Annual Notification to Parents
2026/2027

ASBESTOS MANAGEMENT PLAN

The Federal Regulation "Asbestos Hazard Emergency Response Act" (AHERA) requires that the Local Education Agency (LEA) notify parents annually of the availability of the Asbestos Management Plan (AMP). The AMP is a file containing each school building's "asbestos history". The file is located at the main office in each school building. You have the right to look at the AMP.

There is Asbestos Containing Building Material (ACBM) in nearly every school building. The AMP file has information on the location of the ACBM, records of asbestos abatement projects, 3-Year Re-inspections, periodic surveillance, Asbestos bulk-sampling results, employee 2-hour awareness training, Material Safety Data Sheets (MSDS) and my credentials as Designated Person. The buildings are inspected every six months to determine any changes in the condition of the materials. Also, the buildings are thoroughly reinspected every three years by a licensed asbestos inspector. These inspections are designed to ensure that our schools are safe at all times.

Royce Avery, Ed.D.
Interim Superintendent of Schools
