District Goals 2025-2026

- 1) **Strategic Plan-** To collaboratively develop and implement a comprehensive five-year Strategic Plan 2026-2031 that aligns district priorities, promotes student achievement, and guides decision-making across all schools and departments.

- 2) **Middle School-**The district will strengthen the implementation of the new 6–8 middle school model by promoting consistent instructional practices, aligned curriculum, and collaborative professional learning communities (PLCs) to further develop a solid academic foundation for high school. The goal is to ensure a seamless academic and social transition for students across grades 6–8, with a focus on improving student achievement through data-driven instruction, targeted interventions, and the integration of supports for diverse learners.

- 3) **Budget Process-** To ensure long-term fiscal sustainability and maximize resources directly supporting student achievement, the district will maintain prudent financial practices, align budget allocations with strategic educational priorities, and enhance transparency and efficiency in all financial operations.
