

AI Use Disclosure

Name: _____ Date: _____

Assignment: _____ Course: _____ Period: _____

Basic Principles

Artificial intelligence (AI) contributed to the completion of this assignment. I certify the following:

- ☐ My use of AI follows the policies and instructions from both the school and my teacher, AND
- ☐ If the AI was a human being, its contribution would be allowed, AND
- ☐ My contribution to the final product was substantial and thoughtful.

Note to students: If a student cannot truthfully agree with all of these statements, then he/she needs to either do more transformative work or redo it without the assistance of AI. Finally, understand that AI is not always accurate (it has “hallucinations”) and that the students are responsible for verifying all of the information in every assignment.
