Anchored by the powerful message "You Belong Here," the 19th Annual Rialto Unified School District Family Summit filled Wilmer Amina Carter High School on Saturday, September 19, 2026, with positive energy, community connection, and educational resources. The districtwide gathering showcased the unity of the Rialto USD educational community through the signature Parade of Schools, where students, staff, and families marched in full spirit. Keynote speaker and Dwight D. Eisenhower High School alumnus **Mr. Derek Parra** headlined the event, displaying his 2002 Winter Olympic Gold and Silver medals in speedskating as he inspired scholars to chase their wildest dreams. Throughout the morning, families attended empowering workshops on AI learning tools and school transitions, while also exploring informative and interactive booths.

Policy 7214: General Obligation Bonds **Status:** DRAFT

Original Adopted Date: 08/21/2011 **| Last Revised Date:** Pending **| Last Reviewed Date:** 12/18/2024 (a)

The Board of Education recognizes that school facilities are an essential component of the educational program and that the Board has a responsibility to ensure that the District's facilities needs are met in the most cost-effective manner possible. The Board may direct the Superintendent to explore the possibility of a bond measure, which may include, but is not limited to, conducting community focus groups, surveys, and Board presentations. When the Board determines that it is in the best interest of District students, it may order an election on the question of whether bonds shall be issued to pay for school facilities.

The Board's decision to order a bond election, as well as its determinations regarding the appropriate amount, timing, and structure of the bond issuance, shall be consistent with law and the District's debt management policy.

Before ordering a bond election, the Board shall obtain reasonable and informed projections of assessed valuations that take into consideration projections of assessed property valuations made by the county assessor. (Education Code 15100)

When any project to be funded by bonds will require state matching funds for any phase of the project, the ballot materials for the bond measure shall include a statement as specified in Education Code 15122.5, advising voters that, because the project is subject to approval of state matching funds, passage of the bond measure is not a guarantee that the project will be completed. (Education Code 15122.5)

Bonds Requiring 55 Percent Approval by Local Voters

The Board, by a two-thirds vote and subject to Education Code 15100, may adopt a resolution to incur bonded indebtedness and order an election. Pursuant to the California Constitution, Article 13A, Section 1(b)(3) and Article 16, Section 18(b), a bond election authorized pursuant to Education Code 15266 requires the approval of at least a 55 percent majority of the voters voting in the election. (Education Code 15266)

The bond election may only be ordered at a primary or general election, a statewide special election, or a regularly scheduled local election at which all of the electors of the District are entitled to vote. (Education Code 15266)

General Obligation Bonds

Bonded indebtedness incurred by the District pursuant to Education Code 15266 shall be used only for the following purposes: (California Constitution Article 13A, Section 1(b)(3) and 1(b)(3)(A))

1. The construction, reconstruction, rehabilitation, or replacement of school facilities, including the furnishing and equipping of school facilities
2. The acquisition or lease of real property for school facilities
3. The refunding of any outstanding debt issuance used for the purposes specified in Items #1-2 above

The proposition approved by the voters shall include the following accountability requirements: ~~(California Constitution Article 13A, Section 1(b)(3))~~

1. Certification that proceeds from the sale of the bonds will be used only for the purposes specified in Items #1-2 above, and not for any other purposes including teacher and administrative salaries and other school operating expenses **(California Constitution Article 13A, Section 1(b)(3))**
2. A list of specific school facilities projects to be funded and certification that the Board has evaluated safety, class size reduction, and information technology needs in developing that list **(California Constitution Article 13A, Section 1(b)(3))**
3. A requirement that the Board conduct an annual, independent performance audit to ensure that the funds have been expended only on the specific projects listed **(California Constitution Article 13A, Section 1(b)(3))**
4. A requirement that the Board conduct an annual, independent financial audit of the proceeds from the sale of the bonds until all of those proceeds have been expended for the school facilities projects **(California Constitution Article 13A, Section 1(b)(3))**
5. ~~If a District general obligation bond requiring a 55 percent majority is approved by the voters,~~ **A requirement that** the Board shall appoint an independent citizen's oversight committee to inform the public concerning the expenditure of bond revenues as specified in Education Code 15278 and the accompanying administrative regulation **(Education Code 15278)**

   This committee shall be appointed within 60 days of the date that the Board enters the election results in its minutes pursuant to Education Code 15274. (Education Code 15278)

The Superintendent or designee shall ensure that the annual, independent performance and financial audits required pursuant to Items #3-4 above are issued in accordance with the U.S. Comptroller General's Government Auditing Standards and submitted to the citizens' oversight committee at the same time they are submitted to the Superintendent or designee and no later than March 31 of each year. (Education Code 15286)

General Obligation Bonds

The Board shall provide the Citizens' Oversight Committee with responses to all findings, recommendations, and concerns addressed in the performance and financial audits within three months of receiving the audits. (Education Code 15280)

The Board may disband the Citizens' Oversight Committee when the committee has completed its review of the final performance and financial audits.

