Find out more about the Kindergarten experience!

At St. Louis Park Public Schools, we create a supportive, engaging environment where students become their best selves. We listen and see value in each of our students. They grow as racially conscious, globally minded people. We believe in creating a better world by inspiring all students to reach their full potential. When students feel heard, seen and valued, they can do their very best work.

That is what we hope to do for your kindergartener, and we want you and your student to feel prepared for the next chapter. Find out about our school community where you will have an opportunity to meet principals, discover community resources, and learn more about our incredible school district.

We empower students to become **thoughtful, principled, and well-rounded individuals**, ready to take risks, communicate effectively, and embrace lifelong learning!
