Title 1

26-27 DFES Title 1 Funding Narrative

26-27 Funding Allocations are awaiting approval from the State Department and are subject to change.

Student Support Interventionists – 2 Full Time Employees (Returning Positions)-

DFES will utilize certified teachers to support ELA and/or Math instruction as a Tier 2 and Tier 3 support of students in need based on ongoing MAP Data and end of year SC Ready score reports. Groups will be flexible to meet the instructional needs of students in grade K-5. All interventions are held during the school day as a pull out program.

Math Tutors - 4 Part-Time Employees-

Using Spring 25 and Fall 25 MAP Scores, students projected as “Approaching” and/or “Not Met” in math will be identified for tutoring. Tutoring Sessions will take place during the school days: Monday, Wednesday and Thursday (September 2025 - May 2026). There will be three tutors to serve students in grades kindergarten through fifth grade, the ratio of students would be 5-6 students per group.

Field Trips -

Part of our desire at DFES is to provide learning experiences for our students that may never have had these opportunities. We are an environmental science magnet, and we believe students learn through curiosity and inquiry. In order to provide equitable learning experiences for all students, we would like to cover the costs of grade level in-house and out-of-house field trips for students. Each grade level will go on three field trips, throughout the 25-26 school year.

School Supplies -

All school supplies were purchased for every student in the 25-26 school year. We have allocated additional funds to continue this for the remainder of the school year, and plan to do so for the future. This removes expenses from parents on annual school supply lists and provides equity among students in access to school supplies needed in the classroom.

Instructional Supplies -

Increase libraries for teachers to build on our new ELA SAVVAS Curriculum; purchase supplemental materials.

Parent Supplies & Food -

Provide food for family engagement events, and supplies for families to take home to continue learning from home.
