

**Questions & Answers for N.S. T-Shirt Bags 27-008**

Q&A Due October 5, 2026

Bid Due October 27, 2026

- Q1.** The bid document requires the order lead time shall be 14 calendar days or fewer from PO issuance to completed delivery at school site. Could you please advise if a lead-time longer than 14 calendar days would be acceptable for this bid? If yes, what is the maximum allowable lead-time?
- A1.** Section 2.3.1 states the Lead Time for each order of products must be 14 days or fewer.
- Q2.** The Contractor's bid price for each case of Product shall include the following related services for each such Product: delivery to the OPS school locations specified in B and placement of the Product within the designated building in the location as directed by OPS.
Which delivery service? will place the product within the designated building in the location?
ex. UPS will drop at a receiving area, not take it within the designated area
- A2.** The delivery service will be determined by the producer of the product. Deliveries must conform to the specifications in section 2.3 Ordering and Delivery and be delivered directly to each location.
- Q3.** How do suppliers calculate shipping to each school?
- A3.** Suppliers will calculate shipping to each location and the shipping is to be included in the cost of each case. No additional shipping charges, duty fees, tariffs will be charged to OPS.
- Q4.** Could you please provide the previous award details for this solicitation?
- A4.** The previous contract was awarded to Brenmar Co. for \$19.28 per case of 1000.
