A MESSAGE FROM OUR **SUPERINTENDENT**

Welcome to the first-ever Groveport Madison Schools Quality Profile!

This profile allows us to share the many ways our district is preparing students for success while celebrating the strengths of our schools and community. It reflects our commitment to providing every Cruiser with the opportunities, support, and experiences they need to thrive.

We remain focused on strong academics, with an emphasis on literacy, mathematics, and preparing students for life after graduation—whether that means college, career, or the military. Our Portrait of a Cruiser serves as a guiding vision for the skills and attributes we want all of our students to develop. By encouraging them to be coachable, collaborative, communicative, critical thinkers, and goal-oriented, we are equipping them with qualities that will last a lifetime.

Our students also benefit from a wide range of opportunities beyond the classroom. From advanced coursework and career-technical programs to thriving arts, music, and athletic programs, Cruisers have the chance to explore their interests and grow their talents. At the same time, we continue to prioritize safety, investing in additional security measures, technology, and student support services to ensure our schools remain safe and welcoming places to learn.

These efforts are strengthened by the strong partnerships we share with families, local organizations, and businesses across the community. Together, we are creating opportunities and providing valuable resources that extend far beyond what we could accomplish alone.

While challenges remain, our dedication to our students is clear and unwavering. We are proud of the progress we have made, inspired by the potential of our students, and grateful for the trust and support of our community.

Thank you for being an essential part of the Groveport Madison Schools family. Together, we are building a future filled with promise and opportunity for every Cruiser.

With appreciation,

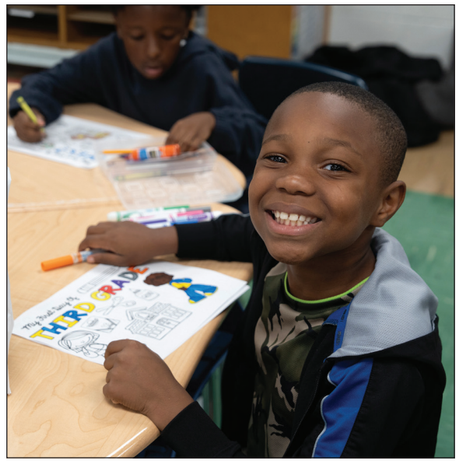

Jamie Grube

ACADEMIC **ACHIEVEMENT**

PORTRAIT OF A CRUISER

At Groveport Madison Schools, our *Portrait of a Cruiser* serves as a shared vision for the knowledge, skills, and character traits every student should develop from kindergarten through graduation. More than just academic benchmarks, the Portrait describes the qualities that prepare students to thrive in life after high school as engaged citizens. It highlights key competencies such as critical thinking, effective communication, collaboration, adaptability, creativity, and responsible decision-making.

The Portrait is woven into classroom lessons, extracurricular programs, and community partnerships across the district. Teachers and staff use it as a guide to design learning experiences that challenge students to solve problems, work together, and lead with integrity. Whether they are mastering rigorous coursework, serving their community, or exploring future careers, our Cruisers are building the habits and skills that will support them long after graduation — living out what it truly means to be a Cruiser.

SPECIAL EDUCATION

Groveport Madison Schools provides a full range of special education services for students with disabilities, ages 3–22. Depending on individual needs, students may receive support through inclusion programs, specialized classrooms, or services provided in partnership with programs across Central Ohio.

The district follows all state and federal guidelines, beginning with thorough evaluations to identify each child's needs and determines the most effective support plan with parents.

Services may include speech, occupational, and physical therapy; specialized instruction; behavioral supports; vision and hearing services; special needs preschool; and transition programs for older students.

With a commitment to individualized support, Groveport Madison ensures every student has access to the tools and opportunities needed to succeed.

CAREER & TECHNICAL PATHWAYS

Preparing students for success after graduation begins long before a student's senior year.

Groveport Madison Schools offers Career & Technical Pathways that help students explore their interests while developing the academic, technical, and professional skills needed for college and today's workforce.

