

Board Goals 2026-2027

The Board of Education will create the conditions through its use of policy and resources to ensure a positive, healthy and safe learning environment that promotes the continuous engagement of all students in critical and creative thinking.

Goals: (i) To support the district's mission and goals; (ii) oversee further implementation and progress of a positive physical environment; and (iii) to continue to improve board operations.

The Board will work to meet the following primary objectives in line with these goals.

Primary Objectives:

- Support the goals set forth by the superintendent for the 2026-2027 school year regarding literacy and math instruction, and professional development, through policy work, the budget, oversight and evaluation
- Support the goals set forth by the superintendent for the 2026-2027 school year regarding MTSS (Multi-tiered Support System) through policy work, the budget, oversight and evaluation
- Support the goals set forth by the superintendent for the 2026-2027 school year regarding student independence and leadership through policy work, the budget, oversight and evaluation
- Support and participate in the district's evaluation of the organizational structures and the recommendations toward the most efficient, effective, and fiscally responsible operations
- Oversee and communicate the implementation of capital projects including the phase 2 bond, security bond, and field improvement bond, as well as ongoing in-house facility renovation projects
- Strengthen community engagement and connection
- Improve board operations through the refinement of board protocols