Bonds Requiring ~~66.67 Percent~~ Two-thirds Approval by Local Voters

The Board may decide to pursue the authorization and issuance of bonds by approval of ~~66.67 percent~~ **a two-thirds** majority of the voters pursuant to Education Code 15100 and California Constitution, Article 13A, Section 1(b)(2). If a majority of the Board agrees to such an election, or upon a petition of the majority of the qualified electors residing in the District, the Board shall adopt a resolution ordering an election on the question of whether to incur bonded indebtedness if approved by ~~a 66.67 percent~~ **two-thirds** majority of the voters. (Education Code 15100)

The Bond election may be ordered to occur on any Tuesday, except a Tuesday that is a state holiday or the day before or after a state holiday, is within 45 days before or after a statewide election unless conducted at the same time as the statewide election, or is an established election date pursuant to Elections Code 1000 or 1500. (Education Code 15101)

Subject to limits specified in Article 13A, Section 1 of the California Constitution, bonds shall be sold to raise money for any of the following purposes: (Education Code 15100)

1. Purchasing school lots
2. Building or purchasing school buildings
3. Making alterations or additions to school building(s) other than as may be necessary for current maintenance, operation, or repairs
4. Repairing, restoring, or rebuilding any school building damaged, injured, or destroyed by fire or other public calamity
5. Supplying school buildings and grounds with furniture, equipment, or necessary apparatus of a permanent nature
6. Permanently improving school grounds
7. Refunding any outstanding valid indebtedness of the District, evidence**d** by bonds or state school building aid loans
8. Carrying out sewer or drain projects or purposes authorized in Education Code 17577
9. Purchasing school buses with a useful life of at least 20 years
10. Demolishing or razing any school building with the intent to replace it with another school building, whether in the same location or in any other location

General Obligation Bonds

Except for refunding any outstanding indebtedness, any of the purposes listed above may be united and voted upon as a single proposition by **an** order of the Board entered into the minutes. (Education Code 15100)

The Board may appoint a citizens' oversight committee to review and report to the Board and the public as to whether the expenditure of bond revenues complies with the intended purposes of the bond.

Certificate of Results

If the certificate of election results received by the Board **from the applicable county elections officials** shows that the appropriate majority of the voters is in favor of issuing the bonds, the Board shall **declare that the bond measure has passed and** record that fact in its minutes. The Board shall then certify to the County Board of Supervisors all proceedings it had in connection with the election results. (Education Code 15124, 15274**; Elections Code 15372, 15400**)

Resolutions Regarding Sale of Bonds

Following passage of the bond measure by the appropriate majority of voters, the Board shall pass ~~a~~ **one or more** resolution**s** directing the issuance and sale of bonds **as necessary.** In accordance with law, ~~the~~ **each** resolution shall prescribe the total amount of bonds to be sold and may also prescribe the maximum acceptable interest rate, not to exceed eight percent, and the time(s) when the whole or any part of the principal of the bonds shall be payable. (Education Code 15140; Government Code 53508.6)

In passing ~~the~~ **each** resolution, the Board shall consider each available funding instrument, including, but not limited to, the costs associated with each and their relative suitability for the project to be financed.

Prior to the sale of bonds, the Board shall place an agenda item at a public meeting and adopt as part of the bond issuance resolution**,** or in a separate resolution, disclosures of the available funding instruments, the costs and ~~suitability~~ **sustainability** of each, and all of the following information: (Education Code 15146)

1. Express approval of the method of sale**,** such as competitive or negotiated sales
2. Statement of the reasons for the method of sale selected
3. Disclosure of the identity of the bond counsel, and the identities of the bond underwriter and the financial advisor if either or both are utilized for the sale, unless these individuals have not been selected at the time the resolution is adopted, in which case the Board shall disclose their identities at the public meeting occurring after they have been selected
4. Estimates of the costs associated with the bond issuance, including, but not limited to, bond counsel and financial advisor fees, printing costs, rating agency fees, underwriting fees, and other miscellaneous costs and expenses of issuing the bonds

General Obligation Bonds

When the sale involves bonds that allow for the compounding of interest, such as a capital appreciation bond (CAB), the resolution to be adopted by the Board shall include Items #1-4 above as well as the financing term and time of maturity, repayment ratio, and the estimated change in the assessed value of taxable property within the District over the term of the bonds. The resolution shall be publicly noticed on at least two consecutive meeting agendas, first as an information item and second as an action item. The agendas shall identify that bonds that allow for the compounding of interest are proposed. (Education Code 15146)

Prior to adopting a resolution for the sale of bonds that allow for the compounding of interest, the Board shall be presented with the following: (Education Code 15146)

1. An analysis containing the total overall cost of the bonds that allow for the compounding of interest
2. A comparison to the overall cost of current interest bonds
3. The reason bonds that allow for the compounding of interest are being recommended
4. A copy of the disclosure made by the underwriter in compliance with Rule G-17 adopted by the federal Municipal Securities Rulemaking Board

At least 30 days prior to the sale of any debt issue, the Superintendent or designee shall submit a report of the proposed issuance to the California Debt and Investment Advisor**y** Commission (CDIAC). (Government Code 8855)

After the sale, the Board shall be presented with the actual issuance cost information and shall disclose that information at the Board's next scheduled meeting. The Board shall ensure that an itemized summary of the costs of the bond sale and all necessary information and reports regarding the sale are submitted to the CDIAC. (Education Code 15146; Government Code 53509.5)

Bond Anticipation Notes

Whenever the Board determines that it is in the best interest of the District, it may, by resolution, issue a bond anticipation note, on a negotiated or competitive-bid basis, to raise funds that shall be used only for a purpose authorized by a bond that has been approved by the voters of the District in accordance with law. (Education Code 15150)

Payment of principal and interest on any bond anticipation note shall be made at note maturity, not to exceed five years, from the proceeds derived from the sale of the bond in anticipation of which that note was originally issued or from any other source lawfully available for that purpose, including state grants. Interest payments may also be made from such sources. However, interest payments may be made periodically and prior to note maturity from an increased property tax if the following conditions are met: (Education Code 15150)

1. A resolution of the Board authorizes the property tax for that purpose
2. The principal amount of the bond anticipation note does not exceed the remaining principal amount of the authorized but unissued bonds

General Obligation Bonds

A bond anticipation note may be issued only if the tax rate levied to pay interest on the note would not cause the District to exceed the tax rate limitation set forth in Education Code 15268 or 15270, as applicable.

