******The Registration/Approval Process is a two step process:******

Step 1 Registration - A parent needs to register the student through FamilyID and receive confirmation that the registration has been completed.
Step 2 Approval - The parent who registers the child needs to monitor their email (and spam folder) for an Approved or Not Approved response from the nurse. If a student is approved, no further action is required. If a student is Not Approved, the parent needs to make the necessary corrections that will be identified in the email. The email comes through FamilyId and not the nurse's email.

Important Information

- The email address used for registration must be an email address that is checked daily.
- Parents are strongly encouraged to begin the registration process on October 12, 2026.
- Registration needs to be done on a computer, not a cell phone.
