Learn from industry professionals who bring real-world experience to the classroom.

And so much more! For example, we have a beautiful new building opening in 2027!
Discover endless opportunities that empower your future.

North Springs STEAM Magnet

- Our STEAM classes spark curiosity, creativity, and problem-solving through exciting, project-based learning across subjects.
- Students gain hands-on experience in advanced science, technology, engineering, and mathematics, while also exploring the creative world of visual, performing, and literary arts.
- Students discover the 'why' behind what they learn and apply their knowledge to solve real-world challenges, developing the critical skills they need to thrive and reach their full potential. This unique approach prepares them with critical skills to thrive in the future and to unlock their full potential.

North Springs STEAM Magnet

- **Enjoy Hands-On Learning Opportunities:** Experience the thrill of discovery through interactive labs, projects, and competitions.
- **Experience Integrated Learning:** Students engage in well-rounded, cross-curricular experiences and complete a capstone project they can proudly showcase to colleges. Plus, they earn a STEAM Certification from the state, a valuable credential.
- Our advanced and AP classes in science, technology, engineering, the arts, and math provide the perfect stepping-stones to in-demand career fields.

Unique to North Springs: 9th-Grade Academy

Why Choose a 9th-Grade Academy?

- **Smooth Transition**: Provides a structured, supportive environment during the critical 9th-grade year.
- **Self-Advocacy Focus:** Students build self-advocacy, a growth mindset, and resilience, empowering them to overcome challenges and achieve their goals.
- **Personalized Attention**: Smaller learning communities with focused support ensure students don't fall through the cracks.
- **Academic Success**: Students in 9th-Grade Academies show improved grades, higher attendance, and reduced dropout rates.
- **Strong Relationships**: Encourages close connections with teachers, resulting in better communication and guidance.
- **Long-Term Benefits**: Sets students on a path to graduation and future opportunities with the skills they need to succeed.

Career Technology Certifications at North Springs

These nationally accredited pathways engage students in cutting-edge career exploration and preparation opportunities that set them up to excel in postsecondary education and productive careers. Students enjoy hands-on lab activities and classroom instruction that encourages critical thinking, innovation, and collaboration.

