

MOORPARK UNIFIED SCHOOL DISTRICT
RFQ# 2027-01
Architecture and Engineering Services
ADDENDUM NO. 3
October 9, 2026

This Addendum forms a part of and modifies the Request for Qualifications ("RFQ") 2027-01 Architectural and Engineering Services dated April 29, 2026 and subsequent addenda.

Requests For Information and Responses

1. QUESTION 01: If a proposing firm lacks in southern California DSA projects, but has plenty of northern California DSA experience with non-DSA work completed for Southern California public works, Will this satisfy the requirement?

RESPONSE: Firms from Central and Northern California are welcome to submit an SOQ, and there is currently no distance requirement. Once the consultant pool is established, a firm's proximity to a project site may be considered when selecting a firm for a specific project. Moorpark Unified School District falls under DSA's Los Angeles regional office.

2. QUESTION 02: What is the max page limit?

RESPONSE: There is no maximum page limit. Respondents are encouraged to be judicious with page count

3. QUESTION 03: We are writing regarding **Section V, item 10 (Insurance)** of the RFQ. The section states that firms are not required to provide proof of insurance until they are awarded a project contract. However, subsection **(e)** is in bold and requests firms to **provide the amount of errors and omissions insurance carried by your firm.**

Could you please clarify whether this information is required as part of the Statement of Qualifications (SOQ), or if it is only required upon contract award?

RESPONSE: Proof of insurance is not required for this RFQ, but will be required upon award of a contract. Please include the amount of errors and omissions insurance carried by your firm in the SOQ.
