**Pascack Hills High School, Montvale, New Jersey
Pascack Valley High School, Hillsdale, New Jersey**

Course Name: World History

Born on: August, 2020
Current Revision: July, 2026
Board Approval: 8/24/2026

Course Description: World History

The objectives of the College Preparatory World History program focus on the analysis, synthesis, and evaluation of historical evidence. Students are expected to engage actively, think critically, and develop as self-directed learners. Students will strengthen their ability to research, write, speak, and present evidence-based interpretations of the past.

This course provides grade-appropriate college-preparatory rigor through challenging reading, writing, research, discussion, projects, and independent work. Students will build the historical knowledge and disciplinary skills needed for continued success in high school social studies and future academic study.

Course Overview:

Throughout this full-year course, students will examine political, economic, cultural, social, and technological developments across Europe, East Asia, the Middle East, Africa, and the Americas through a sequence of units of study. The course supports inquiry-based learning and prepares students to become active, informed, and contributing members of local, state, national, and global communities. Class time includes teacher-guided instruction, discussion, collaborative learning, problem solving, writing, creative projects, and connections to current events. Emphasis is placed on organization, study skills, time management, research, and public speaking.

Student Outcomes:

Helping students develop and effectively use a wide variety of skills is a central purpose of social studies. These skills are central to one's learning throughout life. A command of these tools will be of assistance to students in understanding their society and in becoming productive members of local, national, and global communities.

Students will be able to:

- Show mastery of historical vocabulary
- Present a viewpoint in writing and speech
- Use technology to complete research and projects
- Complete a technology-based project and oral presentation
- Locate, organize and evaluate information
- Acquire information through reading, listening and observing
- Interact with others, develop problem solving strategies
- Apply conflict resolution skills
- Distinguish between verifiable and unverifiable data
- Identify central issues
- Orient a map
- Identify and locate physical and political features on maps, globes, photos
- Understand and explain geographic settings of historical and current events
- Evaluate influence of geography upon history and culture
- Recognize cartoons as a means of expressing viewpoints

- Relate information obtained from pictures, charts and graphs to that gained from other sources
- Use the vocabulary of time concepts (decade, score, generation, century, era)
- Understand timelines

Interdisciplinary Connections

Teachers will combine, integrate and infuse disciplines as needed. ELA reading, writing, speaking and listening assignments are infused throughout the curriculum to develop basic reading and comprehension skills. Other suggestions for interdisciplinary connections:

- Career Transition
- Mathematics and Business can be combined with economic units
- Science can be combined with discussion of climate change
- Art, music and literature will be called upon to supplement what is learned in history and develop cross curricular development
- The teacher will collaborate with the library media specialist on various research units.

Accommodations and Modifications: Each unit has examples of possible accommodations/modifications. Charts of accommodations/modifications are found at the end of the document.

Amistad/Holocaust/LGBTQ+/Climate Change/AAPI/DEI Connections**Amistad Connection:**

Students will learn about the Trans-Atlantic Trade Routes with a focus on the Middle Passage, the history of the African kingdoms, the treatment and labor practices of Africans in the New World, and successful abolitionist movements and revolutions. These topics give special importance to the history of Africans and African Americans in our world history.

Holocaust Connections:

Students will learn about the Armenian Genocide and the Holocaust as ways to highlight Holocaust and Genocide studies in the World History curriculum. Students also apply the information learned to the continuation of future genocides that occur in the second half of the 20th century, and continue to today.

LGBTQ+/Disabilities:

Students will study the contributions of members of the LGBT+ and disabled communities in world history. Significant contributors include Lili Elbe, a famous Danish artist who was one of the first people to attempt gender reassignment surgery, Alan Turing, who invented the modern computer during WWII, and Josef Kohout, one of the only gay survivors to share his Holocaust story. Students will also look at the activism within the LGBTQ+ community on a global scale.

Climate Change:

Students will study the impact of humans on the environment and the environment on humans. Students will analyze the environmental impact of the Columbian Exchange, its impact on populations and on ecosystems. Significant areas of interest will be on the industrial age and the pollution

that was caused by the new factory system as worlds went from agrarian to industrial and from rural to urban. Students will study how immigration patterns have been altered by changes in climate and the environment.

Asian American and Pacific Islander Connections:

Students will connect global history to the migration, diaspora, and contributions of Asian American and Pacific Islander communities in New Jersey and the United States. Connections may include Chinese and Japanese immigration, Filipino and Pacific Islander experiences under imperialism, Asian and Pacific Islander military service and incarceration during World War II, post-1965 migration, and the political, economic, social, and cultural contributions of AAPI individuals and communities.

