rank. When a student transfers semester grades for courses that would be eligible to receive additional weight under the District's weighted grade system, the District shall assign additional weight to the grades based on the categories and grade weight system used by the District only if the same or an equivalent course is offered to the same class of students in the District.
Foreign Transcripts	When a student transfers grades for properly documented courses from a foreign public or private institution, the district shall assign weight to those grades based on the district's categories and grade weight system if similar or equivalent courses are offered to the same class of students in the district. For the classes to transfer, the transcript must undergo credit validation. Student grades for the validated and approved courses will be included in the students' GPA and in the calculation of class rank. See 19TAC§74.26 (a)&(c).