With pathways in areas such as Information Technology, Construction Technology, Health Sciences, Interactive Media, and Business and Administrative Services, students gain hands-on learning experiences that connect classroom instruction to real world careers. Students who complete a pathway also have the opportunity to earn the OhioMeansJobs Readiness Seal, recognizing the professional skills and experiences valued by employers.

CLASS OF 2026 BY THE NUMBERS

The Groveport Madison High School's senior class of 2026 was comprised of 245 females and 268 males.

GMHS proudly celebrated 505 graduates out of 513 students, reflecting an exceptional graduation rate of 98.4%

Over one third of the graduating class (185 students) requested final transcripts to persue studies at two- and four-year colleges and universities.

Eight graduates earned Military Enlistment Seals and are continuing their service in the U.S. Armed Forces.

Academic achievement remained a strong focus with 95 (18.8%) of graduates completing Advanced Placement courses.

College Credit Plus classes through Columbus State Community College, saved 212 (41.9%) graduates time and money on college credits.

ACADEMIC **ACHIEVEMENT**

DISTRICT RECOGNIZED WITH MOMENTUM AWARD

There's a lot to be proud of across Groveport Madison Schools right now.

Our district has been recognized with the Momentum Award from the Ohio Department of Education and Workforce, an honor that highlights real, measurable improvement in student learning and growth. In fact, we were the only district in our region to win the award. This isn't just about one good year, it's about building momentum and continuing to move our students forward.

To earn this award, districts must increase their Performance Index by three or more points from last year and earn a 4-star or higher Progress rating. In simple terms, that means our students are not only performing better on state assessments, but they're also showing strong academic growth year after year.

"There is so much to celebrate here because this truly represents what we can accomplish when we work together," said Superintendent Jamie Grube. "It makes me proud to know that it takes everyone pulling in the same direction to create this kind of growth for our students, and this recognition shows what's possible when we do just that."

Even more exciting, Middle School Central also earned the Momentum Award at the building level. This is in recognition of the outstanding work happening inside their classrooms each day.

For our families, this is what matters most: students are improving. No matter where they start, they are learning, growing, and making progress in our classrooms. That's a direct reflection of the hard work happening every day between our students and staff.

This recognition belongs to all of our teachers, support staff, students, and families. It's something to celebrate and something to build on as we keep pushing forward together. Let's keep it going, Cruisers!

MODEL UNITED NATIONS TEAM EARNS TOP 10 RESOLUTION

Groveport Madison High School's Ohio Model United Nations (OMUN) team continues to make their mark at the state level through academic excellence, leadership, and global awareness. At this year's statewide conference, GMHS students, representing the nation of Kosovo, earned a Top 10 resolution in Ohio. This is an outstanding achievement that reflects their ability to research complex global issues, collaborate effectively, and develop well-crafted solutions.

In addition to this team success, two students achieved historic individual honors. One student was recognized as the winner of a statewide citizenship contest, highlighting their character and commitment to the values of diplomacy and service. Another student was elected to serve as a council president for the 2026–2027 conference, an honor that demonstrates peer respect and exceptional leadership ability. These accomplishments mark significant milestones for the GMHS OMUN program.

Throughout the three-day conference held in downtown Columbus, our Cruisers demonstrated high-level skills in communication, critical thinking, collaboration, and public speaking. They engaged in meaningful dialogue with peers in school districts from across the state, defended their positions, and worked collectively to address global challenges.

Under the guidance of their advisor, Mr. Mertz, the GMHS OMUN team continues to provide students with authentic, real-world learning experiences that prepare them for success beyond the classroom. This year's performance reflects not only academic achievement, but also the district's commitment to developing informed and engaged global citizens.

ACADEMIC **ACHIEVEMENT**

STUDENTS NOW USING SCHOOLINKS

Our district is proud to partner with SchooLinks, a modern college and career readiness platform designed to help students confidently explore their futures. Through SchooLinks, students can discover career pathways, research colleges, and access scholarship opportunities—all in one intuitive space. The platform offers personalized assessments, goal-setting tools, and real-time tracking of student interests and progress, giving counselors and educators a clear view of each student's journey.