Deposit of Bond Proceeds

With regard to general obligation bonds, the District shall invest new money bond proceeds in the county treasury pool as required by law. (Education Code 15146)

AWARD BID NO. FY2627-BID-03 FOR DISTRICTWIDE FLOORING PHASE 4 TO MIKE'S CUSTOM FLOORING

BACKGROUND:

On August 21, 2026, the District released a bid for districtwide flooring improvements at various District sites. The scope of work includes the removal, preparation, furnishing, and installation of new flooring systems at Kelley Elementary School, Boyd Elementary School, Preston Elementary School, Trapp Elementary School, and Kordyak Elementary School. Per Public Contract Code ("PCC") section 22032(c) the District is required to formally bid any public works project which exceeds $220,000.

REASONING:

As legally required, the District published a Notice Inviting Bids ("NIB") in the San Bernardino County Sun on August 21, 2026, and August 28, 2026. The bid was also published on the District's website, and an outreach email containing the bid information was distributed to local contractors. Twenty-one (21) bidders attended the mandatory pre-bid conference on September 5, 2026. On September 24, 2026, the District received and opened four (4) bids.

The District has determined Mike's Custom Flooring to be the lowest responsive and responsible bidder. The District will include an allowance of $118,889.60 in the contract for unforeseen conditions that may arise during the course of the project. An outline of all bids received and the corresponding bid amounts is provided below.

	Bidder Name	Base Bid Amount
1	MIKE'S CUSTOM FLOORING	$1,188,896.00
2	LAWRENCE W. ROSINE CO.	$1,245,300.00
3	DFS FLOORING	$1,337,000.00
4	FLOOR TECH AMERICA	$1,359,000.00

RECOMMENDATION:

Award the Contract to Mike's Custom Flooring for the total contract amount of $1,307,785.60, which includes an allowance for unforeseen conditions, to be paid from the General Fund (Routine Repair Maintenance Account).

AUTHORIZE THE PURCHASE, WARRANTY, AND INSTALLATION OF TECHNOLOGY SOLUTIONS PRODUCTS FROM SHI INTERNATIONAL CORPORATION THROUGH AN AWARDED CALIFORNIA MULTIPLE AWARD SCHEDULE (CMAS) CONTRACT

BACKGROUND:

The purpose of this agenda item is to seek Board approval to utilize a CMAS contract awarded to SHI International, Corporation ("SHI"). The District can, without going to bid, utilize this contract pursuant to California Public Contract Code Sections 20118 and 10298. District staff have reviewed contracts available for use by the District through CMAS, National Association of State Procurement Officials (NASPO) and awarded contracts from other Public Agencies and determined that the contract prices offered by SHI under CMAS 3-23-04-1003 to be fair, reasonable, and competitive.

REASONING:

The CMAS agreement with SHI International Corp. will allow the District to purchase cloud-based technology products, software, licensing, cybersecurity solutions, infrastructure, technical support, and related professional and managed services. CMAS contracts ensure that only financially strong, responsive vendors, specifically trained and approved by the manufacturer, will be allowed to sell and install the materials purchased through the CMAS contract.

The CMAS contracts are utilized statewide by both California state and local government agencies under delegated authority from the Department of General Services, Procurement Division, in accordance with Public Contract Code (PCC) Sections 10290, et. seq., and Section 12101.5. There is no administration fee as all costs are assessed to the supplier.

RECOMMENDATION:

Approve the use of California Multiple Award Schedule (CMAS) number 3-23-04-1003 awarded SHI International Corporation at a cost to be determined at the time of purchase and to be paid using various funds.

BUILDING FUND SUB FUND 21-9205

BACKGROUND:

A fund established to demonstrate fiscal accountability and compliance with finance-related legal, budgetary, and contractual provisions and restrictions on the use of public resources.

REASONING:

The District will be selling the second issuance of Measure A bond funds in October 2026. The Building Fund Sub Fund 21-9205 would be established to account for financing proceeds and expenditures generated from this bond issuance.

RECOMMENDATION:

Approve the establishment of the Building Fund Sub Fund 21-9205.

