

Responsible and Ethical Use of Artificial Intelligence

Guidelines for Use of AI At School

STOP- Avoid These Behaviors

- Using AI-Generated content verbatim without proper citation or presenting AI-Generated work as your own is unethical and plagiarism.
- Creating assignments, essays, or projects without any personal input or understanding is considered academic dishonesty.
- Using generative AI to complete tasks that are beyond your understanding and presenting the results as your own.
- Asking AI to source references and not checking the validity of the information and relevance.
- Using an AI Bot to complete work for you.
- ***Classroom Agreements:***

Proceed with Caution

- Verify AI-generated ideas for accuracy and relevance.
- Use AI to help find sources and check reliability and validity.
- Use AI outputs as a starting point, then revise and expand with your own thinking.
- Use AI only when allowed for the assignment.
- ***Classroom Agreements:***

GO- Responsible Use of AI

- Ask AI to act as a coach or tutor to help you learn and understand new ideas and concepts.
- Simplifying complex concepts, help with correct referencing and in-text citation advise.
- AI as tutor: Creating flashcards, revision activities, analytical tools, to help better understand and recall.
- Stimulating creative thinking and ideas as a starting point.
- Asking AI to provide instant feedback on work to improve quality before submission.
- ***Classroom Agreements:***