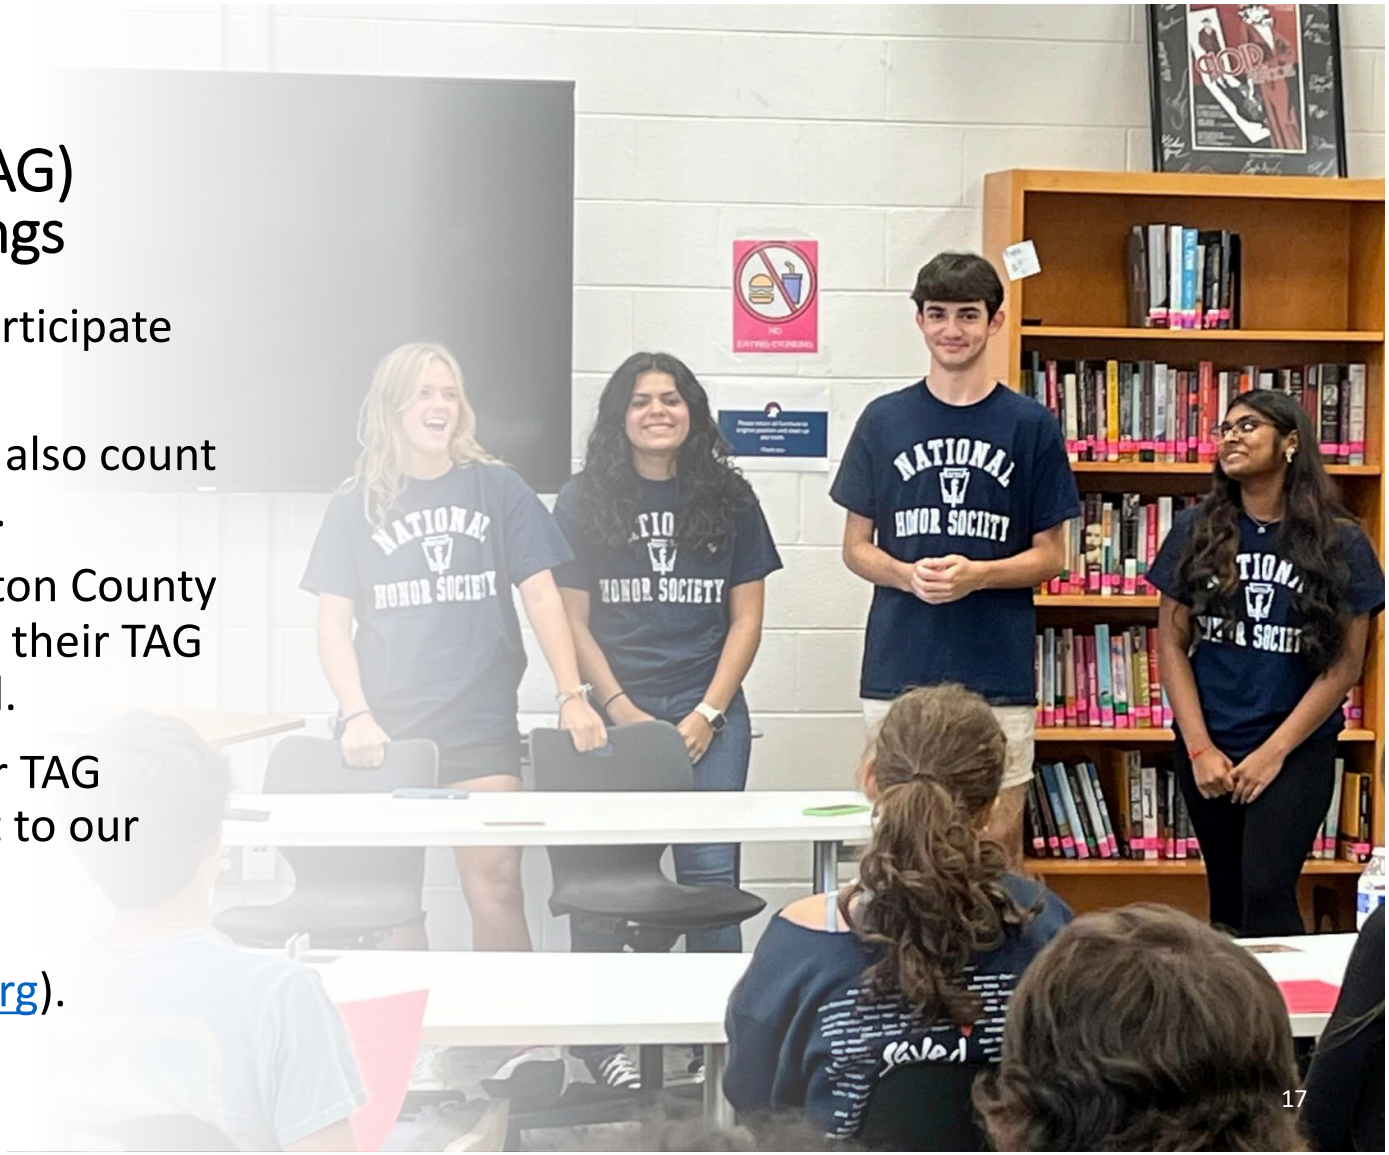

Student organizations, such as Future Business Leaders of America (FBLA) and HOSA Future Health Professionals, build leadership and community.

All North Springs students may enroll in career technology (CTAE) courses and earn Industry Certification Recognition in:

- Business
- Computer Science
- Engineering
- Entrepreneurship
- Graphic Design/Media
- Healthcare Sciences
- TV and Media Production

Talented and Gifted (TAG) Program at North Springs

- Many Magnet students participate in our TAG program.
- Some TAG internships can also count for Magnet elective credit.
- Students coming from Fulton County Schools students maintain their TAG status through high school.
- If you are interested in our TAG program, please reach out to our TAG program coordinator, Christine Pekatos (Pekatos@fultonschools.org).

