Arrowhead Family Involvement Plan 2026–2027

Parents and staff members collaborated to develop the following plan based on the results of the Title I End-of-Year Survey. The Family Involvement Plan will be shared in the Arrowhead Weekly Newsletter to provide families with opportunities to offer suggestions, feedback, and comments so the plan can be revised as needed. Additionally, a paper copy of the plan will be available at Arrowhead during Parent-Teacher Conferences on October 13 and 15.

For the 2026–2027 school year, Arrowhead will:

- Use Title I funds to purchase reading and math resources that will allow classroom and intervention teachers to differentiate instruction. Resources will be selected by building instructional specialists and administrators.

- Build caregivers' capacity to support students at home by providing a monthly literacy newsletter and additional math resources.

- Engage the school community in literacy through participation in One Book, One School. An evening family event will be held to celebrate literacy and encourage family engagement.

- Use district screening assessments and hold regular data meetings with teaching staff to discuss student growth, identify areas of need, and plan appropriate interventions.

- Provide math and literacy interventions to students based on building data. Information about these interventions and students' progress will be communicated with caregivers.

- Review and revise the Family Involvement Plan annually. Literacy specialists, math specialists, and building principals will review the plan during weekly meetings with building specialists.

- Families can request a paper copy of the Building Family Involvement Plan upon request; this will be noted in the AES newsletter.
