A. Training

1. All new school bus drivers shall be provided with pre-service training, including in-vehicle (actual driving) instruction, before transporting students and shall meet the competency testing specified in the Minnesota Department of Public Safety Model School Bus Driver Training Manual. All school bus drivers shall receive in-service training annually. For purposes of this section, "annually" means at least once every 380 days from the initial or previous evaluation and at least once every 380 days from the initial or previous license verification. The school district shall retain on file an annual individual school bus driver "evaluation certification" form for each school district driver as contained in the Model School Bus Driver Training Manual.

[Note: The Model School Bus Driver Training Manual is available online through the Minnesota Department of Public Safety State Patrol web page.]

2. All bus drivers operating a type III vehicle will be provided with annual training and certification as set forth in Subparagraph VII.C.1.b., below, by either the school district or the entity from whom such services are contracted by the school district.

B. Evaluation

School bus drivers with a Class D license will be evaluated annually and all other bus drivers will be assessed periodically for the following competencies:

bus safety laws and the procedures contained in the Minnesota *Model School Bus Driver Training Program*.

3. Only students assigned to the school bus by the school district shall be transported. The number of students or other authorized passengers transported in a school bus shall not be more than the legal capacity for the bus. No person shall be allowed to stand when the bus is in motion.

4. The parent/guardian may designate, pursuant to school district policy, a day care facility, respite care facility, the residence of a relative, or the residence of a person chosen by the parent or guardian as the address of the student for transportation purposes. The address must be in the attendance area of the assigned school and meet all other eligibility requirements.

5. Bus drivers must minimize, to the extent practical, the idling of school bus engines and exposure of children to diesel exhaust fumes.

6. To the extent practical, the school district will designate school bus loading/unloading zones at a sufficient distance from school air-intake systems to avoid diesel fumes from being drawn into the systems.

   [NOTE: A school district is not required to comply with Subparagraph VII.A.6 if the school board determines that alternative locations block traffic, impair student safety, or are not cost effective.]

7. A bus driver may not operate a school bus while communicating over, or otherwise operating, a cellular phone for personal reasons, whether hand-held or hands free, when the vehicle is in motion or a part of traffic.

   For purposes of this paragraph, “school bus” has the meaning given in Minn. Stat. § 169.011, Subd. 71:

   "School bus" means a motor vehicle used to: (1) transport pupils to or from a school defined in Minnesota Statutes, section 120A.22, or to or from school-related activities, by the school or a school district, or by someone under an agreement with the school or a school district; or (2) provide training on the operation of the vehicle for purposes specified in clause (1) to employees of the school, school district, or a person under agreement with the school or school district.

   A school bus does not include a motor vehicle transporting children to or from school for which parents or guardians receive direct compensation

from a school district, a motor coach operating under charter carrier authority, a transit bus providing services as defined in Minnesota Statutes, section 174.22, subdivision 7, or a vehicle otherwise qualifying as a type III vehicle under Minnesota Statutes, section 169.011, subdivision 71, paragraph (h), when the vehicle is properly registered and insured and being driven by an employee or agent of a school district for nonscheduled or nonregular transportation.

. In addition, "school bus" also includes type III vehicles when driven by employees or agents of the school district. "Cellular phone" means a cellular, analog, wireless, or digital telephone capable of sending or receiving telephone or text messages without an access line for service.

B. Type III Vehicles

1. Type III vehicles are restricted to passenger cars, station wagons, vans, and buses having a maximum manufacturer's rated seating capacity of 10 or fewer people including the driver and a gross vehicle weight rating of 10,000 pounds or less. A van or bus converted to a seating capacity of 10 or fewer and placed in service on or after August 1, 1999, must have been originally manufactured to comply with the passenger safety standards.

2. Type III vehicles must be painted a color other than national school bus yellow.

3. Type III vehicles shall be state inspected in accordance with legal requirements.

4. Vehicles model year 2007 or older must not be used as type III vehicles to transport school children, except those vehicles that are manufactured to meet the structural requirements of federal motor vehicle safety standard 222, Code of Federal Regulations, title 49, part 571.

5. If a type III vehicle is school district owned, the school district name will be clearly marked on the side of the vehicle. The type III vehicle must not have the words "school bus" in any location on the exterior of the vehicle or in any interior location visible to a motorist.

If the driver escorts the student across the road, then the motor must be stopped, the ignition key removed, the brakes set, and the vehicle otherwise rendered immobile.

10. Any type III vehicle used to transport students must carry emergency equipment including:

    a. Fire extinguisher. A minimum of one 10BC rated dry chemical type fire extinguisher is required. The extinguisher must be mounted in a bracket, and must be located in the driver's compartment and be readily accessible to the driver and passengers. A pressure indicator is required and must be easily read without removing the extinguisher from its mounted position.

11. Students will not be regularly transported in private vehicles that are not state inspected as type III vehicles. Only emergency, unscheduled transportation may be conducted in vehicles with a seating capacity of 10 or fewer without meeting the requirements for a type III vehicle. Also, parents may use a private vehicle to transport their own children under a

contract with the district. The school district has no system of inspection for private vehicles.

12. All drivers of type III vehicles will be licensed drivers and will be familiar with the use of required emergency equipment. The school district will not knowingly allow a person to operate a type III vehicle if the person has been convicted of an offense that disqualifies the person from operating a school bus.

13. Type III vehicles will be equipped with child passenger restraints, and child passenger restraints will be utilized to the extent required by law.
