

Minutes of Student Health Advisory Committee

February 16, 2026 – 3:00 pm – Professional Development room/Admin Bldg

Meeting was called to order by Chair Michael Mitchell at 3:05 pm. Chair Mitchell stated that a quorum was present and that the meeting agenda had been duly posted. Mitchell led the invocation and the pledges to the flags.

Twelve attendees present were: Mitchell, Faye Pearson (Community), Shari Phillips (REACH council), Vickie Coonrod (ISD), Sarah Tucker (ISD), Chris Rosamond (ISD), Lauren Wilson (Parent), Katie Tackett (ECCHC), Adele Mooney (Community), Jenna Ballard (ISD), Tammy Clark (ISD), and Tony Tucker (Community). A quorum of voting members was present.

Adele Mooney moved and Tony Tucker seconded a motion to approve the minutes of the January 6, 2026, meeting. Motion passed unanimously.

Shari Phillips with REACH Council presented information on the Student Survey (regarding tobacco/alcohol/drug use). She stated that by current law, the parent must opt-in to have their student take the survey - which is anonymous. Jenna Ballard stated that there may be a way to include the opt-in request with other items that will be pushed out to parents such as registration and health information. Shari commented that some area schools are seeing a good response and number of students taking the survey. She also stated that the survey is handled online and she would need to know the date that it closes. The school board can choose whether or not to publish any results. The survey is designed for 6th through 12th grades. Tony Tucker asked about the feasibility of including 5th graders since they are also housed at the Middle School. Shari said it would be wise to include them. She asked the counselors to review the survey and to get back to her with any suggestions for more or different questions. Adele Mooney moved and Faye Pearson seconded a motion to approve the Student survey for the next school year. Motion passed unanimously.

Meeting was adjourned at 3:22 pm.

Respectfully submitted,

Adele Mooney