DEI: Diversity, Equity, and Inclusion (DEI): Diversity is the presence of differences that may include race, gender, religion, sexual orientation, ethnicity, nationality, socioeconomic status, language, (dis)ability, age, religious commitment, and/or political perspective. Populations that have been, and remain, underrepresented among practitioners in the field and marginalized in the broader society. For example: DEI aspects will start with the review introduction unit when reviewing Europe's dark ages, but simultaneously the golden ages of the Middle East and China, the Aztec experience during the First Age of Global Encounters, and the Latin American lens in the Attempting a New World Order unit. Equity is promoting justice, impartiality and fairness within the procedures, processes, and distribution of resources by institutions or systems. Inclusion is an outcome to ensure those that are diverse actually feel and/or are welcomed. To that end, this can be achieved through consideration of diverse histories, experiences and perspectives that promote the dignity and respect of all individuals. This can be seen through the lenses of the Amistad Connection, Holocaust Connections, and LGBT/Disabilities as well as other underrepresented groups in our nation's history. These resources and experiences are listed throughout this curriculum.

6.2 World History/Global Studies All students will acquire the knowledge and skills to think analytically and systematically about how past interactions of people, cultures, and the environment affect issues across time and cultures. Such knowledge and skills enable students to make informed decisions as socially and ethically responsible world citizens in the 21st century.

Time Frame:	Content/Topic	NJSLS	Observable Proficiencies/Skills	Performance Benchmarks/Suggested Assessments	Suggested Materials
<i>ongoing</i>	<u>OVERALL COURSE:</u> <u>Essential Questions:</u> 1) Why do we study history? 2) What regions of the world adhere or reject their classical values? 3) Which cultures value the individual over the group, or the group over the individual? 4) Does history illustrate steady progress, regress, undulation? What overall pattern can be perceived? 5) What is the primary motivator in world conflicts and decision-making: economic concerns, or belief systems? 6) How does artistic expression reflect the beliefs of a society? 7) How does geography affect culture, economics, values, politics, etc.? 8) Have human problems, issues, concerns, etc., changed or has it stayed the same over time?	NJSLS Social Studies 6.2 World History/Global Studies 6.3 Active Citizenship in the 21st Century Practices: See course-level alignment.	Develop historical questions and plan inquiries. Evaluate primary and secondary sources for credibility, context, perspective, and relevance. Develop evidence-based claims, explanations, and arguments. Compare diverse perspectives and connect historical developments to	Assessment Key: F = Formative S = Summative B = Benchmark A = Alternative assessment	Unit-specific primary and secondary sources, maps, charts, visual sources, multimedia, scholarly databases, and teacher-selected supplemental materials.

	9) Is human history a tale of class struggle, class symbiosis, ethnicity, nationalism, warfare, technological advancement, philosophical/religious concerns? 10) What career opportunities are available to those that study history/social studies		contemporary issues.

Create a letter to your state representatives detailing an environmental issue and a plan to help alleviate the situation. Relate the lingering effects of colonialism to the efforts of Latin American, African, and Asian nations to build stable economies and national identities. Explain how the disintegration of the Ottoman empire and the mandate system led to the creation of new nations in the Middle East. Analyze the causes and consequences of mass killings (e.g., Cambodia, Rwanda, Bosnia-Herzegovina, Somalia, and Sudan), and evaluate the responsibilities of the world community in response to such events.	Use simplified text and summaries of content. Use art visuals for students to respond to instead of text. Provide copies of notes At Risk Students: Provide copies of presentations and notes Extended time on assignments Gifted and Talented: Vary level of reading and primary source documents and debate

--	--	--	--	--	--

BENCHMARK ASSESSMENTS: Three times per year using common DBQ Project-based assessments and aligned historical thinking tasks:

Establish historical significance

Use and contextualize primary source evidence

Identify continuity and change

Analyze cause and consequence

Take historical perspectives

Evaluate the ethical dimensions of historical interpretation

NJSLS Social Studies Practices

Developing Questions and Planning Inquiry: Develop compelling and supporting questions and plan investigations connected to unit essential questions.

Gathering and Evaluating Sources: Locate, contextualize, and assess the credibility, relevance, and limitations of primary and secondary sources.