Parents also play a vital role in this process. SchooLinks includes a dedicated Family Engagement portal that allows parents to stay informed, explore their child's post-secondary plans, and communicate directly with counselors. By bridging the gap between education and the workforce, SchooLinks helps students connect with industry partners, alumni, and real-world experiences like internships and mentorships. It's more than a planning tool—it's a launchpad for lifelong success.

SAFETY & **SECURITY**

The safety of our students and staff is always our highest priority, and we have taken several important steps to strengthen security across the district. Following the strategies outlined in our District Safety Plan, we have invested in advanced technologies and strong partnerships to create safe, welcoming school environments.

At Groveport Madison High School, as well as at the new Cruiser Accel location, we utilize state-of-the-art weapons detection systems from evolv®. These systems provide an added layer of protection by allowing us to quickly and efficiently screen for potential threats while ensuring that students and visitors can move safely and smoothly into our buildings.

Over the last couple years, we have also enhanced our visitor management process. All schools use the SCHOOL SAFE ID system, which requires visitors to scan their driver's license or state-issued ID upon entry. In seconds, the system completes a background check and issues a visitor badge, ensuring that only approved guests can access to the building.

Equally important is the presence of our School Resource Officers. We are fortunate to have four dedicated officers—two from Madison Township and two from the City of Groveport—who work daily in our schools. Beyond their role as law enforcement, these officers serve as mentors and educators, fostering positive relationships with students while promoting a safe and supportive learning environment.

Through these measures, the district continues to make safety a top priority, giving families confidence that students are learning in a secure, well-protected setting daily.

ENHANCING SAFETY THROUGH FOCUSED LEARNING ENVIRONMENTS

Our recently updated No Cell Phone policy reflects the district's ongoing commitment to providing safe, focused, and supportive learning environments for all students. By limiting cell phone use during the school day, our schools have reduced distractions and increased student engagement, allowing staff to more effectively monitor hallways, classrooms, and common areas.

The policy has also strengthened safety by improving communication and response during the school day. With fewer distractions, students are more attentive to their surroundings and more likely to report concerns to trusted adults. Staff members report smoother transitions, calmer school climates, and stronger face-to-face connections with students.

Overall, the updated No Cell Phone policy has helped create schools that are not only more focused on learning, but also safer, more connected, and better equipped to support the well-being of every student.

WHOLE CHILD **FOCUS**

STUDENT AND FAMILY SUPPORTS

Groveport Madison Schools is committed to impactful community engagement that provides a variety of resources to meet student and family needs. Accessible supports include school-based mental health services, counseling, and social-emotional learning programs to help students manage challenges and thrive. Families also have access to community partnerships that connect them with essential resources, such as food, clothing, and housing assistance.

Additionally, the district offers academic interventions, after-school programs, and family engagement opportunities designed to strengthen the home-school connection. These supports ensure that every student has the foundation they need to succeed both in and out of the classroom.

STUDENT LEADERSHIP AND EXTRACURRICULAR ACTIVITIES

At Groveport Madison High School, students have the opportunity to explore their passions and discover new interests through more than 20 clubs and organizations. These groups provide opportunities for Cruisers to connect with classmates, develop leadership skills, and make lasting memories outside of the classroom.

From academic and service-based groups like National Honor Society, Student Council, and Ohio Model UN, to creative outlets such as Yearbook and the Cruiser Theatre Company, and even hands-on activities like Garden Club and Chess Club, there truly is something for everyone.

Whether a student is looking to lead, perform, create, or simply try something new, Groveport Madison offers a place for every Cruiser to shine.

SUPPORTING THE WHOLE CHILD: SCHOOL SOCIAL WORKER SERVICES

Our school social workers play a vital role in supporting students' emotional, social, and behavioral well-being. They connect families with critical resources, provide direct intervention and prevention services, and collaborate with community partners to ensure every child has the opportunity to learn and thrive. Through their efforts, students receive compassionate care and families gain access to valuable supports that address both immediate and long-term needs.

