

HIGH PERFORMANCE

SPORT • PERFORMING ARTS

Excellence in every pursuit.
Faith at the heart of education.

flexible learning.
personal support.
freedom to excel.

**ACHIEVE
THROUGH
CHRIST**

BIG AMBITIONS DESERVE AN EDUCATION THAT KEEPS PACE

Training before sunrise. Rehearsals after school. Weekends on the road. For young people pursuing high-level sport or the performing arts, commitment rarely fits neatly into a standard school week.

Faith High Performance (FHP) is a purpose-built program for students in Years 5–12 and combines flexible learning with individual planning and personal support, helping students continue their education while developing their God-given gifts and pursuing excellence in their chosen field.

WHY FAITH HIGH PERFORMANCE

Flexible Learning

Students can learn from anywhere, at home or on the road. Learning and assessment arrangements are individually planned, alongside training, rehearsals, travel and competitions.

Structured Academic Plan

An individual academic plan helps students stay on track with Faith's curriculum alongside their other commitments. In Years 11–12, students can access senior study options leading to a QCE and an ATAR-eligible pathway.

Christian Education

Faith's Christian education encourages students to pursue excellence, develop their God-given gifts and grow in character, faith and purpose in Christ.

WHO IS FAITH HIGH PERFORMANCE FOR?

Faith High Performance is for students in Years 5–12 with significant commitments in sport or the performing arts who need a more flexible way to manage their education.

From intensive training and competition to touring productions and dedicated music practice, each student receives individual planning and support to keep progressing with their education at Faith.

FHP can support students across a wide range of pursuits, including:

Competitive Sport

Students pursuing demanding pathways in sports such as swimming, running, gymnastics or football.

Ballet & Dance

Dancers undertaking intensive training or academy programs alongside their education.

Performing Artists

Students pursuing theatre, circus or other performance pathways, with regular rehearsals, productions or touring.

Advanced Musicians

Students involved in conservatorium or elite ensemble programs, with substantial practice, recitals or touring commitments.

Representative Athletes

Students representing Queensland or Australia while managing a demanding competition schedule alongside their studies.

Emerging Professionals

Students preparing for a career in sport or the performing arts through intensive training and experience.

HOW FAITH HIGH PERFORMANCE WORKS

Your child's commitments are considered from the start. The FHP Director works with your family to plan learning and assessment, identify a suitable way to study and keep the plan responsive as circumstances change.

1 Understand your child's pathway

Discuss your child's goals, learning needs and commitments with the FHP Director. Coach input can be included where appropriate.

2 Create the IEP-HP

The Individual Education Plan for High Performance maps learning requirements around your child's schedule, with flexibility planned for key competition or performance periods.

3 Choose a way to learn

The Individual Pathway offers online, self-paced study for students who need flexibility to learn from home or while travelling. The Hub Cohort provides structured, supervised learning with peers at a studio, club or training venue.

4 Review and adjust

The FHP Director supports your family throughout the program. The plan is reviewed each semester and can be adjusted as your child's commitments or needs change.

TWO WAYS TO LEARN

Faith High Performance offers two pathways for accessing Faith's distance education program. The right fit depends on your child's schedule, learning needs and training environment.

Individual Pathway

Online, self-paced learning gives students flexibility to study from home or while travelling. It may suit students with frequent travel or schedules that vary from week to week.

Hub Cohort

Small groups meet at a studio, club or training venue for structured, supervised learning alongside peers. It may suit students who benefit from a shared learning environment, such as dance cohorts, music ensembles or academy-based groups.

The Faith High Performance Director can help your family explore which pathway may best suit your child.

2027 FAITH HIGH PERFORMANCE FEES

The annual FHP fee includes Faith Christian School fees.

FEES	YEARS 5 – 12
Existing students	\$1,500
New enrolments	\$2,500

Payments can be made by credit card, direct transfer or direct debit.

FREQUENTLY ASKED QUESTIONS

Which year levels can join Faith High Performance (FHP)?

FHP is available to students in Years 5–12. The Junior pathway supports Years 5–9, and the Senior pathway supports Years 10–12.

How does FHP support my child's academic progress?

Students continue working towards the learning expectations for their year level. FHP helps them balance their studies with the demands of high-performance training, rehearsal and competition, so they can keep progressing in both.

Is Faith High Performance homeschooling?

No. Your child remains enrolled at Faith Christian School of Distance Education, learns from Faith teachers and follows the Faith curriculum. FHP is a dedicated support program within the school.

Can my child complete Year 12 and pursue an ATAR through FHP?

FHP is designed to support students through Year 12, including the demands of an ATAR-eligible pathway. Students can access Faith's senior subject options and complete the QCAA assessments required for their chosen subjects. Flexible learning arrangements help them manage senior study alongside their training, rehearsal and competition commitments.

What if my child's schedule or pathway changes?

High-performance pathways can change, and your child's learning plan can change with them. The IEP-HP is reviewed each semester and adjusted as needed—whether your child changes sport or artistic focus, steps away from performance, or is recovering from injury. Their plan can adapt to reflect their current goals and circumstances.

Will my child have opportunities to connect with others?

FHP creates opportunities for students to connect in our community through Hub Cohort sessions, immersions and tours. Sharing these experiences can help them build friendships and a sense of belonging with peers who understand the commitment involved in high-performance sport or the performing arts alongside their education.

FREQUENTLY ASKED QUESTIONS

What does FHP membership include?

Membership includes direct, personal support from the FHP Director, individual IEP-HP planning, group wellbeing and psychology sessions, and priority access to domestic immersion experiences. Sports chaplaincy, international tours and one-to-one tutoring are available as optional add-ons.

How flexible is FHP?

FHP is planned around each student's training and performance commitments, rather than a fixed timetable. The FHP Director works with your family to plan learning and assessment arrangements around key dates. If your child's schedule or needs change, you can review the plan together and adjust it where possible.

Is FHP an add-on to Faith's standard learning program?

No. FHP is a flexible learning pathway within Faith, designed around each student's high-performance commitments. The FHP Director coordinates the student's academic plan and support through the program, rather than adding FHP to a standard timetable.

TAKE THE NEXT STEP

Every student's pathway is different. Contact us to discuss your child's goals, commitments and learning needs, and explore how Faith High Performance can support them to pursue excellence in sport or the performing arts, develop their God-given gifts and continue their education in a Christ-centred community.
