

MAPLE VALLEY PUBLIC SCHOOL

Mathematics Instructor

Grades 7–12 | 2027–2028 School Year

Inspire problem-solvers. Build confidence. Help students succeed.

Maple Valley Public School is seeking a dedicated, enthusiastic mathematics instructor to join our grades 7–12 teaching team for the **2027–2028 school year**. We are looking for an educator who makes math engaging, supports students with a range of learning needs, and prepares them for success beyond the classroom.

Attributes we value

- **Strong mathematics knowledge:** Explains concepts clearly and helps students build a solid foundation for advanced learning.
- **Engaging instruction:** Uses varied teaching strategies, meaningful practice, and real-world applications to bring math to life.
- **Commitment to every learner:** Provides support and appropriate challenges so students at all ability levels can grow.
- **Positive classroom leadership:** Establishes clear expectations and creates a respectful environment where students feel comfortable asking questions and learning from mistakes.
- **Effective use of assessment:** Uses student work and assessment results to guide instruction and provide timely feedback.
- **Purposeful technology use:** Incorporates tools that strengthen mathematical understanding and problem-solving.
- **Collaboration and communication:** Works closely with colleagues, families, and support staff to promote student success.
- **Professionalism and growth:** Demonstrates reliability, flexibility, and a commitment to continued learning.

Qualifications

A bachelor's degree in mathematics education or a related field and a valid North Dakota teaching license with the appropriate mathematics endorsement, or eligibility to obtain the required license and endorsement.

Starting Salary is \$44,050 + Depending On Experience + + District Pays both sides of TFFR, Full Single Health, 10 Days Sick Leave, 3 Personal Leave Days.