RESOLUTION NO. 26-27-16
OF THE BOARD OF EDUCATION
OF THE RIALTO UNIFIED SCHOOL DISTRICT
TO STANDARDIZE DISTRICT FACILITY COMPONENTS FOR THE DESIGNATION OF SPECIFIC MATERIAL(S), PRODUCT(S), OR SERVICE(S) ON PUBLIC CONTRACT CODE SECTION 3400(c)(2)

WHEREAS, pursuant to California Public Contract Code ("PCC") section 3400 and other applicable law, the District intends to establish uniform, complete and compatible systems, products and/or materials and associated services as identified in Exhibit "A" attached hereto (collectively "Standard Products") on a District-wide basis in order to facilitate the most technologically competitive and feasible education for school children in the District;

WHEREAS, pursuant to PCC § 3400 and other applicable law, the District intends, in appropriate instances, to designate Standard Products by specific brand or trade name in bids, requests for proposals, specifications, or other solicitations for public works when necessary to match products or systems already in use on the particular public improvement;

WHEREAS, PCC §3400 (c)(2) provides that the District may specify particular material(s), product(s), or service(s) in its specifications for bids in connection with the construction, alteration, or repair of public works upon a finding by the District Board that particular material(s), product(s), or service(s) are listed for the purpose of matching "other products in use on a particular public improvement either completed or in the course of completion";

WHEREAS, the District desires to identify the Standard Products for potential use on applicable District public works projects when the particular Standard Product is necessary to match, integrate with, expand, repair, replace, or maintain products or systems already in use on the particular District public improvement(s), either completed or in the course of completion, consistent with PCC § 3400(c)(2);

WHEREAS, in support of the findings made by the Board pursuant to PCC § 3400(c)(2), the District has identified operational and compatibility considerations demonstrating the benefits of matching Standard Products to existing products and

systems, including the following:

- The District has already incurred costs to train its employees to service and maintain specific current product(s) and system(s) throughout District campuses.

- The ongoing maintenance, repair, and other work that District staff and/or service providers will have to perform on those product(s) or system(s) will be simplified, more efficient, and less costly if those persons do not have to service different and varied product(s) and system(s).

- The warranties and guarantees for product(s) and system(s) will be easier to coordinate, track, and call upon in the years to come if they are with the same manufacturers and /or vendors of the particular product(s) or system(s).

- It would be beneficial for the entire District to reduce District cost by implementing uniform system(s) and installing uniform product(s) throughout the District, facilitating maintenance, engineering and overall reliability.

- The District anticipates future construction, alteration, modernization of existing school sites to replace and/or upgrade system(s) at those sites.

- The Standard Products will: (1) provide appropriate form, fit, function, interoperability, and compatibility with the District's existing infrastructure; (2) facilitate the integration of additions, replacements, repairs, and modernization work with products and systems already in use; and (3) support efficient maintenance, replacement-parts inventory, staff training, warranty administration, and long-term operation of District facilities.

WHEREAS, District staff has undertaken considerable research into systems, products and/or materials that would properly serve the District's administrative and educational purposes;

WHEREAS, the District's intent is to match those existing systems, products and/or materials currently in the District and to avoid the cost of designing and engineering systems that may not be compatible, could never be made compatible or could only be made compatible after expending considerable District resources and funds;

WHEREAS, identification of a Standard Product in Exhibit "A" does not, standing alone, require its use on every District project, and the District will determine the applicable Standard Product based upon the existing product or system installed at the particular public improvement and the compatibility requirements of the project;

WHEREAS, where more than one manufacturer or product is identified within a category in Exhibit "A," the applicable Standard Product will be determined based upon the existing product or system installed at the particular public improvement and the compatibility requirements of the project; and

WHEREAS, District staff may periodically review the Standard Products and recommend revisions based upon changes to existing District infrastructure, product availability, compatibility, technology, maintenance requirements, warranties, and other operational considerations.

NOW, THEREFORE, BE IT RESOLVED, that the Board of Education of the Rialto Unified School District hereby resolves, determines, finds, and orders as follows:

Section 1. The Board hereby finds and determines that the materials, products, systems, and/or services identified in Exhibit "A" are presently installed and in use within District facilities and approves them as District Standard Products. Pursuant to Public Contract Code section 3400(c)(2), an applicable Standard Product may be designated by specific brand or trade name when necessary to match products in use on a particular District public improvement, either completed or in the course of completion.

Section 2. The purpose of establishing the Standard Products is to maintain compatibility and interoperability with existing District facilities and systems while supporting efficient maintenance and long-term operation.

Section 3. The District has invested in employee training, replacement parts, equipment, and maintenance practices associated with its existing systems.

Section 4. Maintaining compatible products and systems reduces unnecessary variation, facilitates repairs and replacement, supports warranty administration and parts inventory, and promotes consistent operation and reliability as the District constructs, alters, modernizes, repairs, and upgrades its facilities.

Section 5. Identification of a Standard Product in Exhibit "A" does not, standing alone, require its use on every District project. The applicable Standard Product may be specified when the District determines that it is necessary to match, integrate with, expand, repair, replace, or maintain products or systems already in use on the particular public improvement.

Section 6. When the District designates a Standard Product by specific brand or trade name pursuant to Public Contract Code section 3400(c)(2), the applicable procurement documents shall describe the finding supporting the designation as required by law.

Section 7. Where more than one manufacturer or product is identified within a category in Exhibit "A," the applicable Standard Product shall be determined based upon the existing product or system installed at the particular public improvement and the compatibility requirements of the project. When feasible and consistent with those requirements, the District may identify more than one acceptable product or system.

Section 8. District staff may periodically review the Standard Products identified in Exhibit "A" based upon changes to District infrastructure, product availability, compatibility, technology, maintenance requirements, warranties, and other relevant operational considerations, and may recommend revisions to the Board as appropriate.

