

Hospital School Programs- General

Program Description

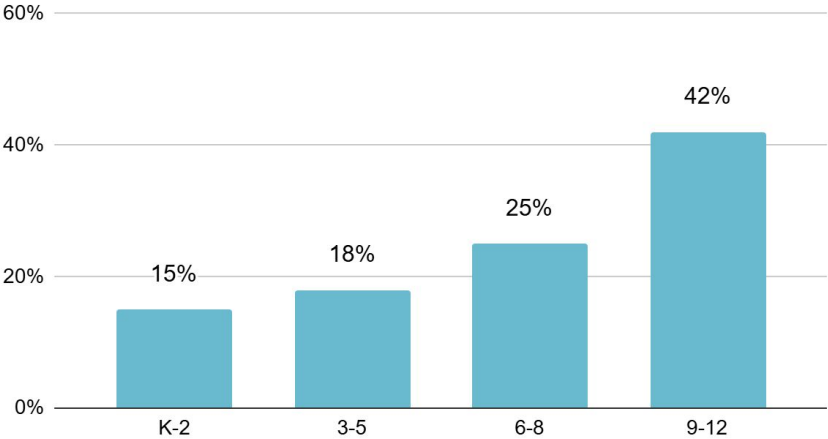

The Hospital School Program provides a flexible and motivational educational experience through instruction and educational support to students up to age 21 with significant, acute medical, rehabilitation or mental health needs during the course of their hospitalization and / or ongoing treatment. The General program includes sites at Doernbecher Children’s Hospital, Randall – Acute Care, Rehabilitation, and Kidney Care, and Shriners Children’s Hospital.

Gender Identity

Performance Measures

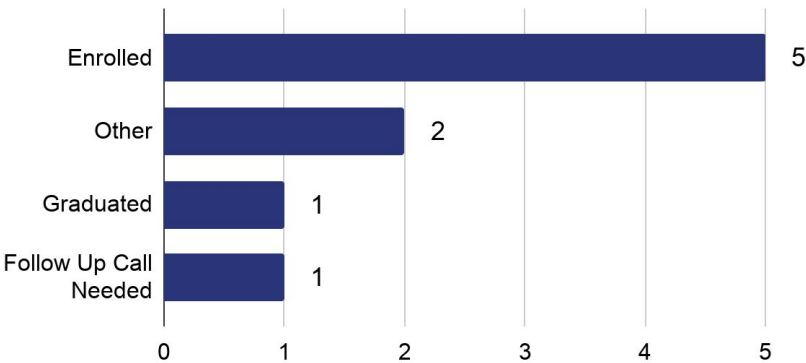

STAR assessments are taken as pre and post at 12-week intervals. Student growth is measured as Grade Equivalent. Students are not typically enrolled in the Hospital School Program long enough to take the test more than once.

STAR Scores	2025-26 SY Intake (GE)	# of Students Assessed
Math: 9-12	*	2
Reading: 9-12	*	1

* <10 students or data unavailable

Transition Team Post-Program Outcomes

During the 25-26 SY, 9 students were referred to an MESD Transition Specialist.

MESD is a nationally accredited educational cooperative that provides programs, services, and academic placement options on a regional basis to school districts in Multnomah County and beyond.