Seeking Diverse Perspectives: Analyze multiple viewpoints, including the experiences of historically marginalized and underrepresented groups.

Developing Claims and Using Evidence: Construct claims and counterclaims supported by relevant historical evidence and sound reasoning.

Presenting Arguments and Explanations: Communicate historical arguments and explanations in written, oral, visual, and digital formats.

Engaging in Civil Discourse and Critiquing Conclusions: Deliberate respectfully, evaluate reasoning and evidence, and revise conclusions when warranted.

Taking Informed Action: Apply historical understanding to contemporary issues and propose, evaluate, or carry out appropriate civic action.

Interdisciplinary Connections	<u>Connections to NJSL – English Language Arts:</u> W.IW.9-10.2: Write informative/explanatory texts (including the narration of historical events, scientific procedures/experiments, or technical processes) to examine and convey complex ideas, concepts, and information clearly and accurately through the effective selection, organization, and analysis of content. W.SE.9-10.6: Gather relevant information from multiple authoritative print and digital sources, using advanced searches effectively; assess the usefulness of each source in answering the research question; integrate information into the text selectively to maintain the flow of ideas, avoiding plagiarism and following a standard format for citation (MLA or APA Style Manuals). RI.CR.9-10.1: Cite a range of thorough textual evidence and make clear and relevant connections to strongly support an analysis of multiple aspects of what an informational text says explicitly and inferentially, as well as interpretations of the text. <u>Connections to NJSL – Mathematics</u> MP.4: Model with mathematics. SL.PE.9-10.1 Initiate and participate effectively in a range of collaborative discussions (one-on-one, in groups, and teacher-led) with peers on grades 9-10 topics, texts, and issues, building on others' ideas and expressing their own clearly and persuasively. SL.II.9-10.2 Integrate multiple sources of information presented in diverse media or formats (e.g., visually, quantitatively, qualitatively, orally) evaluating the credibility and accuracy of each source.
--------------------------------------	--

Career Readiness, Life Literacies, and Key Skills	● 9.1.12.CFR.1: Compare and contrast the role of philanthropy, volunteer service, and charities in community development and quality of life in a variety of cultures. ● 9.1.12.CFR.2: Summarize causes important to you and compare organizations you seek to support to other organizations with similar missions. ● 9.1.12.CFR.3: Research companies with corporate governance policies supporting the common good and human rights. ● 9.4.12.IML.3: Analyze data using tools and models to make valid and reliable claims, or to determine optimal design solutions (e.g., S-ID.B.6a., 8.1.12.DA.5, 7.1.IH.IPRET.8) ● 9.4.12.IML.4: Assess and critique the appropriateness and impact of existing data visualizations for an intended audience (e.g., S-ID.B.6b, HS-LS2-4). ● 9.4.12.TL.3: Analyze the effectiveness of the process and quality of collaborative environments. ● 9.4.12.TL.4: Collaborate in online learning communities or social networks or virtual worlds to analyze and propose a resolution to a real-world problem (e.g., 7.1.AL.IPERS.6). ● 9.4.12.IML.8: Evaluate media sources for point of view, bias, and motivations (e.g., RI.PP.9-10.5, 7.1.AL.IPRET.6). ● 9.4.12.IML.9: Analyze the decisions creators make to reveal explicit and implicit messages within information and media (e.g., 1.5.12acc.C2a, 7.1.IL.IPRET.4).
Computer Science and Design Thinking	● 8.2.12.ETW.2: Synthesize and analyze data collected to monitor the effects of a technological product or system on the environment. ● 8.2.12.ETW.3: Identify a complex, global environmental or climate change issue, develop a systemic plan of investigation, and propose an innovative sustainable solution. ● 8.2.12.EC.1: Analyze controversial technological issues and determine the degree to which individuals, businesses, and governments have an ethical role in decisions that are made. ● 8.2.12.EC.2: Assess the positive and negative impacts of emerging technologies on developing countries and evaluate how individuals, non-profit organizations, and governments have responded.

	● 8.2.12.EC.3: Synthesize data, analyze trends, and draw conclusions regarding the effect of a technology on the individual, culture, society, and environment and share this information with the appropriate audience. ● 8.2.12.ETW.4: Research historical tensions between environmental and economic considerations as driven by human needs and wants in the development of a technological product and present the competing viewpoints.

