

SDMC Minutes

9/23/26

BOY testing updates – our students scored in the 80% overall, but it's interesting to note students in 3rd grade scored in the 89% on both the reading and the math BOY assessments. We are supporting teachers by providing higher level materials including Versatiles (at 4th and 5th grade), Marcy Cook math and leveled books for intervention time.

IB

This year is our self study year. 27-28 is our evaluation year. We are working each month to study and revise our policies, update our IB Units and find ways to strengthen our IB Units.

Enrollment

We have less students this year, but we fit the school much better. Class sizes are around 22. This is manageable for teachers and staff.

Specialists

Our new specialist teacher are fitting right into our staff.

Volunteers

We appreciate the many volunteers throughout the school – lunch, library, art a la cart, Fun Run, etc.

We are also very thankful to the families for the work.

We also discussed adding a Magnet Program for Gifted and Talented at Mark Twain since so many of our students are already identified as Gt and our teachers are already ALL trained due to IB.
