Incorporating Air Quality and Thermal Comfort into our Major Project Updates

Measure Y Major mondernational projects are intentionally incorporating:

- High-performance building envelopes to reduce heat gain.
- Modern HVAC and ventilation systems.
- Improved glazing and insulation.
- All-electric building systems where feasible.
- Designs that support long-term thermal comfort and indoor air quality

Major Modernization/Expansion Projects: McClymonds, Roosevelt, Garfield Elementary, Melrose Leadership Academy, and Coliseum College Preparatory Academy