List of Accommodations and Modifications

Pascack Valley Regional High School District	
Social Studies/Business Accommodations/Modifications	
Category	Special Education Accommodations/Modifications (I.E.P. Specific)
Physical Arrangement of Room	
• Allow for preferential seating	
• Seat student near the teacher/presentation	
• Seat student near the door	
• Seat student near high performing student for informal partner pairs	
• Seat student near positive role model	
• Seat student away from disruptive/distracting student(s)	
• Set a designated study space in the room	
Instructional Activities	
• Provide guided notes and/or copies of notes	
• Provide students with summaries if applicable	
• Repeat and clarify directions if needed to ensure comprehension.	
• Allow students to choose partners or work independently, when needed	
• Provide extended time for curricular assignments as needed or specified in the IEP. Offer after- school or common time support.	
Independent Practice & Assignments	
• Allow extra time to complete tasks without penalty	
• Reduce reading/math/writing level of assignments	
• Require fewer correct responses to achieve grade	
• Allow computer printed/electronic assignments	
• Simplify complex written directions	
• Do not penalize for handwriting/spelling	
• Allow flexible grading on scoring rubric	
Assessments	
• Include word banks if helpful.	
• Bold, highlight, or underline instructions.	

• Reduce wording and/or organize directions (into checklists, e.g.) to simplify or make expectations more manageable.
• Reduce quantity of sections on an assessment
• Shorten wording of questions.
• Allow use of notes or formula pages on assessments.
• Revise wording or vocabulary choice to enhance comprehension.
• Reduce length of written assignments if needed.
• Reduce number of calculation questions required.
• Reduce the number of questions on an assessment, answer choices in a multiple-choice test, or parts of a writing assignment.
• Grade projects according to the intended learning target, such as content knowledge, analysis, or creativity.
• Make assessments visually appealing by reducing clutter and providing cues: for example, increase spacing, revise font, add or reduce lines, include boxes for responses, reduce the number of questions per page, highlight, bold or underline key words.
• Allow for extra time when needed. Offer options for completion during common time or after school.
• Offer re-test or re-do for assignments or assessments where effort was made but comprehension and skills need more time or opportunity to develop.
• Allow open book/notes for exams
• Give frequent short quizzes instead of lengthy exams
• Give exams/test items orally
• Give students their own copy of assessments that they can write on
• Allow extra time for assessments (specific to I.E.P.)
• Allow flexible schedule of assessment
• Allow flexible setting for assessment
• Allow student to assess on paper, if regularly scheduled for computer-based testing
Organizational Skills
• Provide a table of contents for notebook/binder; conduct a weekly clean-up
• Help the student create "to do" lists
• Provide opportunity for student to organize homework binder
• Set a designated study time during class/stick to a routine
• Assist student with maintaining a master calendar in the agenda book
Behavioral
• Use self-monitoring/self advocacy strategies
• Allow legitimate movement-in/out of room/short breaks

• Implement periodic/weekly behavior communication tools	
Pascack Valley Regional High School District	
Social Studies/Business Accommodations/Modifications	
Category	504 Plan Accommodations/Modifications (504 Specific)
Physical Arrangement of Room	
• Allow for preferential seating	
• Seat student near the teacher/presentation	
• Seat student near high performing student for informal partner pairs	
Instructional Activities	
• Provide guided notes and/or copies of notes	
• Provide student with summaries, if applicable	
Independent Practice & Assignments	
• Provide extended time for curricular assignments as needed or specified in the 504 Plan. Offer after- school or common time support.	
• Reduce homework/classwork, when appropriate	
Assessments	
• Allow use of notes or formula pages on assessments.	
• Allow for extra time when needed or specified in the 504 Plan. Offer options for completion during common time or after school.	
• Offer re-test or re-do for assignments or assessments where effort was made but comprehension and skills need more time or opportunity to develop.	
• Allow flexible schedule of assessment	
• Allow flexible setting for assessment	
Organizational Skills	
• Provide a table of contents for notebook/binder	
• Help the student create "to do" lists	
• Provide opportunity for student to organize homework binder	
• Set a designated study time during class/stick to a routine	
• Assist student with maintaining a master calendar in the agenda book	
Behavioral	
• Use self-monitoring/self advocacy strategies	
• Allow legitimate movement-in/out of room break, if needed	