Some of the programs and services coordinated or supported by our social workers include:

- School-based therapy and mental health prevention with Concord Counseling
- Peer conflict resolution mediations
- Risk assessment and safety planning
- Signs of Suicide (SOS) in partnership with Nationwide Children's Hospital (NCH)
- Green Flags (Healthy Relationships Presentations) with NCH
- Grief support through partnerships with OhioHealth
- Small group sessions focused on social-emotional learning (SEL) topics such as anxiety, stress, anger, depression, and self-esteem
- Needs assessments to identify barriers and connect students and their families to appropriate supports
- In-school counseling provided by the National Youth Advocate Program for students experiencing mental health concerns
- Assistance through GM Human Needs, offering essential items and financial relief for families facing hardship
- United Way, providing access to multiple resources and supports for families in need

A true example of our social workers' skills in action is shown at Middle School Central, where the SMART Lab gives students a safe space to pause, regroup, and build essential life skills. Led by school social worker Justin Cygnor, MSW, LSW, and school counselor Michael Coleman, the lab helps students manage stress, strengthen self-control, and develop strategies for emotional regulation through mindfulness, breathing exercises, and positive connection activities. The SMART Lab empowers students to take charge of their well-being and supports the district's commitment to nurturing the whole child.

Our social workers' commitment to our students and families strengthens the foundation of academic success across the district.

THE ROLE OF SCHOOL COUNSELORS

Our district counselors are crucial in supporting the academic, social, and emotional growth of every student. They serve as advocates and mentors while strengthening partnerships between families, schools, and the Groveport Madison community.

Counselors lead programs that build empathy and leadership such as Peace Day, ROX (Ruling Our Experiences), Sandy Hook Promise, and the Emotional Intelligence Group with Concord Counseling. They also support engaging traditions like Spirit Weeks, COSI Science Night, and the Fall Festival that foster pride and community.

Our high school counselors guide students through academic planning, college and career readiness, and scholarship opportunities, ensuring every graduate is prepared for their future.

Through partnerships with organizations like Groveport Madison Human Needs, counselors link families to essential supports like Adopt-A-Family and the Free Coat Giveaway.

Counselors encourage kindness and citizenship through initiatives like Bully Prevention Week, Penny Wars, and the Holiday Shop, inspiring students to support one another and give back.

Through their hard work and tireless efforts, our counselors ensure every Cruiser feels valued and supported!

CRUISER
PRIDE

ARTS & **ATHLETICS**

At Groveport Madison Schools, arts and athletics play a vital role in developing well-rounded students while strengthening school pride and community connection. From the stage to the court, students are encouraged to explore their talents, build confidence, and learn the value of creativity, teamwork, and perseverance.

Our arts programs continue to thrive, offering students opportunities in visual arts, music, theater, and performance. The annual District Art Show at our State of the Schools Celebration event is a traditional show-stopper as it features our very best in visual and digital arts. The band and choir programs at the middle and high school levels provide students with opportunities to develop musical skill, discipline, and confidence while fostering creativity, self-expression, and a strong sense of belonging. The Cruiser Theatre Company at GMHS provides students with hands-on experience in every aspect of theatre production, on stage, and behind the scenes. In addition, participation in the arts at Groveport Madison Schools reinforce skills such as critical thinking and communication that support success in the classroom and beyond.

Athletics remain a powerful source of unity and achievement across Groveport Madison Schools. At the middle and high school levels, we had well over 1,100 athletes participate on 44 teams across the district. Their success reflects countless hours of hard work, strong leadership from coaches, and support from families, staff, and the community.

As a district, we will continue to celebrate student achievement as we strengthen traditions and inspire future generations to pursue excellence in every arena.

DID YOU KNOW?

We had 659 students participate in performing arts programs, including sixth- through twelfth-grade band, choir, and drama.

