Progressive Psychological Healthcare

EXPERT ASSESSMENT. COMPASSIONATE THERAPY.

SCHOOL-BASED
MENTAL HEALTH SUPPORT

Stronger Students. Brighter Futures.

Partnering with schools to provide compassionate, evidence-based mental health care.

Individual Therapy

Support for anxiety, depression, ADHD, school avoidance, emotional regulation, peer relationships and life transitions.

Family Therapy & Parent Support

Strengthen communication, build connections and support students and families through academic, social and emotional challenges.

Diagnostic Evaluations & Testing

Psychological and neuropsychological evaluations to clarify attention, learning, emotional, behavioral and developmental concerns — and to inform treatment and school recommendations (IEP/504).

School Collaboration

With parent/guardian consent, our clinicians can coordinate with school teams and outside providers to support your student's success.

Potential On-Site Support

When coordinated with the school, outpatient therapy may be available on-site during designated school hours, helping reduce transportation and scheduling barriers.
