Located in southern Westchester County, just 20 miles north of New York City, Eastchester is a close-knit suburban community with a history that predates the founding of the United States of America by more than 100 years. The Eastchester Union Free School District, formally established in the 1890s, serves a diverse community of families from a wide range of cultural backgrounds, standing as the bedrock for a town that is both welcoming to new residents and stands as a testament to the families who have made their homes here for generations.

The district balances rigorous academic coursework with an enduring commitment to relationships, prioritizing student well-being and civic engagement from the earliest grade levels.

Eastchester High School is a four-year comprehensive public high school whose academic standing has earned it recognition from the U.S. Department of Education in recent years. Although the vast majority of graduates pursue four-year college programs, the breadth of Eastchester's instruction prepares students for many types of post-graduate success, including the pursuit of technical degrees and military service. Students have access to an expanding selection of 26 Advanced Placement courses across the disciplines, including the AP Capstone sequence of AP Seminar and AP Research, as well as dual-enrollment courses offered in partnership with colleges and universities. Additional signature experiences include Advanced Science Research, the W.I.S.E. senior internship program, the Seals of Biliteracy and Civic Readiness, and expanded career and technical pathways.

The EHS experience extends well beyond the classroom. With more than 80 extracurricular clubs, service organizations, interscholastic athletics, and performing arts ensembles to join, the school encourages self-exploration and growth, helping students to discover their passions and talents in a welcoming, supportive environment. Community service and experiential learning help students connect academic study to contemporary issues in an increasingly interconnected world. Together, these opportunities prepare Eastchester students to graduate as knowledgeable, reflective, and engaged young adults who are ready to embark on purposeful and varied pursuits after high school.