ESPORTS OFFERS STUDENTS EXCITING OPPORTUNITIES

The Groveport Madison High School's Esports program reached an exciting milestone during the 2025–2026 school year, earning the OHSAA-sanctioned state championship in Fortnite. This marks the first regional and state title in esports competition for the district.

Esports continues to grow in popularity and is now recognized as an official sport by the Ohio High School Athletic Association (OHSAA), with Groveport Madison competing among approximately 150 schools across the state. After winning the Central Southeast Regional at Ohio University, the team advanced to the state tournament and secured a decisive victory by winning all rounds of competition.

The program continues to create opportunities for students both during and beyond high school. Participation in esports has already led to scholarship opportunities, highlighting the growing role of esports in college and career pathways.

This championship win reflects the continued growth of Groveport Madison's arts and athletics programs and the district's commitment to offering engaging opportunities that help students connect, compete, and succeed.

COMMUNITY **ENGAGEMENT**

Groveport Madison Schools believes that strong schools are built through strong community connections. By working closely with families, local organizations, and community members, the district maintains an open line of communication and a shared commitment to supporting students both inside and outside the classroom.

Opportunities like Java with Jamie provide a welcoming space for parents and community members to connect directly with district leadership, ask questions, and share ideas.

In addition, Safety Committee Meetings and Parent Advisory Committee Meetings give families and community stakeholders a voice in district decisions, particularly in areas related to school safety. These forums strengthen transparency, trust, and collaboration while ensuring community input helps guide district priorities.

The district also values connections that span generations. Golden Cruisers luncheons celebrate and engage senior community members, recognizing their lasting support while fostering strong relationships across age groups. Groveport Madison Schools is equally proud to partner with organizations such as Groveport Madison Human Needs to support families facing challenges. Initiatives like Bonzy Coat Day help ensure students have access to warm clothing during the winter months, reinforcing the importance of meeting basic needs so students can remain focused on learning.

By working together, maintaining open communication, and supporting one another, Groveport Madison Schools and the community create a solid foundation for student success. These partnerships reflect the district's commitment to caring for the whole child and ensuring every student feels supported and valued.

STUDENTS AND THE COMMUNITY

Community partnerships come to life through hands-on learning at Groveport Madison High School. Students in the Construction Technology program partnered with the City of Groveport to design and build a new shelter house at Cruiser Park, giving students the opportunity to apply their classroom learning to a real project that will serve families for years to come. Throughout the process, students gained valuable experience working through every stage of construction, from planning and permitting to building and inspections, while collaborating with city leaders and industry professionals. The project is a great example of how Groveport Madison Schools and our community work together to create meaningful learning experiences that leave a lasting impact, both for our students and for the community they call home.

DID YOU KNOW?

Of the 49 seniors in the Construction Trades Program, 33 students were hired into construction jobs immediately after graduating!

"Groveport Madison Human Needs began in 2008, inspired by what we learned through our Adopt-A-Family program during the Christmas holiday. Together with Groveport Madison Schools, we built something bigger — a year-round lifeline for families and neighbors facing crisis. Eighteen years later, that partnership is still changing lives, and we're deeply grateful.

~ Debbie Miller, Director of Groveport Madison Human Needs

FISCAL **RESPONSIBILITY**

Groveport Madison Schools remains committed to responsible financial management and the careful stewardship of taxpayer dollars. Through thoughtful planning, cost-saving measures, and collaboration across all departments, the district has worked to maintain financial stability while continuing to support student learning.

Despite these efforts, the district is facing a significant financial challenge due to changes in the state funding formula. Recent adjustments at the state level have resulted in a substantial reduction in funding for Groveport Madison Schools. This decline is not the result of local financial decisions, but rather a shift in how state resources are allocated to all school districts across Ohio.

In response, the district has taken proactive steps not only to manage expenses but also to maximize revenue opportunities. Since 2023, Groveport Madison Schools has completed two bond interest rate swaps, which are expected to generate approximately $725,000 in additional interest earnings over the next five years.

