Unique Programmes

Our unique programs are designed to activate student agency and give students the tools to be responsible global citizens who positively impact the community and our world.

- **Immersive Learning:** With our central London location, students regularly take learning outside of the walls of our school, using the city as our classroom. Students engage in authentic learning including staging plays in local theatres, mounting their artwork in professional galleries and engaging in service projects that positively impact the local community
- **1:1 Coaching:** Our teachers are trained cognitive coaches who guide students towards metacognitive awareness, independent thinking, and a deeper capacity for self-directed learning and growth.
- **Restorative Justice:** Our restorative justice program teaches students accountability, empathy, and conflict resolution skills. This approach develops students' critical thinking, communication, ethical reasoning and social emotional awareness.