• Implement periodic/weekly behavior communication tools	
Pascack Valley Regional High School District	
Social Studies/Business Accommodations/Modifications	
Category	At Risk Accommodations/Modifications
Instructional Activities	
• Provide a variety of concrete examples from familiar contexts	
• Build background knowledge of content and vocabulary from familiar contexts prior to readings	
• Use mental models to build understanding through familiar contexts	
• Provide oral & written instructions	
• Incorporate multimedia/audiovisual representation (YouTube, Discovery Education, TV Show parodies, etc.) to build understanding.	
• Use graphic organizers to guide notes, brainstorming, pre-writing, project planning, and test preparation	
• Model through processes during assignments and elicit student-generated thoughts to determine gaps in understanding	
• Highlight, bold, or underline main ideas in readings and in directions for writing assignments in the curricular areas	
• Provide guiding questions to complete during the activity.	
• Provide chunking of instructional notes and activities to allow for formative assessment (checks for understanding) before moving on to the next stage.	
• Choose cooperative learning groups to ensure effective work, maximize productivity and support socialization.	
• Use multiple intelligences or the student's learning style to facilitate effective learning when a student is having difficulty grasping concepts	
• Provide demonstrations, utilize pictures, or graphic to assist visual learners to support written text information	
• Include oral discussions, oral presentations, group collaboration, or other oral delivery methods to support auditory learners	
• Utilize hands-on activities, movement or rhythmic experiences to engage tactile/kinesthetic learners.	
Independent Practice & Assignments	
• Provide chunking of assignments into manageable steps, including checklists that clarify directions for assignments.	
• Provide a clear, concise version of a scoring rubric prior to the assignment or assessment.	
• Highlight distinctive features/key concepts	
• Provide choice of projects depending on the student's interests or strengths.	
• Provide peer assistance/study groups	
Assessments	
• Provide study guides and support outside of class time to review before assessments (common time or after school)	
• Provide extra time for review prior to an assessment	

• Review, repeat, and clarify directions	
• Include word banks if helpful	
• Chunk sections of assessment	
• Shorten wording of questions	
• Allow use of notes or formula pages on assessments	
• Revise wording or vocabulary choice to enhance comprehension	
• Reduce length of written assignments if needed.	
• Reduce number of calculation questions required.	
• Reduce the number of questions on an assessment, answer choices in a multiple-choice test, or parts of a writing assignment.	
• Grade projects according to the intended learning target, such as content knowledge, analysis, or creativity.	
• Allow for partial credit, when appropriate	
• Provide choices of questions or choices of projects depending on the student's strengths	
• Allow for alternative assessments to show comprehension of the content such as a project or other means	
• Allow use of familiar contexts to demonstrate understanding of key concepts when use of text evidence is not necessary.	
• Allow for extra time, when needed. Offer options for completion during common time or after school	
• Offer retest or re-do for assignments or assessments where effort was made but comprehension and skills need more time or opportunity to develop.	
Organizational Skills	
• Provide general assistance with organizational skills	
• Utilize homework assignment notebook/planner/agenda	
• Provide written intermediate timelines for long assignments	
• Have student monitor grade average	
Behavioral	
• Keep rules simple and clear	
• Implement a behavior management system	
Pascack Valley Regional High School District	
Social Studies/Business Accommodations/Modifications	
Category	Multilingual Learners Accommodations/Modifications
Instructional Activities	
• Provide a variety of concrete examples from familiar contexts	

• Build background knowledge of content and vocabulary from familiar contexts prior to readings
• Provide oral & written instructions
• Incorporate multimedia/audiovisual representation (YouTube, Discovery Education, TV Show parodies, etc.) to build understanding in native language.
• Use graphic organizers to guide notes, brainstorming, pre-writing, project planning, and test preparation
• Highlight, bold, or underline main ideas in readings and in directions for writing assignments in the curricular areas
• Provide guiding questions to complete during the activity.
• Provide chunking of instructional notes and activities to allow for formative assessment (checks for understanding) before moving on to the next stage.
• Choose cooperative learning groups to ensure effective work, maximize productivity and support socialization through language teams
• Provide demonstrations, utilize pictures, or graphic to assist visual learners to support written text information
• Include oral discussions, oral presentations, group collaboration, or other oral delivery methods to support auditory learners; also use visual representations to reinforce understanding
Independent Practice & Assignments
• Provide chunking of assignments into manageable steps, including checklists that clarify directions for assignments.
• Provide a clear, concise version of a scoring rubric prior to the assignment or assessment.
• Highlight distinctive features/key concepts
• Provide choice of projects depending on the student's interests or strengths.
• Provide peer assistance/study groups/ ML support
Assessments
• Provide extra time for review prior to an assessment
• Review, repeat, and clarify directions
• Include word banks if helpful
• Chunk sections of assessment
• Shorten wording of questions
• Allow use of notes or formula pages on assessments in native language
• Revise wording or vocabulary choice to enhance comprehension
• Reduce length of written assignments if needed.
• Reduce the number of questions on an assessment, answer choices in a multiple-choice test, or parts of a writing assignment.
• Grade projects according to the intended learning target, such as content knowledge, analysis, or creativity.
• Allow for partial credit, when appropriate
• Allow for alternative assessments to show comprehension of the content such as a project or other means