As a result of these combined factors, the district is experiencing a decrease in overall revenue that will grow over time and require continued careful planning. Our district remains focused on strategic decision-making and efficient use of resources. Measures like these will be necessary to maintain high-quality educational opportunities for our students.

These efforts reflect our district's ongoing commitment to fiscal responsibility and demonstrate how collaboration and proactive planning can lead to measurable results.

> ***"This is not a story about local overspending. It's a story about the state collecting less from businesses and income taxes while asking local property taxpayers to make up the difference.***
>
> ***~ Adam Collier, Treasurer***

FAIR SCHOOL FUNDING PLAN

Ohio changed how it funds public schools in 2021 through the Fair School Funding Plan. This formula was designed to better reflect the real cost of educating students by considering factors like enrollment, student needs, transportation, and the community's ability to contribute. The goal was to create a more fair and predictable system and reduce reliance on local property taxes.

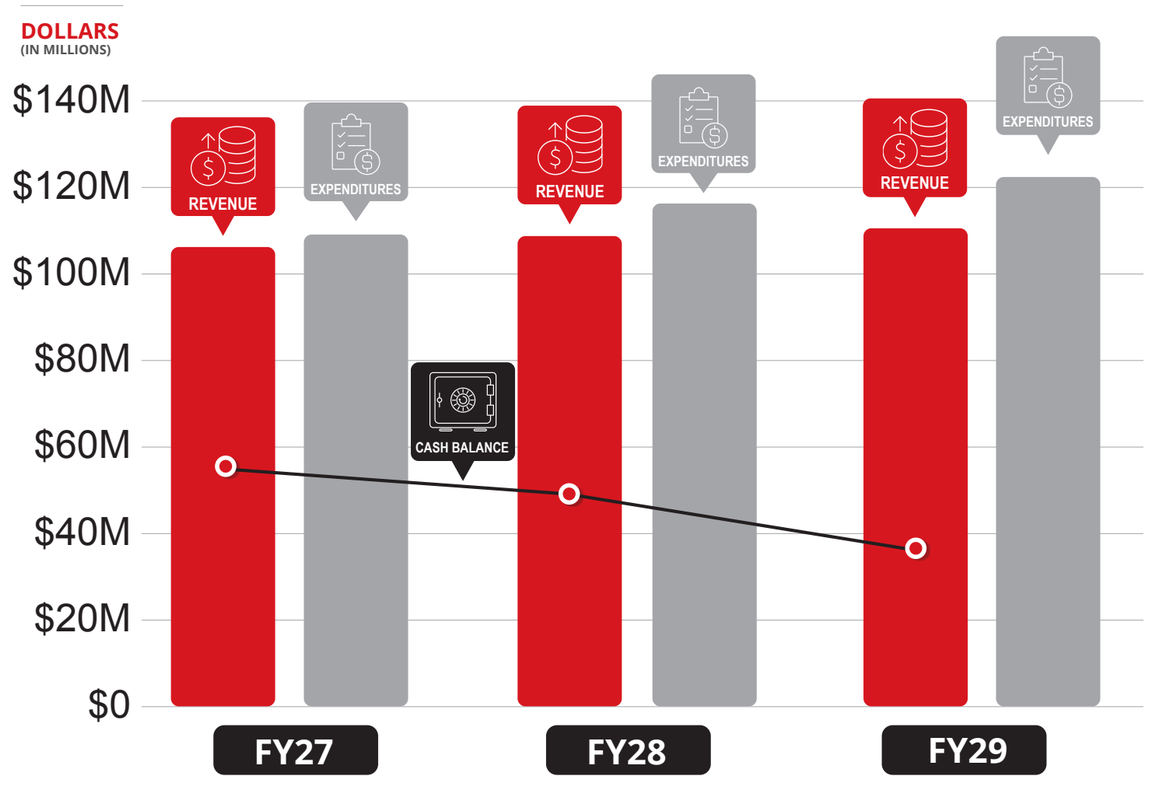

While this was a positive step, the formula has not been fully implemented as originally intended in recent state budgets. Instead, funding decisions have been adjusted based on available state resources rather than strictly following the cost-based model.

