College Academy Benefits

- If enrolled in a Wayne College class, students would receive a college ID which gives them access to the resources of an on-campus student (i.e. Learning Center, Library, Computer Labs).
- Textbooks and required learning resources will be provided.
- Classes offered within the College Academy program will meet four days a week. Fridays will be considered off, but will also be used for faculty office hours, remediation/tutoring, labs, internships, and service learning.
- Students enrolled in College Academy will operate on an open campus format (report only for scheduled class time).
- Grades earned in College Academy classes will be calculated on a 5.0 scale.
- A 3 or 4 college credit course will equate to 1 high school credit. 2 college credits = .67 HS and 1 college credit = .33 HS.

Additional Information

- College Credit Plus limits credit hours earned to 30 per year. Wayne College limits credit hours to 16 per semester.
- Student schedules are set in April of the previous school year and changes are not typically permitted. Although the colleges typically have drop deadlines of 1 week after the start of the course, be aware that replacement courses may be very limited.
- Three scenarios would require a student to pay for a course at the pre-determined per credit hour rate: Failure, dropping a course after deadline, or re-taking a course.
- At the end of each semester, any student with a cumulative GPA below 3.0 will not be allowed to continue in the College Academy program.

Rittman High School College Academy

2027-2028

College Academy Goals

The goal of the College Academy program is to provide an on-campus option for students to take a full load of post-secondary courses.

Students could earn between 50-60 college credit hours over the course of two school years. These earned credit hours are transferrable to all public universities in the state of Ohio and some Ohio private institutions. Please refer to www.transferology.com

The courses taken by students count toward their graduation requirements for high school, are calculated in their high school GPA, and earn credits at the college level for post-high school education. The credits earned also afford students the ability to maintain eligibility for extra-curricular activities.

Partnerships have been established with the University of Akron/Wayne College, the University of Findlay and Stark State College.

Course Offerings

English/Communication

- Composition I (3 credits) *English ACT 18*
- Composition II (3 credits)
- Fiction Appreciation (3 credits)
- Intro to Public Speaking (3 credits)

Mathematics

- Algebra for Calculus (4 credits) *Math ACT 21*
