ST. MARY'S COUNTY PUBLIC SCHOOLS LAUNCHES NEW FACILITIES SCHEDULING PLATFORM FOR COMMUNITY USERS ON NOVEMBER 2, 2026

LEONARDTOWN, MD — St. Mary's County Public Schools (SMCPS) will open its new facilities scheduling platform, Event Manager (formerly SchoolDude), to community users on November 2, 2026.

Community users will be able to access Event Manager through the Use of School Facilities webpage on the SMCPS website beginning Monday, November 2, 2026. Brochures and guides will be available on the webpage to help users navigate the application process.

All organizations and community users must submit a new application through Event Manager. Existing SchoolDude accounts will not transfer to the new system. Organizations must also provide current insurance information as part of the application process. Applications must be approved before events can be booked.

Please use Event Manager for facility requests scheduled on or after January 1, 2027. For events occurring now through December 31, 2026, continue submitting requests in SchoolDude.
