Building Title I Plan

School: Olentangy Meadows Elementary

School Year: 2026-2027

Schoolwide Title I buildings will follow the Olentangy Schools Title I policies: 2261, Title I Services; 2261.01, Title I Parent Participation in Title I Programs; 2261.02, Title I Parent Right to Know.

As a Schoolwide Title I building, OMES will:

- Notify parents as to the qualifications of their child's classroom and Title I teachers (upon request). Use funds to hire qualified teachers to provide additional academic support (reading and/or math).
- Use the district screening criteria that includes both state and local assessments.
- Use Title I funds to provide professional development for staff.
- Use Title I funds to purchase resources that support all students.
- Involve parents in the development/review of the building's Title I plan.
- Build the capacity of parents to support their child's education. We send quarterly newsletters with math and literacy strategies for parents to use at home.
- Conduct schoolwide events with families to provide resources and opportunities to support their child's learning at home. For example, OMES will host a Mustang Math Parent Night and Mustang Family Fun Night.
- Conduct meetings with families to inform them about the Title I program and to review curriculum and assessments. This will be done through parent-teacher conferences, curriculum night, and Mustang Math Parent Night.
- Provide parents with a parent-school compact describing the responsibilities of the school, the parent, and the student.
- Collaborate with parents to develop a plan for parent involvement. For example, seek feedback on use of Title I funds to purchase books for our schoolwide book club.
- Provide an annual online survey for parents in regard to the program.
- Provide parents with progress reports and provide assessment results at least twice a year.

This plan will be reviewed annually by school staff and parents and available for all families to review in the Meadows Mailbox.
