Cross Country – Boys & Girls

- League Records: Both the boys and girls teams are currently 1–3 in league competition.
- With limited numbers on both teams this season, earning enough runners to post an official team score at meets has been a challenge.
- Despite the numbers challenge, our student-athletes continue to train hard and make significant individual improvements each week.

- Many of our runners have been competing at a very high level at weekend invitational meets, demonstrating strong individual performances against larger fields.
- We are optimistic that several Braves runners will qualify individually for the District 3 Championships in the coming weeks.
- The dedication and commitment demonstrated by our cross country athletes throughout the season has been impressive, and we look forward to seeing their continued success as the season progresses.