Section 9. The Superintendent, or the Superintendent's designee, is authorized to take such actions as are necessary and appropriate to implement and carry out the terms and intent of this Resolution consistent with applicable law.

Section 10. Effective Date. This Resolution shall take effect immediately upon its approval and adoption by the Board of Education.

APPROVE THE EXPANDED LEARNING OPPORTUNITIES PROGRAM PLAN THREE YEAR RENEWAL

BACKGROUND:

The Expanded Learning Opportunities Program (ELOP) provides funding to support expanded learning opportunities for students in Transitional Kindergarten through sixth grade. Expanded learning includes before-school, after-school, summer, and intersession programs that address the academic, social-emotional, and physical needs and interests of students through engaging, learning experiences.

In accordance with state ELOP guidelines, school districts are required to develop and maintain an Expanded Learning Opportunities Program Plan and bring the plan forward for approval every three years. The renewal of the plan ensures that the District's expanded learning services remain aligned with current state program requirements, identified student needs, and the District's ongoing goals for providing access to high-quality expanded learning opportunities.

ELOP programs are designed to be student centered and responsive to student needs. Programs complement, not replicate, the regular instructional day and provide students with additional opportunities to strengthen academic skills, develop positive relationships, explore enrichment opportunities, and participate in activities that support the whole child.

REASONING:

The Expanded Learning Opportunities Program Plan (ELOP Plan) serves as the overarching framework for Rialto Unified School District's continued implementation and expansion of high quality expanded learning opportunities for TK–6 students. The plan supports increased access to academic support, literacy, numeracy, enrichment, social-emotional learning, visual and performing arts, physical activity, and other student-centered experiences beyond the regular school day and school year.

The renewed plan will continue to provide access to expanded learning opportunities throughout the District to offer programs that are responsive to individual student needs and site identified. Program development and implementation will be informed by student participation, attendance, academic and program data, stakeholder feedback, and continuous quality improvement efforts.

The plan will support the continued expansion of before-school and after-school programming, summer enrichment, tutoring opportunities, and programming on non-instructional days (NID). It will also provide expanded learning for Universal Transitional Kindergarten (UTK) students, as appropriate, and continue districtwide tutoring services that provide student access.

Additionally, the plan will provide expanded programming on designated non-instructional days, offering students additional opportunities for academic enrichment, social-emotional development, physical activity, and engaging enrichment experiences. These opportunities are intended to increase student engagement, strengthen connections with caring adults and peers, and provide families with greater access to high quality enrichment opportunities outside of the traditional school day.

RECOMMENDATION:

To approve the renewal of the Expanded Learning Opportunities Program Plan for the continued implementation and expansion of expanded learning programs and services for TK–6 students throughout Rialto Unified School District, effective October 15, 2026, at no additional cost to the District.

The platforms support translanguaging across content areas, helping students build comprehension in English and Spanish while developing academic vocabulary. Teachers can also download skill-based reading passages to supplement instruction in multiple subject areas. In addition to supporting instruction throughout the school year, Raz-Plus has become an essential resource for the district's Summer School Academy.

Policy 0100: Philosophy

Status: DRAFT

Original Adopted Date: 05/26/1999 **| Last Reviewed Date:** 05/26/1999 (a)

~~**Philosophy**~~

In order to establish and support a guiding vision for the District, ~~T~~the Board of Education ~~**believes that all students can succeed regardless of race, background or ability. School staff** shall **embody this philosophy in all district**~~ **develop, articulate, and regularly review an overarching set of fundamental principles which describe the District's core beliefs, values, and tenets. The Board and District staff shall incorporate these principles into all** programs, ~~and~~ activities~~.~~**, and operations of the District.**

~~The educational process must be committed to the preservation of the individuality and personal worth of each student. As an active participant in the experience of education, each student should find the means of establishing his/her personal standards and values.~~

~~Learning is a personal experience which comes from within the individual. Those who mediate learning arrange an environment so that learning may occur. The educational experience must emphasize learning through processes that allow students to select or reject, analyze and interpret, weigh and debate, evaluate and decide, value and defend.~~

~~The challenge of education is to guarantee that each student may be able to face a continuum of problems to be solved and decisions to be made, and he/she will be able to adapt to a changing environment in the process of living.~~

~~Diversity and technology are two of the major realities of American life. Diversity defines the many cultures which make up the population. Technology is a great determinant in our lives. What is innovative today will be obsolete some years hence. The educational process must, therefore, reflect these factors and anticipate the future.~~

~~**Mission Statement**~~

~~The mission of the Rialto Unified School District is to maximize student academic, social and cultural development so that graduates can apply acquired knowledge and skills to live meaningful and productive lives.~~

~~**Vision Statement**~~

~~The vision of the Rialto Unified School District is to join with our communities and families by educating our children in a climate that promotes the A.R.T. of Communication: Appreciation of cultural diversity, Respect and Trust.~~

It is the philosophy of the District that:

1. **All students can learn and succeed**

2. **Every student should have an opportunity to receive a quality education regardless of his/her social, cultural, or economic background**

3. **Every student in the District has a right to be free from discrimination, harassment, intimidation, and bullying, as prohibited by law or District policy**

4. **The future of our nation and community depends on students possessing the skills to be lifelong learners, collaborative and creative problem solvers, and effective, contributing members of a global and technologically advanced society**