AVID Program at North Springs

- AVID is an advancing elective that supports students who may be the first in their families to plan to attend college. Students may be designated as **AVID Graduates of Distinction**.
- North Springs has a very well established and thriving AVID program for our students who need a little extra guidance and support as they transition to and through high school.
- Students interested in AVID will submit a separate application.
- Please reach out to our AVID director, Dr. Andrea Pritchett, if you would like more information on the program and to request an application (pritchettam@fultonschools.org).

JROTC at North Springs

JROTC provides invaluable leadership skills that set students apart. JROTC teaches three key aspects of leadership style: directing, participating, and delegating.

Through hands-on training, teamwork, and discipline, JROTC empowers students to lead with confidence and resilience—qualities highly sought after by today's employers.

North Springs' JROTC offers 15 different teams students can join.

Start building your future now with skills that open doors in any career path!

More details about the Accelerated Career Diploma:

Why You Should Find Yourself at North Springs

“Henry graduated in 2024 and is now at Georgia Tech. We credit so much of his success to opportunities at North Springs.

He graduated with a Dual Math/Science and VPA Magnet degree, two CTAE pathways in Engineering and A/V Tech (filmmaking), and 10 AP classes. He was President of the Robotics Club, an Officer in the Thespian Honor Troupe, and had major roles in several plays. He also was on the golf team and earned the school’s STAR Student award for the highest SAT score.

We could not be happier with our experiences at North Springs and would choose it again over every option. It really hits the sweet spot—it's big enough to offer an impressive range of AP classes and diverse career pathways, yet it still feels personal. Students have countless opportunities to dive into their interests and step into leadership roles across math, science, theater, engineering, orchestra, clubs, student government, sports, and more. It’s the perfect environment for students to thrive and find their passion!” ~ Jenn and Dan Lott

Why You Should Find Yourself at North Springs

“When we started looking at high school programs for our daughter, we sought to have an open mind about what they all had to offer. We toured several schools to get a feel for the experience. While the tours offered a quick snapshot, the most insight personally came from researching the curricula and talking to parents. What we found was that the obvious choice was right in our backyard at NSHS. Our daughter is in the dual Magnet Program which uniquely exposes her to a variety of both STEM and Arts career paths and rich experiences. An unexpected bonus is that she’s also discovered a joy for Performing Arts that NSHS has so quickly helped foster.”

~ Tanya Squire

Find Yourself at North Springs Don’t miss out!

North Springs’ Magnet Programs shape globally-minded learners via a unique, exceptional, world-class curriculum at a comprehensive high school.

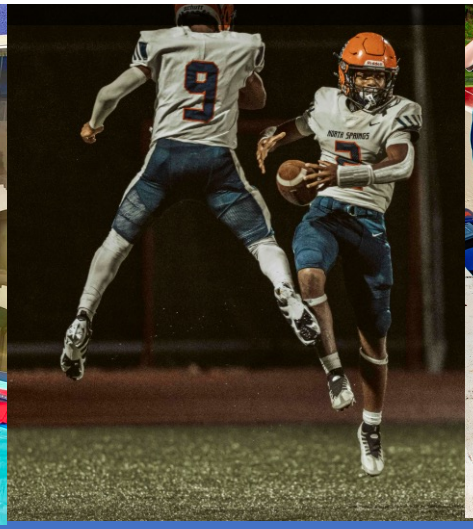

Students enjoy unparalleled opportunities for growth and innovation. They acquire skills to succeed in today’s job market while cultivating the versatility needed for future careers yet to be imagined.

North Springs’ exceptional approach ensures that students are ready to thrive in an ever-evolving world.

Out-of-district students must apply via Fulton County School's Change of School Assignment (COSA) process. North Springs welcomes in- and out-of-attendance zone students.
