

TUMWATER HIGH SCHOOL

COUNSELING CENTER • YOUR NEXT CHAPTER STARTS HERE

Here to Help You Soar! ✨

Your success is the mission. Tumwater High School counselors work with students to build strategies for success in academics, social skills, and planning for life after high school. They help students recognize their strengths, navigate challenges, set goals, make thoughtful choices, and consider the consequences.

Counselors can also help you understand credits and graduation requirements, choose classes, track your progress, explore interests, plan for college and careers, and work through social or emotional concerns. You don't have to figure it all out alone!