5. **Highly skilled and dedicated teachers and educational support staff have the capacity to guide students toward individual achievement and growth, and have a direct and powerful influence on student learning and**

life experiences

6. **A safe, nurturing environment and positive school climate are necessary for learning, academic achievement, and student development**

7. **Parents/guardians have a right and an obligation to be engaged in their child's education and to be involved in the intellectual, physical, emotional, and social development and well-being of their child**

8. **The needs of the whole child must be addressed, as the ability of children to learn is affected by social, health, and economic conditions and other factors outside the classroom**

9. **Early identification of learning and behavioral difficulties and timely and appropriate support and intervention contribute to student success**

10. **Students and staff are encouraged and motivated by high expectations and recognition for their accomplishments**

11. **School improvement is a dynamic process requiring flexibility and innovation to meet the needs of students in a changing world**

12. **Professional development for the Board and District staff is essential for the growth and success of the District and its students**

13. **The diversity of the student body and school staff enriches the learning experience, promotes cultural awareness and acceptance, and serves as a model for citizenship in a global society**

14. **A common set of norms and protocols is crucial to effective governance**

15. **Communication, trust, respect, collaboration, and teamwork strengthen the relationship among Board members and between the Board and Superintendent, and contribute to the effectiveness of the governance team**

16. **The community and District are inextricably connected partners, wherein the community's engagement in issues that impact the schools enhances the District's programs and student learning**

17. **Two-way communication with all stakeholders is essential for establishing continuity, support, and shared goals both within the District and with the surrounding community**

18. **The Board has a responsibility to advocate on behalf all students, keep current on legislative issues affecting education, and build positive relationships with local, state, and federal representatives**

19. **A fiscally sound budget which is reflective of the District's vision is imperative to the financial stability of the District and to the attainment of its goals**

20. **Responsibility for District programs and operations is shared by the entire educational community, with ultimate accountability resting with the Board as the basic embodiment of representative government**

Policy 0200: Goals For The School District

Status: DRAFT
(a)

Original Adopted Date: 05/26/1999 | **Last Revised Date:** 10/22/2008 | **Last Reviewed Date:** 10/22/2008

As part of the Board of Education's responsibility to set direction for the school district, the Board shall adopt long-term goals focused on the achievement ~~and needs~~ of all District students. The District's goals shall be aligned with the District's vision, mission, philosophy, and priorities ~~and shall be limited in number so as to be reasonably achievable within established timelines~~.
~~When developing the District's goals, the Board shall consider the following areas:~~

1. ~~Developing curriculum, assessments, and instructional materials that are aligned with the state's content standards, frameworks, and assessments~~
2. ~~Maintaining safe and orderly campuses which promote learning~~
3. ~~Ensuring that all students achieve proficiency in essential areas of skill and knowledge and attain the academic, career, and technical skills needed to succeed in a knowledge- and skills-based economy~~
4. ~~Providing for the specialized needs of identified groups of students, including providing necessary support and intervention programs and closing the gap between low-achieving and high-achieving students~~
5. ~~Providing a system of shared accountability for student achievement with clear performance standards and consequences~~
6. ~~Promoting student health, nutrition, and physical activity in order to enhance learning~~
7. ~~Developing each student's self-respect, respect for others, appreciation for diversity and sense of personal responsibility~~
8. ~~Allocating time and resources for staff collaboration, planning and professional development activities aligned with the District's goals~~
9. ~~Maintaining fiscal integrity for the District and aligning resources to instructional needs and priorities for student achievement~~
10. ~~Improving the organization, management, and decision-making structure and capabilities of the District to better support the education of students~~
11. ~~Employing technology in ways that enhance learning, teaching and noninstructional operations~~
12. ~~Providing and maintaining facilities to meet the needs of present and future students~~
13. ~~Maintaining positive relations with parents/guardians and the community, emphasizing communication and inviting participation in the schools~~
14. ~~Collaborating with other public agencies and private organizations to ensure that children's physical, social, and emotional needs are met~~

~~Each goal shall include measurable standards, performance indicators, and benchmarks that can be used to determine the District's progress toward meeting that goal.~~

~~The Superintendent or designee shall, with the involvement of District and school site staff, develop a strategic plan containing short-term goals. The Superintendent or designee shall also ensure that District improvement plans and reform efforts are aligned with the District's goals.~~

DRAFT

~~The Superintendent or designee shall ensure that these goals are communicated to staff, parent/guardians, students, and the community and that those groups are given an opportunity to provide feedback to the District about the goals.~~

~~**Monitoring and Evaluation**~~

~~The Board shall regularly monitor the progress of the District's efforts in achieving the goals. To that end, the Superintendent or designee shall provide the Board with the necessary data and analysis to help the Board evaluate the effectiveness of the District's efforts. These data shall include an analysis of the progress based on the performance indicators and benchmarks for each goal, as well as other measures of student achievement, such as the Academic Performance Index, Adequate Yearly Progress, student attendance, and graduation rates.~~

~~If the Board determines that sufficient progress is not being made toward a particular goal, the Board and Superintendent shall determine what types of additional District resources and support should be provided so that progress in increasing student achievement can be made. District goals shall be revised as necessary.~~

In developing goals and identifying strategies to achieve those goals, the Board and Superintendent shall solicit input and review from key stakeholders. The Board shall also review and consider quantitative and/or qualitative data, including data disaggregated by student subgroup and school site, to ensure that District goals are aligned with student needs.

