

Concert Etiquette:

Thank you for joining us for our concert today. At the elementary level our students learn concert etiquette both as a performer and an audience member. Please help us model appropriate concert etiquette with these guidelines:

- ❖ Unlike other events where cheering, hollering, or foot stomping are appropriate, at a concert we show our appreciation through applause.
- ❖ If you have a child performing, please allow them to focus on what they are presenting. Please do not wave or call their name during the performance.
- ❖ The best time to applaud is when the director (conductor) lowers their arms to their sides – this indicates the piece is over.
- ❖ It is acceptable to whisper to your neighbor during the applause, but only during the applause. Please allow those around you to enjoy the songs.
- ❖ If you enter late, leave early, or need to take a break, please move between songs instead of during a song.
- ❖ Please silence your cell phones during the performance.
- ❖ Please do not eat in the performance seating area.

Thank you for helping our students present their gift through music.