• Allow use of familiar contexts to demonstrate understanding of key concepts when use of text evidence is not necessary.	
• Allow for extra time, when needed. Offer options for completion during common time or after school	
• Offer retest or re-do for assignments or assessments where effort was made but comprehension and skills need more time or opportunity to develop.	
Organizational Skills	
• Provide general assistance with organizational skills	
• Utilize homework assignment notebook/planner/agenda	
• Provide written intermediate timelines for long assignments	
• Have student monitor grade average	
Behavioral	
• Keep rules simple and clear	
Pascack Valley Regional High School District	
Social Studies/Business Accommodations/Modifications	
Category	Gifted and Talented Accommodations/Modifications
Instructional Activities	
• Provide supplementary or lengthier readings	
• Provide enrichment activities	
Independent Practice & Assignments	
• Use inquiry-based practices and allow student opportunities to conduct additional research	
• Provide supplementary or lengthier readings with higher-level questions	
• Provide assignment choices that require more detail and deeper understanding	
Assessments	
• Provide additional questions that prompt extensions of understanding	
• Require research for projects; in a specified format	
• Provide assessment choices that require more detail and deeper understanding	

Career Options for Jobs that Involve Social Studies

Social studies focus on society, and social studies professionals may concentrate on understanding how people are shaped and influenced by peer groups, their culture, or other societal factors. While some social studies professionals primarily conduct research to determine how people are affected by social variables, others may focus on how these social variables can be used to predict people's behavior. A handful of these social studies career options are profiled below:

Career Information for Jobs that Involve Social Studies**Sociologists**

Sociologists are professionals with a master's or doctoral degree in their field. They focus on understanding social groupings and behavior, and may be involved in research or make recommendations about how to address specific issues in society. Since their work focuses on understanding how society can influence behavior, they work within the field of social studies.

Historians

Historians research the past and educate people about historic events, artifacts or developments. Their work focuses on civilizations and incidents involving people in the past, which is why it falls within the social studies field. They might use the data from their research to form conclusions about why a society relocated or how cultural beliefs in a particular group evolved. They may need a doctoral degree, although it is possible to enter this field with a master's degree in history.

Postsecondary Teachers

Postsecondary teachers instruct college and university students in a specific subject they've specialized in. They typically need a doctoral degree, although entry-level positions may be obtained with a master's degree in some cases. Postsecondary teachers who instruct students in subjects such as criminology or history spend their career focused on social studies. As part of their work, postsecondary teachers usually also participate in research related to their specialty.

Anthropologists and Archeologists

Anthropologists and archeologists must have a master's or doctoral degree to work in their field. While archeologists may be involved in recovering historic artifacts from dig sites around the world, anthropologists focus on how humans have developed over time.

Archeologists and anthropologists help discover evidence that relates to how cultures have evolved, how significant events have impacted people's behavior, and how social constructs, such as politics, have developed. Since they focus on issues related to society and behavior, they work within the field of social studies.

Political Scientists

Political scientists focus on the history and development of political systems. They may research political ideologies or study how political trends have evolved over time. They are social science professionals because understanding how politics shape society and impact individual and group behavior is part of what political scientists focus on. They are professionals with master's or doctoral degrees who perform research, analyze the information gained from their research, and use that data to develop predictions about the effects of political policies or structures.

Market Research Analysts

With a bachelor's degree, it's possible to become a market research analyst. Market research analysts examine consumer demographics, along with data collected from opinion polls and surveys, and then use what they learn to make recommendations about actions companies should or should not take. For example, they may recommend that a new product be developed and provide pertinent information about the customers they expect would be interested in that product. Market research analysts are professionals who focus on understanding what influences the purchasing decisions people make and the economic variables that should be considered when making business decisions. Since they focus on determining financial and societal factors that can affect consumer choices, their work involves the use of social studies.