Goals shall be established for all students and each numerically significant subgroup as defined in Education Code 52052, which may include ethnic subgroups, socioeconomically disadvantaged students, English learners, students with disabilities, foster youth, and homeless students and shall address each of the state priorities identified in Education Code 52060 and any additional local priorities established by the Board. These goals shall be incorporated into the District's local control and accountability plan (LCAP). (Education Code 52060-52077)

The LCAP shall include a clear description of each goal, one or more of the state or local priorities addressed by the goal, any student subgroup(s) or school site(s) to which the goal is applicable, and expected progress toward meeting the goal for the term of the LCAP and in each year.

Each year the District's update to the LCAP shall review progress toward the goals and describe any changes to the goals. (Education Code 52060-52061)

In addition to the goals identified in the LCAP, and consistent with those goals, the District and each school site may establish goals for inclusion in another District or school plan or for any other purpose. Such goals may address the improvement of governance, leadership, fiscal integrity, facilities, community involvement and collaboration, student wellness and other conditions of children, and/or any other areas of District or school operations. As appropriate, each goal shall include benchmarks or short-term objectives that can be used to determine progress toward meeting the goal.

(a)

The Board of Education recognizes its responsibility to ensure accountability to the public for the performance of **the** District **each District** school~~s~~. The Board shall regularly review the effectiveness of the District ~~'s~~ programs, personnel, and fiscal operations, with a focus on the ~~District's effectiveness in improving~~ **capacity to improve** student achievement. The Board shall establish ~~systems and~~ **appropriate** processes **and measures** to monitor results and to evaluate ~~the District's~~ progress toward accomplishing the District's vision and goals~~.~~ **set forth in the local control and accountability plan (LCAP).**

~~The Board and the Superintendent shall agree upon appropriate measure of District, school, and student performance and shall establish a schedule for providing regular reports to the Board and the public.~~
~~Opportunities for feedback from students, parents/guardians, staff, and community members shall be made available as part of the review and evaluation of District programs and operations.~~

~~Indicators of District progress in improving student achievement shall include, but not be limited to, the Academic Performance Index (API) established by the State's accountability system and measures of Adequate Yearly Progress (AYP) required under the Federal accountability system.~~

~~Following the annual publication of the API and school rankings by the Superintendent of Public Instruction, the Board shall, at a regularly scheduled meeting, discuss the results of each school's annual ranking. (Education Code 52056)~~

~~This discussion shall include an examination of scores from the Standardized Testing and Reporting (STAR) program, by school, grade, and student subgroup, including disaggregated data based on socioeconomic status, race/ethnicity, enrollment in Special Education, English proficiency, and gender.~~

District and school performance shall be annually evaluated based on multiple measures specified in the California Accountability and Continuous Improvement System as reported on the California School Dashboard.

The District and each District school shall demonstrate comparable improvement in academic achievement for all numerically significant student subgroups. Numerically significant subgroups include ethnic subgroups, socioeconomically disadvantaged students, English learners, long-term English learners, students with disabilities, foster youth, and students experiencing homelessness, when the subgroup consists of at least 30 students with a valid test score or 15 foster youth, long-term English learners, or students experiencing homelessness. (Education Code 52052)

The Superintendent shall provide regular reports to the Board and the public regarding District and school performance. Opportunities for feedback from students, parents/guardians, staff, and community members shall be made available as part of any review and evaluation of District programs and operations and as part of the development or annual update of the LCAP.

Evaluation results may be used as a basis for **revising District or school goals, updating the LCAP or other comprehensive plans,** identifying and developing strategies to address disparities in achievement among student subgroups, implementing programmatic changes, determining the need for additional support ~~or~~ **and** assistance, awarding incentives or rewards, and establishing other performance-based consequences.

The District shall accept technical assistance or other intervention that may be required pursuant to Education Code 52071 or 52072. If the County Superintendent of Schools is required to provide technical assistance to the District, the District shall accept the technical assistance by providing timely documentation to, and maintaining regular communication with, the County Superintendent. (Education Code 52071)

BACKGROUND:

The California School Boards Association (CSBA) Annual Education Conference (AEC) is held annually in December, focusing on leadership development opportunities that include budget and finance, student achievement, governance, school safety, Common Core, community engagement, communication, and collaboration. The CSBA AEC Conference will be held December 3 – December 5, 2026, at the San Diego Convention Center. The Annual Education Conference includes a Student Board Member Program on December 2, 2026, from 9:30 a.m. - 4:00 p.m.

REASONING:

Student Board Members are integral to District School Boards, ensuring students' voices are heard and included in the governance team. The Student Board Member program at AEC is a statewide professional development opportunity that allows student board members to expand their governance horizons. This program provides student board members with a focus on developing their governance skills while also increasing their familiarity with their role as governance team members.

Through various presentations, discussions, and interactive exercises, students are introduced to the principles of good governance, share ideas on best practices, and build a network among their peers. This engaging training will provide our Student Board Member with the resources necessary to enhance her role on our District's governance team.

RECOMMENDATION:

Approve registration, lodging, transportation, and meal expenses for Student Board Member, Darinka Galaviz, and one (1) parent chaperone to attend the California School Board Association (CSBA) Annual Education Conference (AEC), including the Student Board Member Program, to be held on December 2 – December 5, 2026, at the San Diego Convention Center in San Diego, California, at a cost not-to-exceed $4,000.00 and to be paid from the General Fund.