For Groveport Madison Schools, this creates uncertainty in long-term financial planning. It also increases the likelihood that we will need to rely more heavily on local funding to maintain programs, services, and opportunities for our students. We will continue to advocate for a funding system that fully supports the needs of our students and community.

3-YEAR FINANCIAL OUTLOOK

REVENUE, EXPENDITURES, & CASH BALANCE

FISCAL YEARS 2027-2029

REVENUE		EXPENDITURES		CASH BALANCE	
$106,766,280	FY27	$109,177,679	FY27	$56,727,003	FY27

DID YOU KNOW?

Reductions in state school funding are impacting K-12 schools throughout Ohio. Check out the stats below.

STATE DOLLARS PER STUDENT

NATIONAL AVERAGE	OHIO
$9,077	$6,405

NEARLY 30% BELOW AVERAGE

OHIO ONCE COVERED 42% OF SCHOOL COSTS

TODAY, IT COVERS JUST **32%**

FINANCIAL CHALLENGES AFFECTING OHIO SCHOOL DISTRICTS

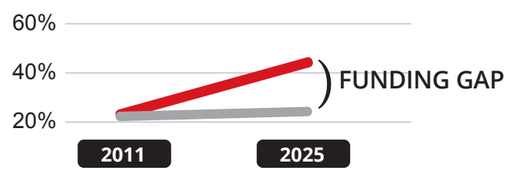

Like school districts across Ohio, Groveport Madison Schools continues to face growing financial challenges as state funding has not kept pace with the rising cost of educating students.

While inflation has increased the cost of transportation, utilities, special education services, instructional materials, and employee wages, the state's share of funding for public education has steadily declined, placing a greater financial responsibility on local communities like ours. Across Ohio, more of the cost of operating public schools has shifted to local property taxpayers, creating additional pressure on school districts to do more with fewer state resources.

Despite these challenges, Groveport Madison Schools remains committed to being responsible stewards of taxpayer dollars while continuing to provide high quality educational opportunities for every student.

SCHOOL FUNDING SHIFT

State funding has not kept pace with school costs. State K-12 funding has grown 23% since 2011, while school costs have increased by 44%.

STAFF & **LEADERSHIP**

Groveport Madison Schools is proud of the strong staff and leadership team that supports students every day through relationships and a shared commitment to continuous improvement. Across classrooms, offices, and support services, employees work together to create safe, welcoming schools where students can grow academically, socially, and emotionally.

A key strength of the district is its Professional Learning Community (PLC) framework, which provides teams dedicated time to collaborate, analyze student data, and refine instruction so that learning remains focused and responsive. Groveport Madison Schools also prioritizes ongoing professional development, ensuring staff have the training and support needed to grow as educators and leaders.

This work is aligned to the district's Portrait of a Cruiser, which defines the skills and attributes Groveport Madison graduates should demonstrate such as resilience, responsibility, communication, and readiness for future success. Staff and leadership use this shared vision to guide instruction and district decision-making.

Together, Groveport Madison Schools continues to move forward with a purpose that is supported by committed staff, strong leadership, and a vision centered on student achievement and success.

"Our progress is driven by the dedication of our staff and the relationships they build with students every day. When we invest in our people, we strengthen opportunities for every child.

~ Jamie Grube, Superintendent

INVESTING IN OUR PEOPLE

As Groveport Madison Schools builds on the successes of the 2025-2026 school year, the district will continue investing in our greatest resource ... our people. To kick off the 2026-2027 school year, Groveport Madison Schools will host its inaugural Professional Learning Communities (PLC) Summit in partnership with Solution Tree. The two-day event will bring together nationally recognized educational experts to provide teachers and school leaders with impactful professional learning focused on collaboration, effective instructional practices, and student achievement. By investing in our educators, we are investing in the success of every student we serve.
