1. Narrative description of the Proposition 28 arts education programs funded (2500 character limit).

The district will use Proposition 28: Arts and Music in Schools (AMS) funds to expand and strengthen meaningful, equitable access to high-quality arts education for students in elementary and middle schools. The district 's approach is designed to provide students with consistent opportunities to explore visual arts, performing arts, instrumental music, digital media arts, and creative expression while developing student voice, creativity, communication, collaboration, and academic skills.

Across elementary and middle schools, the district will support dedicated Visual and Performing Arts (VAPA) staffing to coordinate and provide instruction in music, theater, visual arts, and other arts disciplines. These investments will prioritize direct student access to arts education while providing educators with the materials, equipment, and instructional resources needed to deliver meaningful arts experiences.

Overall, the district 's Proposition 28 program establishes a continuum of arts education from elementary through middle school. The program combines visual and performing arts, instrumental music, digital media, and creative expression to provide students with opportunities to learn artistic skills, express themselves, communicate through multiple mediums, and share their work. By investing in arts educators, instructional materials, equipment, digital media resources, and sustainable music programs, the district will strengthen access to high-quality arts education and support the development of well-rounded students with creative, artistic, and communication skills.