APPROVE PARENTS/COMMUNITY MEMBERS TO ATTEND REGIONAL EDUCATIONAL LEADERSHIP ACADEMY (RELA)

BACKGROUND:

The San Bernardino County Superintendent of Schools is offering an in-person Regional Leadership Academy for educators and parents/guardians of the community. This program is designed to give parents and educators an inside view of our vibrant community. Attendees will participate in immersive sessions in key regional locations, meet educational partners, and develop leadership skills while learning more about where they live and the services offered to students and families in San Bernardino County.

REASONING:

Rialto Unified School District (RUSD) can send parents and educators to participate in a series of six (6) sessions of the Regional Educational Leadership Academy offered by the San Bernardino County Superintendent of Schools. These sessions are meant to transform the lives of our parents and community through education. This opportunity will help to develop the leadership capacity of our parents and educators while learning about their community.

RECOMMENDATION:

Approve up to eight (8) parents to attend six (6) sessions of the Regional Educational Leadership Academy offered by the San Bernardino County Superintendent of Schools from November 6, 2026, through April 9, 2027, at a cost not to exceed $6,800.00, and to be paid from the General Fund.

She also thanked the District for providing a de-escalation room at the Family Summit and emphasized the importance of meaningful inclusion and civility.

Maurice Bowers, Community Member and DAAPAC Communications Chair, highlighted recent DAAPAC meetings and strong participation from families, staff, and students. He announced the upcoming DAAPAC meeting on October 1, 2026, which will focus on chronic absenteeism and include a presentation from UC Riverside, with a possible college-night component featuring Cal State San Bernardino.

C.3 COMMENTS FROM ASSOCIATION EXECUTIVE BOARD MEMBERS

- Rialto Education Association (REA)
- California School Employees Association (CSEA)
- Teamsters Local 986
- Communications Workers of America (CWA)
- Rialto School Managers Association (RSMA)

Tobin Brinker, Rialto Education Association (REA) President, emphasized the importance of evaluating existing programs,

responsibilities, and initiatives to determine what is effective and what may be creating unnecessary demands on teachers. He specifically mentioned testing, breakfast in the classroom, social-emotional learning, and technology, noting that teachers should be involved in determining which programs are useful and which may duplicate existing efforts. He also thanked Dr. Álvarez for addressing concerns about elementary teachers losing VAPA preparation time and ensuring that affected teachers received makeup preparation time.

Christine Acosta, California School Employees Association (CSEA) President, raised concerns about staffing shortages, particularly among school intervention officers, amid an increase in student behavioral incidents and aggression. They also expressed concern about paraprofessionals being assigned to students whose behavioral needs may exceed the supports, training, or resources provided for the assignment. She urged the District to review staffing levels, IEPs, behavioral supports, and employee training to ensure that students and staff have the appropriate resources and that safety concerns are addressed proactively.

Kristy Streff, Rialto School Managers Association (RSMA) Past President, shared updates on administrator collaboration, including a recent cross-town football game that brought administrators from different levels of the District together and helped strengthen relationships. She also announced that RSMA's regional activity design project was approved, allowing collaboration with management associations in Fontana and San Bernardino County to exchange ideas, best practices, and professional resources. She highlighted RSMA's scholarship program, which has awarded more than $10,000 over the past four years to local students pursuing careers in education, and recognized several District staff members for their contributions.

ORAL SUMMARY

According to Government Code section 54953, prior to a vote on a new or amended contract with a cabinet-level administrator, there must be an oral summary of the salary and compensation paid in the form of fringe benefits pursuant to the contract.

Item F.1. is a proposed amendment to the agreement for employment of Superintendent, Dr. Alejandro Alvarez. If this Amendment is approved, the salary and compensation paid in the form of fringe benefits pursuant to the contract would be as follows:

1. Consistent with the Employment Agreement and based on Board action relative to the certificated and classified management units for the 2025-2026 school year, retroactive to December 1, 2025, the Superintendent's base annual salary shall be increased by three and one-half percent (3.5%), resulting in a base salary of Three Hundred Sixty-Eight Thousand Four Hundred Sixty dollars ($368,460.00).

2. Additionally, like other employee groups within the District, the Superintendent also shall receive a one and one-half percent (1.5%), one-time, off-schedule payment, based on salary placement as of December 1, 2025, as modified herein, in the amount of $5,526.90.

3. The Amendment also clarifies, going forward, that the Superintendent's base annual salary shall be increased by three percent (3%) or increased by the same across-the-board on-schedule and off-schedule salary increase granted to the District's management group, whichever is greater.

4. Further, the Superintendent shall receive a doctoral stipend in the amount of five percent (5%) of his annual salary, payable along with

base salary in twelve (12) approximately equal payments, pro-rated for partial years of service.

5. Further, the District will provide an annual contribution of $25,500.00 per year, in 12 approximately equal payments to a District paid annuity/retirement type contribution of Superintendent's choice.

6. Finally, pursuant to Sections 2 and 6 of the Employment Agreement, based on a satisfactory or better annual evaluation, the Board must consider extending the term of the Superintendent's Employment Agreement. The Amendment extends the term of Dr. Alvarez' employment from September 23, 2026, through June 30, 2030.

7. All other terms and conditions of the Employment Agreement not modified by this Amendment shall remain in full force and effect, as set forth in the Employment Agreement.
